While applicants may propose any project within the scope of 20 U.S.C. 1135(a), pursuant to 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet one or more of the following invitational priorities. However, an application that meets one or more of these invitational priorities

does not receive competitive or absolute preference over other applications:

Invitational Priority 1

Projects to support new ways of ensuring equal access to postsecondary education, and to improve rates of retention and program completion, especially for low-income and under-represented minority students, whose retention and completion rates continue to lag disturbingly behind those of other groups.

Invitational Priority 2

Projects to improve campus climates for learning by creating an environment that is safe, welcoming, and conducive to academic growth for all students.

Invitational Priority 3

Projects to support innovative reforms of undergraduate, graduate, and professional curricula that improve not only what students learn, but how they learn.

Invitational Priority 4

Projects to make more productive use of resources to improve teaching and learning; and to increase learning productivity—that is, to transform programs and teaching to promote more student learning relative to institutional resources expended.

Invitational Priority 5

Projects to support the professional development of full- and part-time faculty by assessing and rewarding effective teaching; promoting new and more effective teaching methods; and improving the preparation of graduate students who will be future faculty members.

Invitational Priority 6

Projects to promote innovative school-college partnerships and to improve the preparation of K–12 teachers, in order to enhance students' preparation for, access to, and success in college.

Invitational Priority 7

Projects to disseminate innovative postsecondary educational programs which have already been locally developed, implemented, and evaluated.
