#### 1. Scope of survey

This survey covers public warehouses holding cotton.

#### 2. Figures to be reported

Companies with more than one establishment holding the products covered by this survey are requested to complete a separate form for each location. If you have not received a separate report form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms.

Report stocks of cotton in your possession at this establishment at the close of business of the day indicated regardless of the year or locality of growth. Your figures should include cotton -

On hand for which you have issued warehouse receipts

On hand for which you have not issued warehouse receipts (including transit bales under your control).

Held for the account of the Commodity Credit Corporation

*but exclude* cotton -

In transit to or from your warehouse not under your control.

Stocks of cotton and linters waste, motes, etc.

#### Units of measure

Report in the unit of measure specified for each item.

Convert foreign cotton to 500 pounds equivalent gross weight bales by dividing the total weight including baling materials by 500, or the net weight of the cotton excluding baling materials by 480.

#### 3. Definitions

American Upland cotton includes both rain grown and irrigated. Do not assume that all irrigated and/or roller ginned cotton is extra long staple.

#### 4. Special inquiry for July 2008

A supplemental inquiry will be included with your July report. Use the above definition when completing this inquiry.
