Urethane and Foam Adhesives

GSA Global Supply is continually monitoring local and state regulations to assure that products offered to our customers comply with all existing standards. One example of this is 3M FoamFast 74 Adhesive. This adhesive is used nationwide for bonding flexible latex or urethane foams to themselves or most other materials. One version, NSN 8040-00-181-7761, is relatively high in Volatile Organic Compounds (VOC) and cannot be used in the state of California due to the strict pollution requirements of that state. However, 3M does market a low VOC version of the FoamFast74 Adhesive for use in California and other areas having restrictions on the amount of VOC's and other toxics allowed in a product. This "lower-VOC" product is offered via NSN 8040-01-503-2865.

Clear Volume: 17-1/4 oz.

NSN 8040-00-181-7761

Price \$10.44 (Can)

Low-VOC Item

California South Coast Air Quality Management District compliant.

Clear Volume: 17-1/4 oz.

NSN 8040-01-503-2865

Price \$12.65 (Can)

GSA Global Supply wants to continue to fulfill your supply needs and provide you with quality products at cost-saving prices. Now you can get a wider range of products than ever before. Check out our expanded inventory at www.GSAglobalsupply.gsa.gov.
