

Cover Sheet

2006 Manufacturing Energy Consumption Survey

Sponsored by the Energy Information Administration
U.S. Department of Energy

Administered and Compiled by the Bureau of the Census
U.S. Department of Commerce

**Form EIA-
846B**

OMB Approval
No. 1905-0169

Expires:
10/31/2009

Affix label from mail package above. If you don't have a label please provide username from letter, company name, and mailing address. Please provide the 22-digit number on the top left hand side of your letter found between the words ID and MECS.

If you need additional time or have questions about what to report on this questionnaire, please call our processing office at 1-800-528-3049. Return the completed questionnaire in the enclosed envelope. **Please staple all sections and pages of your establishment's questionnaire to this cover sheet. Please include one cover sheet for each establishment that has a label.** If the envelope has been misplaced, please mail to:

**Bureau Of The Census
1201 East 10th Street
Jeffersonville, IN 47132-0001**

Reporting Requirement: This survey is **mandatory** under the Federal Energy Administrative Act of 1974, Pub. Law No. 93-275, and under Title 3, Subtitle B, of the Omnibus Budget Reconciliation Act of 1986, Pub. Law No. 99-509, as amended by Title 1, Subtitle G, of the Energy Policy Act of 1992, Pub. Law No. 102-486.

Title 18 U.S.C. 1001 makes it a criminal offense for any person knowingly and willingly to make any Agency or Department of the United States any false, fictitious, or fraudulent statements as to any matter within its jurisdiction.

Per the Paperwork Reduction Act of 1995, you are not required to respond to any Federally-sponsored collection of information unless it displays a valid OMB Approval Number. The valid OMB Approval Number for this information collection (1905-0169) is displayed at the top left of this page.

Instructions and Frequently Asked Questions can be found at www.census.gov/econhelp/mecs.

Establishment Information

<i>Establishment Information</i>			
1.	Did ownership of this establishment change during 2006?	“Census Use Only” 00011	<input type="checkbox"/> 1. No <input type="checkbox"/> 2. Yes: Establishment was sold during the year. <i>Complete all sections of this questionnaire for activities that occurred in 2006 prior to the sale.</i> <input type="checkbox"/> 3. Yes: Establishment was bought during the year. <i>Complete all sections of this questionnaire for activities that occurred in 2006 after the sale.</i>
2.	What best describes this establishment at the end of 2006?	00010	<input type="checkbox"/> 1. In operation: Skip to question 6 <input type="checkbox"/> 2. Ceased operation: Answer question 3 then skip to question 6. <input type="checkbox"/> 3. Sold or leased to another operator: Skip to question 4.
3.	Enter the date in which your establishment ceased operation.	00013	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> Enter Date (mm-dd-yyyy)
4.	Enter the date in which your establishment was either sold or leased to another operator.	00014	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> Enter Date (mm-dd-yyyy)

Establishment Information

Establishment Information

5.	Enter the following information only if this establishment was sold or leased to another operator during 2006.		
	Name of new owner or operator		
	00015	<input type="text"/>	
	Address		
	00017	<input type="text"/>	
City			
00018	<input type="text"/>		
00019	State <input type="text"/>	Zip (Zip +4) 00020 <input type="text"/> 00021 <input type="text"/>	Employer Identification Number (9 Digit EIN) <input type="text"/> 00016
6.	Enter the reporting period for the information reported on this questionnaire. Unless there are special circumstances like those reported above, this reporting period should be from January 1, 2006 to December 31, 2006.	00022	From: <input type="text"/> (mm-dd-yyyy)
		00023	To: <input type="text"/> (mm-dd-yyyy)

Contact & Refinery Information

Contact Information

Date	Telephone		
	Area Code	Number	Ext.
	<input type="text"/>		
Name of person to contact regarding this questionnaire			
Title of contact person (above)			
Address (number and street)			
City		State	Zip Code + 4
E-mail address			

Refinery Information

Indicate the correct description of this establishment.

Definition of Refinery:

• For the purpose of this survey, a refinery is an installation that manufactures finished petroleum products from crude oil, unfinished oils, natural gas liquids, other hydrocarbons and alcohol. Processes used by a refinery include fractional distillation, cracking (both catalytic and hydro cracking), coking, reforming, alkylation, isomerization, polymerization, hydro treating, and sweetening. Products include, but are not limited to, unfinished oils, motor gasoline, aviation gasoline, special naphthas, kerosene, distillate fuel oil, residual fuel oil, lubricating oils, asphalt and road oil, waxes, petroleum coke, still gas, and petrochemical feedstocks.

Definition of Nonrefinery (Petrochemical):

• A nonrefinery is an installation that produces substances by the chemical treatment of raw materials derived from petroleum or natural gas. Among the final products are plastics (including synthetic rubbers), synthetic fibers, chemicals, drugs, and detergents. A nonrefinery is also called a petrochemical operation.

• Please check the reporting boundaries of the Census of Manufacturers (CM) to determine if your establishment is considered to include an adjacent nonrefinery (petrochemical operation).

