

**CR Number:** 4763

**External  
Reference:**

**Category:** CVISN - National ITS Architecture

**Component:** CVISN Architecture and Standards

**Synopsis:** Add source and destination equipment packages for CVISN architecture flows

**Status:** Open

**Disposition:** [2006-09-22] Open for 30-day comment period.

**Description:** The National ITS Architecture shows source and destination equipment packages for each architecture flow that is exchanged between EPs in different subsystems. The CVISN Architecture document does not.

Fix: Amend Table 1, CVISN Architecture Flows, to show source and destination equipment packages for each flow.

[2006-09-22] Presented at the 9/21/06 ACCB meeting.

Attendees recommended that this be approved. The CR will be posted to the CVISN System Architects' listserv for an additional 30-day comment period.
