MANAGEMENT SERVICES CENTER CHARGES ON ENERGY MANAGEMENT SERVICES SCHEDULE

We are energized about our new Energy Management Services Schedule that will provide agencies with energy and energy related services. The Federal Supply Schedule Program will provide energy management services to all Federal activities that strive to meet energy and environmental goals and requirements. Look for our first award this summer.

Services provided in our new Energy Management Services Schedule are covered under the following Special Item Numbers (SINs):

- SIN 871-200 - Energy Management Program Support – Information on energy conservation, use of alternative energy sources, suggested upgrades of electrical and mechanical infrastructure, energy choice analysis, energy planning and strategies, and preparing agency statements of work.
- SIN 871-201 - Energy Audit Services – Information on energy conservation, planning and strategies, risk management, energy choice analysis, billing and management oversight, and preparing agency statements of work.
- SIN 871-203 - Managing the Procurement and Use of Natural Gas – Supplying natural gas and emergency power sources.
- SIN 871-204 - Managing the Procurement and Use of Electricity – Supplying electricity and emergency power sources.
- SIN 871-205 - Managing the Procurement and Use of Electricity from Renewable Energy Sources - Supplying electricity from renewable sources and for emergency power.

For more information on this Schedule, please visit our web site: www.northwest.gsa.gov/fss/services/msc.htm

FRONT AND CENTER.

With **Hurrisafe 9010** all-purpose cleaner/degreaser, cleaning tasks are simplified and safe. Proudly manufactured in the United States by PCI of America, Hurrisafe's 100% aqueous cleaning agents are "Readily Biodegradable" per USEPA 796.3200 and USDA approved.

- Safe for all metals, brass, copper, and painted surfaces
- GSA Environmentally Preferred
- Residue-Free—cleaning without oily residue
- Compatible with oil/water separators
- Chemically compatible for wastewater treatment
- Contains no caustics/terpenes/d-limonene
- GSA Advantage![™] Program

For more details about 9010 or other Hurrisafe products, call Bobbie Pettit at **1-800-222-1455** or visit us at www.hurrisafe.com.

Order on-line at **GSA Advantage!** at www/fss.gsa.gov

Instead of this...

With the recent addition of Xerox brand to stock at the premium grade level, GSA now has compliant recycled copier paper in every size, color and price point. Now, the entire GSA Recycled Copier Paper family is in complete compliance with President's Executive Order 13101. This stricter and greener order, issued October, 1998, requires that all copier paper contain 30% postconsumer material (PCM).

GSA sells recycled copier paper only, because it is fully confident concerning its high quality. In addition to the Xerox brand paper, GSA's other recycled copier papers are manufactured in the same mills that make the name brands you've always used and relied-upon. And they give our recycled paper the same attention to quality that they've always given the best papers they manufacture.

GSA recycled copier paper is multi-purpose paper. It runs well in desktop or high speed copiers, plain paper fax machines, ink jet printers, and laser printers —even manual and electric typewriters — so you'll be saving on inventory and storage space, because you'll need to keep only one stock of paper.

Note: For best results during the warmer months, paper manufacturers recommend that all copier paper — regardless of brand — be acclimated to the atmosphere (temperature and humidity) of the room in which it is to be used for about 24 hours prior to use by simply opening the carton.

It's a win-win-win situation! This is an opportunity to help protect the environment, save needed landfill space and preserve forest-

Price:	\$29.99

Users of GSA Recycled Copier with 30% postconsumer content (PCM) are assured

GSA Recycled Copier Paper

of quality appearance, compliance with all recycling regulations, and performance

Fully Compliant and Totally Reliable

that meets and often exceeds industry standards for all copier paper — recycled and virgin.

In a recent study conducted by the Government Printing Office (GPO) and three manufacturers of office equipment, GSA copier paper with 30% PCM performed as well as and often better than both copier paper with 20% PCM and virgin content copier paper. In earlier tests, recycled paper had no problem matching non-compliant copier paper in appearance, and had fewer contaminants. It measured thicker than the non-compliant paper — and that means fewer jams.

land, without sacrificing the quality and reliability your agency's equipment needs — and at the same time preserve your budget. Order today. Use FEDSTRIP/MILSTRIP, or MUFFIN. Or point, click, and shop at GSA Advantage!™ on the Internet at: www.fss.gsa.gov