18010	Check one box only
<input type="checkbox"/> 1	Establishment consists of REFINERY operations ONLY. <ul style="list-style-type: none">(There may be nonrefinery (petrochemical) operations co-located, but those operations are identified as a separate establishment for purposes of the Census of Manufacturers)
<input type="checkbox"/> 2	Establishment consists of both REFINERY and NONREFINERY operations. <ul style="list-style-type: none">For this survey questionnaire, report for the entire establishment, including both refinery and nonrefinery operations, unless those are identified as a separate establishment for purpose of the Census of Manufacturers. If nonrefinery identified as a separate establishment, then the REFINERY operations ONLY button above should be checked
<input type="checkbox"/> 3	Neither of the above <ul style="list-style-type: none">Call the MECS specialist at 1-800-528-3049 if this establishment is NOT A REFINERY. Please call before continuing the questionnaire.

Electricity

Electricity: Total Purchased

1.	Enter the total quantity of electricity purchased by and delivered to this establishment during 2006, regardless of when payment was made.	"Census Use Only" 10061	<div style="border: 1px solid black; height: 20px; width: 100%;"></div> <p style="text-align: center;">Kilowatthours</p>
2.	Enter total expenditures; including all applicable taxes and any delivery, management, transportation, and demand charges, for the purchased electricity reported in question 1.	10062	<div style="border: 1px solid black; padding: 2px;">\$ </div> <p style="text-align: center;">U.S. Dollars</p>

Electricity: Source of Purchase

3.	During 2006, where did this establishment's purchased electricity come from? Local utility: the company in your local area that produces and/or delivers electricity and is legally obligated to provide service to the general public within its franchise area. Non-utility: includes generators of electricity such as independent power producers, small power producers. It also includes brokers, marketers, marketing subsidiaries of utilities, or co-generators not owned by your company.	10015	<input type="checkbox"/> 1. All local utility: Answer question 4 then skip to question 7 <input type="checkbox"/> 2. All non-utility: Answer question 4 then skip to question 7 <input type="checkbox"/> 3. Both
4.	Please specify the utility/non-utility provider from whom you purchased your electricity: If this establishment purchases from more than one provider, please provide the largest provider.		
5.	Enter the quantity of your total purchased electricity that was purchased from a local utility during 2006.	10010	<div style="border: 1px solid black; height: 20px; width: 100%;"></div> <p style="text-align: center;">Kilowatthours</p>
6.	Enter the total expenditures of your purchased electricity that was paid to a local utility.	10020	<div style="border: 1px solid black; padding: 2px;">\$ </div> <p style="text-align: center;">U.S. Dollars</p>

Electricity: Transfers In

7.	Enter the total quantity of electricity transferred in or otherwise received on-site without a direct open market purchase. Include quantities: <ul style="list-style-type: none"> For which payment, if any, does not represent an open-market transaction; For which payment was made in-kind (i.e., barter); Received from an entity in which your establishment or company has a share of ownership or special sharing of revenue (e.g., in a performance service contract). 	10050	<div style="border: 1px solid black; height: 20px; width: 100%;"></div> <p style="text-align: center;">Kilowatthours</p>
----	---	-------	--

Electricity

Electricity: Generated On-site

8.	Enter the quantity of electricity generated on-site from each of the following:		
		“Census Use Only”	Kilowatthours
	<ul style="list-style-type: none"> • Combined Heat and Power (CHP)/Cogeneration <i>Cogeneration is the production of electric energy and another form of useful energy (such as heat or steam) through the sequential use of energy.</i> 	10070	
	<ul style="list-style-type: none"> • Solar Power 	10081	
	<ul style="list-style-type: none"> • Wind Power 	10082	
	<ul style="list-style-type: none"> • Hydropower 	10083	
	<ul style="list-style-type: none"> • Geothermal Power 	10084	
	<ul style="list-style-type: none"> • Other (for example, electricity generated by diesel generators) 	10090	

Electricity: Sales and Transfers Offsite

9.	<p>Enter the quantity of electricity sold or transferred out of this establishment to utilities during 2006.</p> <p>Include quantities exchanged for the same or any other energy source.</p> <p>Exclude sales to independent power producers, small power producers, or co-generators not located at this establishment.</p>	10110	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> <p>Kilowatthours</p>
10.	<p>Enter the quantity of electricity sold or transferred out of this establishment to any non-utilities during 2006.</p> <p>Include:</p> <ul style="list-style-type: none"> • Sales to independent power producers, small power producers, brokers, marketers, marketing subsidiaries of utilities, or co-generators not located at this establishment. • Quantities exchanged for the same or any other energy source. 	10120	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> <p>Kilowatthours</p>

Electricity

Electricity: Estimated End-Use Percent Consumption

The following questions refer to how this establishment consumed the electricity that was previously reported (*please enter as a percentage of total consumption for each end use performed*). A plant engineer or someone who is familiar with energy flows at this establishment should report this data.

