Attn Of:

To: Assistant Administrator for Financial Services
Federal Aviation Administration

The Office of Inspector General is initiating an audit of the Federal Aviation Administration's (FAA) cost accounting system for Flight Service Stations (FSS). The objectives of the audit are to (1) evaluate the appropriateness of the completed business rules for cost assignment and allocation of cost, (2) test the accuracy and validity of the allocations, and (3) ensure that costs were accurately reported in the Cost Accounting System in accordance with applicable standards.

We will contact your audit liaison to establish an entrance conference to discuss the audit. We plan to start the audit in late June 2001. The Program Director for this project is Keith Cospers and the Project Manager is Paul Barry. For any additional information, please call Keith Cospers or me at x61496.
