Reopening of Comment Period for Control of Emissions of Air Pollution from 2004 and Later Model Year Highway Engines and Vehicles; Revision of Light-duty Truck Definition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of reopening of comment period.

SUMMARY: EPA is reopening the comment period for the proposed rule for the control of emissions of air pollution from 2004 and later model year heavy-duty vehicles and engines. The Notice of Proposed Rulemaking (NPRM) was published in the **Federal Register** on October 29, 1999 (64 FR 58472). The close of the comment period for all issues related to the proposed rule was originally December 2, 1999. EPA is extending the closure of the comment period to December 16, 1999 for all issues except those related to the proposal to revise the light-duty

truck definition. Comments related to this issue, contained in the proposed rule Supplementary Information, Section IV.F, will continue to be accepted only through December 2, 1999.

DATES: Comments regarding the proposed rule Supplementary Information, Section IV.F, entitled "Proposal to Revise the Definition of Light-duty Truck," at 64 FR 58502-58507, will be accepted through December 2, 1999. Comments regarding all other issues related to the proposed rule will be accepted until December 16, 1999.

ADDRESSES: Comments on the proposal should be sent to: EPA Air and Radiation Docket, Attn: Docket No. A-98-32, Room M-1500 (Mail Code 6102), 401 M Street SW, Washington, DC 20460. EPA requests that a copy of the comments also be sent to the contact person listed below.

FOR FURTHER INFORMATION CONTACT: Margaret Borushko, U.S. Environmental Protection Agency, Engine Programs and Compliance Division, 2000 Traverwood Drive, Ann Arbor, MI, 48105-2498. Telephone (734) 214-4334; Fax (734) 214-4816; e-mail borushko.margaret@epa.gov.

SUPPLEMENTARY INFORMATION: On October 29, 1999 EPA published a proposal regarding emission standards and compliance procedures for heavy-duty vehicles and engines that would take effect in the 2004 model year. The comment period on this proposal was scheduled to end on December 2, 1999.

EPA held a public hearing on November 2, 1999 to provide opportunities for interested parties to comment on issues pertaining to the proposed rule. At the hearing, several commenters requested a longer comment period. EPA has also received written requests to extend the comment period to give affected parties more time to address the issues raised in the NPRM.

Although EPA originally intended to finalize this rulemaking by December 31, 1999, and all available resources were committed to achieving this, EPA now agrees that extending the comment period may be beneficial. This extension does not apply to the comment period for the specific provision that proposes to revise the definition of light-duty truck (see 64 FR 58502-58507). This provision was initially discussed in the Tier 2 NPRM (see 64 FR 26089) and received significant comments on this issue at that time. EPA expects to include final provisions in the final Tier 2 rule, expected to be completed by December 31, 1999. Additional

comments on this issue will be only accepted until December 2, 1999.

Dated: November 30, 1999.

Robert Perciasepe,

Assistant Administrator for Air and Radiation.