Total Consumption = Question 1 [Purchases] + Question 7 [Transfers] + Question 8 [Generated] – (Question 9 + 10)[Sales and Transfers Offsite]

	Enter the percentage of total electricity that this establishment consumed for the following:		
11.	<i>Indirect Uses – Boilers: indirect use is the transformation of energy to another usable energy source, as in a boiler, gas turbine, or combustion turbine.</i>	“Census Use Only”	Electricity
	<ul style="list-style-type: none"> • Boiler fuel (includes fuels used for thermal outputs) 	10710	%
	<i>Direct Uses – Process: direct process use includes usage in motors, ovens, kilns, and strip heaters.</i>		
	<ul style="list-style-type: none"> • Process heating (e.g., kilns, furnaces, ovens, strip heaters) 	10720	%
	<ul style="list-style-type: none"> • Process cooling and refrigeration 	10730	%
	<ul style="list-style-type: none"> • Machine drive (e.g., motors, pumps, etc. associated with manufacturing process equipment) 	10740	%
	<ul style="list-style-type: none"> • Electro-chemical processes (e.g., reduction process) 	10750	%
	<ul style="list-style-type: none"> • Other direct process use: <div style="display: flex; align-items: center; margin-top: 5px;"> 10761 Please specify: <input style="width: 200px; height: 15px; border: 1px solid black;" type="text"/> </div> 	10760	%
	<i>Direct Uses – Non-process: direct non-process use includes usage for facility lighting and space-conditioning equipment (HVAC).</i>		
	<ul style="list-style-type: none"> • Facility heating, ventilation, and air conditioning 	10770	%
	<ul style="list-style-type: none"> • Facility lighting 	10780	%
	<ul style="list-style-type: none"> • Facility support other than that reported above (e.g.: cooking, water heating, office equipment) 	10790	%
	<ul style="list-style-type: none"> • On-site transportation, excluding highway usage 	10800	%
	<ul style="list-style-type: none"> • Other direct non-process use: <div style="display: flex; align-items: center; margin-top: 5px;"> 10821 Please specify: <input style="width: 200px; height: 15px; border: 1px solid black;" type="text"/> </div> 	10820	%
			TOTAL 100%

Petroleum-based Energy Sources

Petroleum-based Energy Sources			
Energy Source ↓		“Census Use Only”	Quantity Consumed as a Fuel ↓
<p>For questions 1 through 21, enter the quantity consumed on-site during 2006 as a fuel for the production of heat, steam, power, or the generation of electricity for all petroleum-based energy sources (fuel) listed below.</p> <p>Exclude quantities of energy sources that were used as material inputs to your refining process or otherwise used as a non-fuel.</p> <p>Include all process uses such as process heating, process cooling, and machine drive and all nonprocess uses such as facility heating, ventilation, and air conditioning.</p> <p>Include fuel consumed by vehicles intended primarily for use on-site, e.g., forklifts, intra-plant shuttles, loaders and other materials-handling equipment operated solely within boundaries of the establishment size.</p>			
1.	Butane as Liquefied Petroleum Gas (LPG) or Natural Gas Liquids (NGL).	36060	<input type="text"/> Gallons
2.	Ethane as Liquefied Petroleum Gas (LPG) or Natural Gas Liquids (NGL).	37060	<input type="text"/> Gallons
3.	Propane as Liquefied Petroleum Gas (LPG) or Natural Gas Liquids (NGL).	38060	<input type="text"/> Gallons
4.	Mixtures of ethane, butane, and propane.	34060	<input type="text"/> Gallons
5.	Other liquefied petroleum gases (LPG) and natural gas liquids (NGL) (e.g., butylenes, ethylene, propylene)	35060	<input type="text"/> Gallons
6.	Total liquefied petroleum gases (LPG) and natural gas liquids (NGL). Sum the quantities reported for questions 1 through 5.	24060	<input type="text"/> Gallons

Petroleum-based Energy Sources

Total LPG and NGL: Estimated End-Use Percent Consumption

The following questions refer to how this establishment consumed the energy source that was previously reported in question 6 (*please enter as a percentage of total consumption for each end use performed*). A plant engineer or someone who is familiar with energy flows at this establishment should report this data.

7.	Enter the percentage of total Liquefied Petroleum Gas (LPG) and Natural Gas Liquids (NGL) (from question 6) that this establishment consumed as the following:		
	<i>Indirect Uses- Boilers: indirect use is the transformation of energy to another usable energy source, as in a boiler, gas turbine, or combustion turbine.</i>	"Census Use Only"	Total LPG and NGL
	• Boiler fuel in a Combined Heat and Power (CHP) and/or cogeneration process	24705	%
	• Other boiler fuel (not included above) (<i>includes fuels used for thermal outputs only</i>)	24710	%
	<i>Direct Uses- Process: direct process use includes usage in motors, ovens, kilns, and strip heaters.</i>		
	• Process heating (e.g., kilns, furnaces, ovens, strip heaters)	24720	%
	• Process cooling and refrigeration	24730	%
	• Machine drive (e.g., motors, pumps, etc. associated with manufacturing process equipment)	24740	%
	• Other direct process use: 24762 <input type="text"/> Please specify: <input type="text"/>	24760	%
	<i>Direct Uses- Non-process: direct non-process use includes usage for facility lighting and space-conditioning equipment (HVAC).</i>		
	• Facility heating, ventilation, and air conditioning	24770	%
	• Facility support other than that reported above (e.g.: cooking, water heating, office equipment)	24790	%
	• On-site transportation, excluding highway usage	24800	%
	• Conventional electricity generation	24810	%
	• Other direct non-process use: 24822 <input type="text"/> Please specify: <input type="text"/>	24820	%
			TOTAL 100%

Petroleum-based Energy Sources

Petroleum-based Energy Sources Cont.

