## MA321T — LUMBER PRODUCTION AND MILL STOCKS

### DEFINITIONS AND SPECIAL INSTRUCTIONS

#### 1. Scope of survey

This survey covers sawmills producing lumber, sawed ties, and timbers from roundwood, whether sawed for own use, sawed on contract for others, custom sawed, or sawed for sale.

#### 2. Figures to be reported

Companies operating more than one sawmill are requested to complete a separate report for each sawmill operated. However, a combined report may be filed for operations within the same county if separate records are not kept for each mill. Report in Section 2 the number of sawmills included in each annual report. Do not include those mills sawing for you on a contract basis, or sawmills for which you do not pay the wages of the mill hands. If you have not received a report for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms.

##### a. Gross stocks of lumber on hand

*Section 1* — Report the gross stocks of lumber on hand on December 31 of the reporting year in thousands of board feet. Include all stocks whether sold or unsold; include rough, finished, green, and dry lumber on hand. Stocks on hand on December 31 will not equal production for the year in most cases.

##### b. Number of sawmills

*Section 2* — Report the number of sawmills included in this report.

##### c. Lumber produced

*Section 3* — Report the total quantity of each species of lumber, sawed ties, and timbers produced from roundwood in this mill in thousands of board feet green tally.

#### 3. Definitions

*Other softwoods and other hardwoods* — those species that are not listed in the Reference List.

*Eastern species* — includes species for Eastern States.

The following states are defined as Eastern States for the purposes of this report; sawmills in these states should report all production in the eastern species categories in Section 3 of the reporting form:

Alabama	Maine	North Dakota
Arkansas	Maryland	Ohio
Connecticut	Massachusetts	Oklahoma
Delaware	Michigan	Pennsylvania
Florida	Minnesota	Rhode Island
Georgia	Mississippi	South Carolina
Iowa	Missouri	Tennessee
Illinois	Nebraska	Texas
Indiana	New Hampshire	Vermont
Kansas	New Jersey	Virginia
Kentucky	New York	West Virginia
Louisiana	North Carolina	Wisconsin

- (1) *Other eastern softwoods* includes eastern red cedar, white cedar, cypress, eastern hemlock, tamarack, etc.
- (2) *Other eastern hardwoods* includes basswood, boxwood, butternut, elm, hackberry, sycamore, etc.

*Western species* — includes species for Western States.

The following states are defined as Western States for the purposes of this report; sawmills in these states should report all production in the western species categories in Section 3 of the reporting form:

Alaska	Idaho	South Dakota
Arizona	Montana	Utah
California	Nevada	Washington
Colorado	New Mexico	Wyoming
Hawaii	Oregon	

- (3) *Other western softwoods* includes western hemlock, larch, etc.
- (4) *Total western hardwoods* includes alder, aspen, birch, cottonwood, maple, oak, etc.
