2007 MA325G — PHARMACEUTICAL PREPARATIONS EXCEPT BIOLOGICALS (MANUFACTURERS)

## DEFINITIONS AND SPECIAL INSTRUCTIONS

### 1. Scope of survey

This survey covers manufacturers of pharmaceutical preparations, except biologicals, in the United States, and includes all preparations which can be dispensed in measured portions to produce the therapeutic effect for which the preparation is most commonly employed (liquids, tablets, pills, capsules, lozenges, powders, ointments, jellies, salves, inhaler tubes, etc.). Products manufactured in Puerto Rico or other U.S. possessions should be excluded.

### 2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate form for each of your establishments, please call the contact listed on the report form or write to the U.S. Census Bureau for additional forms.

*Operations for which data should be reported include:*

Manufacturing drugs in packaged dosage form for consumer use

Manufacturing drugs in dosage form and shipping in "bulk" type containers for repackaging or for export

Compounding pharmaceutical preparations and shipping dosage forms in "bulk"

Please examine the reference list to determine which of the listed pharmaceuticals are produced by you. If you are unable to find a specific line which describes a drug product, include this product in the not elsewhere classified (n.e.c.) product category at the end of the product grouping with which it is most closely associated. In the "n.e.c." products categories, a separate line should be used to describe and report each major product. Describe each "n.e.c." product by using common commercial name, generic name, or other specific name, and enter any other name, description, or use that will help to classify the product using the "Remarks" section for additional space if necessary.

#### a. Value of shipments

Report total value of shipments of each pharmaceutical preparation sold, transferred to other establishments within your company, or shipped on consignment, whether for domestic or export sale. Value represents the net sales price, f.o.b. plant, to the customer or branch to which the products are shipped, net of discounts, allowances, freight charges, and returns. Shipments to your own branches should be assigned the same value as comparable sales to unaffiliated customers, i.e., the value includes an appropriate allocation of company overhead and profit.

Products bought and resold without further manufacture should not be included in shipments.

Establishments shipping dosage forms, in bulk and requiring repackaging, to other establishments of the same company, should report in column (4) a transfer value reflecting only services or operations performed including profit (or loss) normally assigned to the manufacturing establishment. For plants shipping similar products to other companies for repackaging report in column (4) dosage forms shipped in bulk at net sales value as defined above.

*Commercial shipments (packaged for consumer use)*  
Report the value of each drug product produced in dosage form, packaged for consumer use and shipped from this establishment to sales branches, warehouses of your company, wholesale or retail stores, and other commercial customers such as hospitals, institutions, etc.

*Contract operations include* shipments of products made for others from your own materials. Exclude receipts for capsulating and/or packaging of preparations owned by others; companies for whom such work is done should report value of shipments of these products.

#### b. Units of measure

Report values in thousands of dollars.

#### c. Columnar structure of report

When posting your figures to the original report, be sure to report the information in the correct columns.

*Column 1 (Total)* — Report the sum of columns 2 through 4.

*Column 2 (Prescription legend)* — Report the value of each drug product which by Federal Law is available only by prescription from a licensed practitioner.

*Column 3 (Non-prescription)* — Report the value of each non-prescription drug product shipped.

*Column 4 (Bulk shipments)* — Report the value of each drug product shipped in dosage forms, or in bulk, requiring only repackaging.

**Note:** Export shipments are to be included in these figures.

### 3. Definitions

The product detail for this survey, as shown in the Reference List is defined according to standard nomenclature for this industry.

## CURRENT INDUSTRIAL REPORTS

### DEFINITIONS AND SPECIAL INSTRUCTION — Continued

#### 4. Comparability

Data reported in this survey should correspond to data reported in the Economic Census-Manufacturing Sector Form. The sum of values for item codes shown in column (a) should correspond to the dollar values reported under product codes indicated in column (b) below:

Current Industrial Reports (Form MA325G)	Economic Census Manufacturing Sector
Item codes (a)	Product codes (b)
5113 through 5198	3254121100
5211 through 5298	3254124100
5325 through 5397	3254127100
5412 through 5489	325412A100
5511 through 5597	325412D100
5611 through 5698	325412G100
5711 through 5797	325412L100