8.	Diesel fuel, excluding offsite highway usage.	28060	<input type="text"/> Barrels
9.	Distillate fuel oil (numbers 1, 2 and 4 fuel oil).	29060	<input type="text"/> Barrels
10.	Total diesel fuel and distillate fuel oil. Sum the quantities in questions 8 and 9.	22060	<input type="text"/> Barrels

Diesel or Distillate Fuel Oil: Estimated End-Use Percent Consumption

The following questions refer to how this establishment consumed the energy source that was previously reported in question 10 (please enter as a percentage of total consumption for each end use performed). A plant engineer or someone who is familiar with energy flows at this establishment should report this data.

11.	Enter the percentage of the total Diesel and Distillate Fuel Oil (from question 10) that this establishment consumed as the following:		
	<i>Indirect Uses – Boilers: indirect use is the transformation of energy to another usable energy source, as in a boiler, gas turbine, or combustion turbine.</i>	“Census Use Only”	Diesel and Distillate
	• Boiler fuel in a Combined Heat and Power (CHP) and/or cogeneration process	22705	%
	• Other boiler fuel (not included above) (includes fuels used for thermal outputs only)	22710	%
	Direct Uses –Process: direct process use includes usage in motors, ovens, kilns, and strip heaters.		
	• Process heating (e.g., kilns, furnaces, ovens, strip heaters)	22720	%
	• Process cooling and refrigeration	22730	%
	• Machine drive (e.g., motors, pumps, etc. associated with manufacturing process equipment)	22740	%
	• Other direct process use: Please specify: ²²⁷⁶² <input type="text"/>	22760	%
	<i>Direct Uses – Non-process: direct non-process use includes usage for facility lighting and space-conditioning equipment (HVAC).</i>		
	• Facility heating, ventilation, and air conditioning	22770	%
	• Facility support other than that reported above (e.g.: cooking, water heating, office equipment)	22790	%

Petroleum-based Energy Sources

•On-site transportation, excluding highway usage	22800	%
•Conventional electricity generation	22810	%
•Other direct non-process use: 22822 <input type="text"/> Please specify:	22820	%
		TOTAL 100%

Petroleum-based Energy Sources Cont.

12.	Motor gasoline, excluding offsite highway usage.	23060	<input type="text"/> Gallons
13.	Residual fuel oil (numbers 5, 6, Navy Special, and Bunker C).	21060	<input type="text"/> Barrels

Residual Fuel Oil: Estimated End-Use Percent Consumption

The following questions refer to how this establishment consumed the residual fuel that was previously reported in question 13 (please enter as a percentage of total consumption for each end use performed). A plant engineer or someone who is familiar with energy flows at this establishment should report this data.

14.	Enter the percentage of total Residual Fuel (from question 13) that this establishment consumed as the following:		
	<i>Indirect Uses – Boilers: indirect use is the transformation of energy to another usable energy source, as in a boiler, gas turbine, or combustion turbine.</i>	“Census use Only”	Residual Fuel
	•Boiler fuel in a Combined Heat and Power (CHP) and/or cogeneration process	21705	%
	•Other boiler fuel (not included above) (includes fuels used for thermal outputs)	21710	%
	<i>Direct Uses – Process: direct process use includes usage in motors, ovens, kilns, and strip heaters.</i>		
	•Process heating (e.g., kilns, furnaces, ovens, strip heaters)	21720	%
	•Process cooling and refrigeration	21730	%
	•Machine drive (e.g., motors, pumps, etc. associated with manufacturing process equipment)	21740	%
	•Other direct process use: 21762 <input type="text"/> Please specify:	21760	%

Petroleum-based Energy Sources

<i>Direct Uses – Non-process: direct non-process use includes usage for facility lighting and space-conditioning equipment (HVAC).</i>		“Census use Only”	Residual Fuel
●Facility heating, ventilation, and air conditioning		21770	%
●Facility support other than that reported above (e.g.: cooking, water heating, office equipment)		21790	%
●Conventional electricity generation		21810	%
●Other direct non-process use: 21822 <input type="text"/> Please specify: <input type="text"/>		21820	%
			TOTAL 100%

Petroleum-based Energy Sources Cont.

15.	Waste and byproduct gases (e.g., refinery gas, off gas, vent gas, plant gas, still gas).	62060	<input type="text"/> Million BTU
16.	Fluid catalytic cracking unit coke.	77060	<input type="text"/> Barrels
17.	Marketable petroleum coke—unrefined or green.	78060	<input type="text"/> Barrels
18.	Marketable petroleum coke—calcined.	79060	<input type="text"/> Barrels
19.	Waste oils and tars, excluding coal tar.	71060	<input type="text"/> Barrels
20.	Other petroleum-based combustible energy source not specified above: 95980 <input type="text"/> Please specify: <input type="text"/>	95060	<input type="text"/> Million BTU
		95990	<input type="text"/> Specify Units
21.	Other petroleum-based combustible energy source not specified above: 96980 <input type="text"/> Please specify: <input type="text"/>	96060	<input type="text"/> Million BTU
		96990	<input type="text"/> Specify Units

Fuel Switching Capability: Electricity, Natural Gas and Total Coal

- Capability to use substitute energy sources means that this establishment's combustors (for example, boilers, furnaces, ovens, blast furnaces) had the equipment, either in place or available for installation in 2006, so that substitutions could actually have been introduced within 30 days without extensive modifications.
- Include switching capability that could have resulted from the use of redundant and/or standby combustors, and from combustors that were already equipped to fire alternative fuels.
- In addition to the capability of your equipment, when formulating your estimates:
 - Make sure to consider both the equipment limitations of your boilers, heaters, and combustors and any other practical reasons when determining the availability of supply during 2006.

Equipment limitations include:

- The boilers, heaters, or other fuel-consuming equipment are not capable of using anything other than specify fuel for at least part of the operations.
- Although the boilers, heaters, or combustors would allow using another fuel, doing so would adversely affect a product. Ex. altering the pigment in a paint-drying application.

Practical reasons include:

- There is no ready supply of an alternative energy source.
 - Environmental restrictions related to air quality limit the amount of the physically usable alternative fuel that could be used instead.
 - A long-term contract in-place that requires the purchase of certain amounts of the energy source in any case.
 - Storage of alternative fuels is not available due to potential environmental impact of storage tanks.
- Do not limit your estimated capability by differences in relative prices of energy sources.
- This section is intended to measure your capability to switch, not whether you would switch if you could.
 - When estimating your capability to substitute other fuels for electricity receipts, please consider the fuels that could be used to generate electricity onsite, as well as those that could be directly substituted in combustors.
 - If records of fuel-switching capability are not regularly maintained, reasonable approximations are acceptable.
 - Enter a zero if the fuel could not be switched for the specific energy source.
 - Please proceed through this section column-by-column.

Fuel Switching Capability: Electricity, Natural Gas and Total Coal

The next four questions are designed as a worksheet. You will need to refer back to some sections of the form that you have already filled out to record the figures you have reported.

1.	Referring back to the Electricity section, question 1 page 1. Please enter the quantity of reported purchased electricity.		_____		
2.	Referring back to the Electricity section, question 7 page 1. Please enter the quantity of reported transferred electricity.		_____		
3.	Add lines from question 1 and 2 (question 1 + question 2). Enter the total in the box.	10503	<input style="width: 100px; height: 20px;" type="text"/>		
4.	Referring back to the Natural Gas section, question 10 page 2. Please enter the quantity of reported natural gas consumed. Enter the figure in the box.	30503	<input style="width: 100px; height: 20px;" type="text"/>		
5.	Referring back to the Coal section, question 5 page 2. Please add the quantity of reported anthracite, bituminous and subbituminous and lignite consumed. Enter the total in the box.	46503	<input style="width: 100px; height: 20px;" type="text"/>		
		“Census Use Only”	(10)	(30)	(46)
			Total Electricity Received Transfers + purchase ↓	Total Natural Gas ↓	Total ALL Coal (excluding Coal Coke & Breeze) ↓
6.	Enter the total quantity of the energy source (column) you reported as consumed during 2006. Copy this figure from the above worksheet questions.	500	<input style="width: 100px; height: 20px;" type="text"/> Kilowatthours Enter figure from question 3.	<input style="width: 100px; height: 20px;" type="text"/> 1,000 cubic feet Enter figure from question 4.	<input style="width: 100px; height: 20px;" type="text"/> Short tons Enter figure from question 5.
7.	Is the total quantity reported in question 6 greater than zero?	501	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to question 6, next column.	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to question 6, next column.	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to next section.
8.	Enter the amount of the total quantity you reported in question 6 that could NOT have been replaced within 30 days by another energy source during 2006. Consider both the equipment limitations of your boilers, heaters, and combustors and any other practical reason. Do not consider differences in energy prices when estimating the amount.	510	<input style="width: 100px; height: 20px;" type="text"/> Kilowatthours	<input style="width: 100px; height: 20px;" type="text"/> 1,000 cubic feet	<input style="width: 100px; height: 20px;" type="text"/> Short tons

Fuel Switching Capability: Electricity, Natural Gas and Total Coal

		“Census Use Only”	(10)	(30)	(46)
			Total Electricity Received <small>Transfers + purchase</small> ↓	Total Natural Gas ↓	Total ALL Coal (excluding Coal Coke & Breeze) ↓
9.	Is the total quantity in question 8 equal to zero?	511	<input type="checkbox"/> 1. Yes: Skip to question 11. <input type="checkbox"/> 2. No	<input type="checkbox"/> 1. Yes: Skip to question 11. <input type="checkbox"/> 2. No	<input type="checkbox"/> 1. Yes: Skip to question 11. <input type="checkbox"/> 2. No
10.	Referring to the quantity shown in question 8, please check all the reasons that made this quantity unswitchable.				
	The boilers, heaters, or other fuel-consuming equipment are NOT <u>capable</u> of using another fuel for at least part of the operations during the year.	526	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Switching to the usable alternatives would adversely affect the products.	528	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Although the heating equipment could use another fuel, there was no readily available supply of it during at least part of the year.	533	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Environmental restrictions related to air quality limit the amount of the physically usable alternative fuel that could be used instead.	534	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	A long-term contract is in-place that requires the purchase of certain amounts of this fuel in any case.	536	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1

Fuel Switching Capability: Electricity, Natural Gas and Total Coal

What is the lowest percentage of price difference of the less expensive substitute that would cause your establishment to switch from this fuel, regardless of whether or not your establishment actually switched energy sources during 2006 or did so because of a less expensive substitute? (If you have more than one possible alternative for the energy source, choose the fuel that would be your most preferred alternative.)