5911 through 5997	325412T100

# CURRENT INDUSTRIAL REPORTS

## REFERENCE LIST

FORM MA325G		PHARMACEUTICAL PREPARATIONS EXCEPT BIOLOGICALS (MANUFACTURERS)
Product code	Item code	Item description
		<b>PHARMACEUTICAL PREPARATIONS AFFECTING NEOPLASMS, ENDOCRINE SYSTEM AND METABOLIC DISEASES, FOR HUMAN USE</b>
		<b>Hormones and synthetic substitutes</b>
3254121114	5113	Corticoids, such as cortisone, desoxycorticosterone, hydrocortisone, and prednisone, including systemic, local and topical (including anti-infective combinations)
3254121121	5117	Androgens, except anabolic agents, such as fluoxymesterone and methyltestosterone
3254121126	5119	Estrogens, such as estradiol and estrone
3254121131	5121	Insulins and anti-diabetic agents such as glucagon and sulfonylureas
3254121141	5127	Oral contraceptive preparations (Report vaginal contraceptives in code 325412D191)
3254121146	5129	Progestogens, such as ethisterone and progesterone (Report premenstrual tension preps in code 325412D193)
3254121156	5135	Thyroid and antithyroid preparations, such as iodides and propylthiouracil
3254121161	5137	Anabolic agents (synthetic and semisynthetic androgens employed primarily for anabolic activity), such as nandrolone phenpropionate and norethandrolone
3254121165	5138	Other hormone preparations, such as chorionic gonadotropin, parathyroids, and vasopressin, ACTH (corticotropin), and Sex hormone combinations (except progestogen combinations)
		<b>Anti-neoplastic agents</b>
3254121177	5146	Anti-neoplastic agents, including busulfan, chlorambucil, cyclophosphamide, vincristine and antimetabolites (folic acid, purine, and glutamine antagonists), and Radioactive isotopes for internal use
3254121181	5198	<b>Other pharmaceutical preparations affecting neoplasms, the endocrine system and metabolic diseases such as metabolic agents, parenteral fats, carbohydrates, and protein preparations</b>
3254121 --	5199	<b>TOTAL, PHARMACEUTICAL PREPARATIONS AFFECTING NEOPLASMS, ENDOCRINE SYSTEM AND METABOLIC DISEASES, FOR HUMAN USE</b>
		<b>PHARMACEUTICAL PREPARATIONS ACTING ON THE CENTRAL NERVOUS SYSTEM AND THE SENSE ORGANS, FOR HUMAN USE</b>
3254124111	5211	<b>Parasympathomimetic cholinergic drugs</b> (agents employed mainly for treatment of myasthenia gravis) such as ambenonium, neostigmine, and pyridostigmine
3254124114	5213	<b>Skeletal muscle relaxants</b> such as methocarbamol and metaxalone
		<b>Internal analgesics and antipyretics</b> (Report external analgesics in codes 325412G146 to 325412G161)
		Narcotic, such as alphaprodine, meperidine, methadone, and morphine
3254124117	5219	Opium and derivatives
3254124121	5220	Synthetic narcotics

FORM <b>MA325G</b>		
Product code	Item code	Item description
		<b>PHARMACEUTICAL PREPARATIONS ACTING ON THE CENTRAL NERVOUS SYSTEM AND THE SENSE ORGANS, FOR HUMAN USE — Continued</b>
		<b>Internal analgesics and antipyretics</b> (Report external analgesics in codes 325412G146 to 325412G161) — Continued
		Non-narcotic
3254124122	5221	Salicylates, including Aspirin (acetylsalicylic acid), and others such as sodium salicylate
3254124131	5225	Aspirin combinations
3254124134	5226	Acetaminophen and combinations
3254124137	5227	Anti-arthritics and anti-inflammatory agents (non-hormonal), such as flunisolide and fluorometholone
3254124141	5228	Other internal analgesics and antipyretics including effervescent types and suppositories, such as acetophenetidin, and ethoheptazine
3254124144	5241	<b>Anticonvulsants, except barbiturates and analogs</b> (For treatment of petit mal, grand mal, psychomotor and focal epilepsy) such as phenytoin, ethotoin, paramethadione, and methsuximide
		<b>Psychotherapeutic agents</b>
3254124147	5251	Antidepressants (for treatment of psychoneurotic depression, involutional melancholia, the depressive phase of manic-depressive psychosis and the depression of schizophrenia), such as imipramine hydrochloride, isocarboxazid, and maprotiline  Tranquilizers (for treatment of emotional instability and anxiety-tension states). Report sedatives in codes 3254124171 to 3254124181
3254124151	5255	Phenothiazine derivatives, such as promazine, prochlorperazine, and thioridazine
3254124154	5257	Other tranquilizers, such as chorprothixene and molindone
3254124157	5259	Other psychotherapeutic agents
3254124165	5265	<b>Central nervous system stimulants, including amphetamine, anorexiant containing CNS stimulants such as phenylpropanolamine hydrochloride, except amphetamines (Report diet aids containing local anesthetics in code 3254124189), and other, (respiratory and cerebral stimulants, including sympathomimetic agents employed mainly as CNS stimulants)</b> (exclude nondrug dietaries for weight control)