The formula for percentage of price difference is:

- Percent of Price Difference = $((PC-PA)/PC) * 100\%$
- Where PC=Price per British thermal unit of current fuel
- PA=Price per British thermal unit of alternative fuel

		“Census Use Only”	(10)	(30)	(46)
		622	Total Electricity Received Transfers + purchase ↓	Total Natural Gas ↓	Total ALL Coal (excluding Coal Coke & Breeze) ↓
		Check one for each energy source (column) reported			
21.	Would not switch regardless of price difference.		<input type="checkbox"/> ₁	<input type="checkbox"/> ₁	<input type="checkbox"/> ₁
	Would switch at price difference 1-10 percent.		<input type="checkbox"/> ₂	<input type="checkbox"/> ₂	<input type="checkbox"/> ₂
	Would switch at price difference 11-25 percent.		<input type="checkbox"/> ₃	<input type="checkbox"/> ₃	<input type="checkbox"/> ₃
	Would switch at price difference 26-50 percent.		<input type="checkbox"/> ₄	<input type="checkbox"/> ₄	<input type="checkbox"/> ₄
	Would switch at price difference over 50 percent.		<input type="checkbox"/> ₅	<input type="checkbox"/> ₅	<input type="checkbox"/> ₅
	Reasonable estimates cannot be provided.		<input type="checkbox"/> ₆	<input type="checkbox"/> ₆	<input type="checkbox"/> ₆
	Would switch to the more expensive substitute if price premium were reasonable.		<input type="checkbox"/> ₇	<input type="checkbox"/> ₇	<input type="checkbox"/> ₇

Fuel Switching Capability: Total LPG & NGL, Diesel & Distillate and Residual

- Capability to use substitute energy sources means that this establishment's combustors (for example, boilers, furnaces, ovens, blast furnaces) had the equipment, either in place or available for installation in 2006, so that substitutions could actually have been introduced within 30 days without extensive modifications.
- Include switching capability that could have resulted from the use of redundant and/or standby combustors, and from combustors that were already equipped to fire alternative fuels.
- In addition to the capability of your equipment, when formulating your estimates:
 - Make sure to consider both the equipment limitations of your boilers, heaters, and combustors and any other practical reasons when determining the availability of supply during 2006.

Equipment limitations include:

- The boilers, heaters, or other fuel-consuming equipment are not capable of using anything other than specify fuel for at least part of the operations.
- Although the boilers, heaters, or combustors would allow using another fuel, doing so would adversely affect a product. Ex. altering the pigment in a paint-drying application.

Practical reasons include:

- There is no ready supply of an alternative energy source.
 - Environmental restrictions related to air quality limit the amount of the physically usable alternative fuel that could be used instead.
 - A long-term contract in-place that requires the purchase of certain amounts of the energy source in any case.
 - Storage of alternative fuels is not available due to potential environmental impact of storage tanks.
- Do not limit your estimated capability by differences in relative prices of energy sources.
- This section is intended to measure your capability to switch, not whether you would switch if you could.
 - When estimating your capability to substitute other fuels for electricity receipts, please consider the fuels that could be used to generate electricity onsite, as well as those that could be directly substituted in combustors.
 - If records of fuel-switching capability are not regularly maintained, reasonable approximations are acceptable.
 - Enter a zero if the fuel could not be switched for the specific energy source.
 - Please proceed through this section column-by-column.

Fuel Switching Capability: Total LPG & NGL, Diesel & Distillate and Residual

The next four questions are designed as a worksheet. You will need to refer back to some sections of the form that you have already filled out to record the figures you have reported.

1.	Referring back to the Petroleum-based Energy Sources section, question 7 page 1. Please enter the reported quantity of LPG & NGL. Enter the figure in the box.	24503	<input style="width: 100%;" type="text"/>		
2.	Referring back to the Petroleum-based Energy Sources section, question 11 page 3. Please enter the reported quantity of diesel and distillate fuel consumed. Enter the figure in the box.	22503	<input style="width: 100%;" type="text"/>		
3.	Referring back to the Petroleum-based Energy Sources section, question 14 page 4. Please enter the reported quantity of residual fuel consumed. Enter the figure in the box.	21503	<input style="width: 100%;" type="text"/>		
		“Census Use Only”	(24)	(22)	(21)
			Total LPG & NGL	Total Diesel Fuel & Distillate Fuel Oil	Residual Fuel Oil
			↓	↓	↓
4.	<p>Enter the total quantity of the energy source you reported as consumed during 2006.</p> <p>Copy this figure from above worksheet questions.</p>	500	<input style="width: 100%;" type="text"/> Gallons Enter figure from question 1.	<input style="width: 100%;" type="text"/> Barrels Enter figure from question 2.	<input style="width: 100%;" type="text"/> Barrels Enter figure from question 3.
5.	<p>Is the total quantity reported in question 4 greater than zero?</p>	501	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to question 4, next column.	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to question 4, next column.	<input type="checkbox"/> 1. Yes <input type="checkbox"/> 2. No: Skip to next section.
6.	<p>Enter the amount of the total quantity you reported in question 4 that could NOT have been replaced within 30 days by another energy source during 2006.</p> <p>Consider both the equipment limitations of your boilers, heaters, and combustors and any other practical reason.</p> <p>Do not consider differences in energy prices when estimating the amount.</p>	510	<input style="width: 100%;" type="text"/> Gallons	<input style="width: 100%;" type="text"/> Barrels	<input style="width: 100%;" type="text"/> Barrels

Fuel Switching Capability: Total LPG & NGL, Diesel & Distillate and Residual

		"Census Use Only"	(24)	(22)	(21)
			Total LPG & NGL ↓	Total Diesel Fuel & Distillate Fuel Oil ↓	Residual Fuel Oil ↓
7.	Is the total quantity in question 6 equal to zero?	511	<input type="checkbox"/> 1. Yes: Skip to question 9. <input type="checkbox"/> 2. No	<input type="checkbox"/> 1. Yes: Skip to question 9. <input type="checkbox"/> 2. No	<input type="checkbox"/> 1. Yes: Skip to question 9. <input type="checkbox"/> 2. No
8.	Referring to the quantity shown in question 6, please check all the reasons that made this quantity unswitchable.				
	The boilers, heaters, or other fuel-consuming equipment are NOT capable of using another fuel other than this fuel for at least part of the operations during the year.	526	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Switching to the usable alternatives would adversely affect the products.	528	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Although the heating equipment could use another fuel, there was no readily available supply of it during at least part of the year.	533	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1
	Environmental restrictions related to air quality limit the amount of the physically usable alternative fuel that could be used instead.	534	<input type="checkbox"/> 1	<input type="checkbox"/> 1	<input type="checkbox"/> 1

	Reasonable estimates cannot be provided.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Would switch to the more expensive substitute if price premium were reasonable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Energy-Management Activities

Energy-Management Activities

For questions 1 through 8:

Indicate with a “yes” or a “no” under the “Participate?” column whether your establishment participated in or used the specified type of energy-management assistance between January 1, 2006 and December 31, 2006.

For any assistance for which you marked “yes”, please mark the source(s) of assistance.

“In-house” means your establishment or company provided the energy-management assistance.

“Utility/Energy Supplier” refers to either your electricity, natural gas, or other energy supplier/provider.

“Product or Service Provider” includes any other third party product or service provider/supplier such as an equipment vendor, energy service company, or maintenance service company.

“Federal Program” includes assistance provided by federal government programs or agencies such as the Department of Energy (DOE), the Environmental Protection Agency (EPA), and the National Institute of Standards and Technology (NIST) Manufacturing Extension Partnership (MEP).

“State or Local Program” includes all assistance provided by a state, city, or county government program or agency.

#	Type of Energy-Management Assistance	Participate? {13}	Source of Assistance (check all that apply)					
			In-house {15}	Utility/ Energy Supplier {16}	Product or Service Provider {17}	Federal Program {18}	State or Local Program {19}	Don't Know {32}
1.	Energy audit or assessment	1 <input type="checkbox"/> Yes ▶ 2 <input type="checkbox"/> No {060}	3 <input type="checkbox"/>	4 <input type="checkbox"/>	7 <input type="checkbox"/>	8 <input type="checkbox"/>	9 <input type="checkbox"/>	6 <input type="checkbox"/>
2.	Technical assistance (e.g., consultation, demonstrations, engineering design or analysis)	1 <input type="checkbox"/> Yes ▶ 2 <input type="checkbox"/> No {070}	3 <input type="checkbox"/>	4 <input type="checkbox"/>	7 <input type="checkbox"/>	8 <input type="checkbox"/>	9 <input type="checkbox"/>	6 <input type="checkbox"/>

Energy-Management Activities

For Questions 19 through 30: Please mark only one answer for each energy-management question.								
19.	Does this establishment have an energy manager? (i.e., a person whose major function is to direct or plan energy strategies relating to energy use and energy-efficient technology within the establishment)	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13460} <input type="checkbox"/> Don't Know						
20.	Does your establishment set goals for improving energy efficiency?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13470} <input type="checkbox"/> Don't Know						
21.	Does your establishment measure and monitor how much steam is used to produce a unit of product? (i.e. lbs of steam needed per unit of product produced)	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13471} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)						
22.	Does your establishment have dedicated staff that performs insulation inspections to monitor and maintain the condition of steam system insulation?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13472} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)						
23.	Does your establishment have a formal steam system maintenance program that includes the following activities:	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 40%; padding: 5px; vertical-align: top;">a. At least annual testing of all steam traps</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13473} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA) </td> </tr> <tr> <td style="padding: 5px; vertical-align: top;">b. Maintaining a steam trap database</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13474} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA) </td> </tr> <tr> <td style="padding: 5px; vertical-align: top;">c. At least annual inspections and repairs of steam leaks</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13475} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA) </td> </tr> </table>	a. At least annual testing of all steam traps	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13473} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)	b. Maintaining a steam trap database	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13474} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)	c. At least annual inspections and repairs of steam leaks	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13475} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)
a. At least annual testing of all steam traps	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13473} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)							
b. Maintaining a steam trap database	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13474} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)							
c. At least annual inspections and repairs of steam leaks	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13475} <input type="checkbox"/> Don't Know <input type="checkbox"/> Not Applicable (NA)							
24.	Does your establishment measure oxygen and carbon dioxide (or combustible) levels in boiler and other fuel fired heating equipment flue gasses to "tune" the burners?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13476} <input type="checkbox"/> Don't Know						
25.	Does your establishment use the flue gases from fuel fired heating equipment to preheat combustion air, preheat charge equipment/material, or provide heat for other processes in your establishment?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13477} <input type="checkbox"/> Don't Know						
26.	Does your establishment's process heating system maintenance program include the following activities?	<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 40%; padding: 5px; vertical-align: top;">a. Furnace inspections to seal openings and repair cracks and damaged insulation in furnace walls, doors, etc.</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13478} <input type="checkbox"/> Don't Know </td> </tr> <tr> <td style="padding: 5px; vertical-align: top;">b. Cleaning of heat transfer surfaces to avoid build up of soot, scale, or other material.</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13479} <input type="checkbox"/> Don't Know </td> </tr> <tr> <td style="padding: 5px; vertical-align: top;">c. Inspecting, calibrating, and adjusting temperature/pressure sensors, controllers, valve operators, etc.</td> <td style="padding: 5px;"> <input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13480} <input type="checkbox"/> Don't Know </td> </tr> </table>	a. Furnace inspections to seal openings and repair cracks and damaged insulation in furnace walls, doors, etc.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13478} <input type="checkbox"/> Don't Know	b. Cleaning of heat transfer surfaces to avoid build up of soot, scale, or other material.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13479} <input type="checkbox"/> Don't Know	c. Inspecting, calibrating, and adjusting temperature/pressure sensors, controllers, valve operators, etc.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13480} <input type="checkbox"/> Don't Know
a. Furnace inspections to seal openings and repair cracks and damaged insulation in furnace walls, doors, etc.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13478} <input type="checkbox"/> Don't Know							
b. Cleaning of heat transfer surfaces to avoid build up of soot, scale, or other material.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13479} <input type="checkbox"/> Don't Know							
c. Inspecting, calibrating, and adjusting temperature/pressure sensors, controllers, valve operators, etc.	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13480} <input type="checkbox"/> Don't Know							
27.	Do you keep an inventory of all motors in your establishment?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13481} <input type="checkbox"/> Don't Know						
28.	Have you conducted a plant-wide study to identify the major energy consuming pump systems in your establishment?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13482} <input type="checkbox"/> Don't Know						
29.	Does your establishment have staff or equipment dedicated to detecting and controlling compressed air system leaks?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13483} <input type="checkbox"/> Don't Know						
30.	Does your establishment track the amount of energy spent in compressed air systems?	<input type="checkbox"/> Yes ➔ <input type="checkbox"/> No {13484} <input type="checkbox"/> Don't Know						

Energy Technologies

Energy Technologies

1. Were any of the following technologies in use at your establishment anytime during 2006?			
a.	Computer control of building-wide environment (e.g., space-heating equipment, cooling equipment, lights).	14010	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
b.	Computer control of processes or major energy-using equipment (e.g., boilers, furnaces, conveyors used in the manufacturing process).	14020	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
c.	Waste heat recovery.	14030	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
d.	Adjustable-speed motors.	14040	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
e.	Oxy-fuel firing.	14950	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
2. Were any of the following technologies associated with cogeneration in use at your establishment anytime during 2006?			
a.	Steam turbines supplied by either conventional or fluidized bed boilers.	14042	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
b.	Conventional combustion turbines with heat recovery.	14043	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
c.	Combined-cycle combustion turbines	14044	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know
d.	Internal combustion engines with heat recovery.	14045	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know

Energy Technologies

e.	Steam turbines supplied by heat recovered from high-temperatures processes.	14046	<input type="checkbox"/> 1 Yes <input type="checkbox"/> 2 No <input type="checkbox"/> 3 Don't Know

Establishment Size and Remarks

Establishment Size

1.	How many buildings were on this establishment site as of December 31, 2006? Buildings include: structures enclosed by walls extending from the foundation to the roof, parking garages, even if not totally enclosed by walls and a roof, or structures erected on pillars to elevate the first fully enclosed level. Excluded buildings are: structures (other than the exceptions noted above) that are not totally enclosed by walls and a roof, mobile homes and trailers, even if they house manufacturing activity, structures not ordinarily intended to be entered by humans, such as storage tanks, or non-buildings that consume energy (such as pumps and constructions sites).	"Census Use Only" 17010	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> Number of Buildings
		17020	<input type="checkbox"/> 1 Don't Know.
2.	What was the approximate total enclosed square footage of the buildings located on this establishment site as of December 31, 2006?	13010	<div style="border: 1px solid black; width: 100%; height: 20px; margin-bottom: 5px;"></div> Total square feet
		13011	<input type="checkbox"/> 1 Don't Know.

Remarks

3.	Please use this space for any explanations that may be essential in understanding your reported data. If additional space is needed, attach a separate sheet, including the 10-digit Survey ID located on the mailing label on the front of this questionnaire.
