## MA327E — CONSUMER, SCIENTIFIC, TECHNICAL AND INDUSTRIAL GLASSWARE

### DEFINITIONS AND SPECIAL INSTRUCTIONS

#### 1. Scope of survey

This survey covers all manufacturers and fabricators of the consumer, scientific, technical, and industrial glassware. Establishments (primary and secondary) manufacturing glassware from glass produced in the same establishment and those manufacturing glassware from glass purchased or transferred from other establishments of your company are included.

#### 2. Figures to be reported

##### a. Quantity

Figures may be based on records of sales, shipments or billings, whichever most closely approximates the physical movement of products out of this plant.

*Include* —

Products transferred to other establishments of your company as well as products shipped to your customers.

Products shipped on consignment, whether or not sold at the end of the year.

Subtract returned products previously shipped.

Do not include shipments of products purchased and resold in the same condition.

Report in 1,000 pieces or 1,000 dozens as requested for specified items.

##### b. Value

Report the NET selling value at the factory or plant of the total quantity of each product designated. This value should approximate as nearly as possible the actual amounts received or receivable by you for shipments made during the year. The reported figures should represent values, f.o.b. plant, after discounts and allowances and should not include freight charges and excise taxes.

*Include* cost of containers in which products were shipped. For products transferred to other establishments of your company (such as other manufacturing plants, separate sales departments, sales branches, retail stores, etc.), value should be the

nearest approximation to the net selling value of the products; that is, the value that would have been realized if the products had been sold f.o.b. plant.

##### c. Column structure of report

*SECTION I — Consumer Glassware (Machine Made and Handmade), Item codes 1141-1200*

*Column (1) Total Quantity of Shipments* — Report the total quantity of shipments of consumer glassware in the unit of measure specified. The total quantity of shipments should be the sum of the machine made and handmade columns.

*Column (2) Total Value of Shipments* — Report the total value of shipments in thousands of current U.S. dollars. The total value of shipments should be the sum of the hand and machine made columns.

*Column (3) Machine Made Quantity* — Report the total quantity of shipments for the machine made glass in the unit of measure specified.

*Column (4) Machine Made Value* — Report the total value of shipments for machine made glass in thousands of current U.S. dollars.

*Column (5) Handmade Quantity* — Report the total quantity of shipments for handmade glass in the unit specified.

*Column (6) Handmade Value* — Report the total value of handmade glass in thousands of current U.S. dollars.

*SECTION II — Lighting, Automotive, Scientific, Technical, and Industrial Glassware (Machine Made and Handmade)* — Report the total value of shipments for machine made and handmade glassware in thousands of current U.S. dollars.

#### 3. Definitions of consumer, scientific, technical, and industrial glassware

**a. Consumer Glassware (Table, Kitchen, Art and Novelty Glassware)** (*Includes machine made and handmade articles.*)

*Code 1141 — Tumblers (nonstemmed vessels)* — Include one-piece tumblers, both heavy and shell weights; exclude packers' tumblers.

# CURRENT INDUSTRIAL REPORTS SERIES

MA327E

## DEFINITIONS AND SPECIAL INSTRUCTIONS — Continued

*Code 1141 — Tumblers (nonstemmed vessels) — Continued.*

The most common tumblers are: beer glass, beer stein, cocktail, collins, coolers, delmonico, highball, iced tea, juice, malted, milk, old fashion, pilsner, room tumbler, side water, soda, split, water, and whiskey.

*Code 1142, Stemware (used generally for drinking — also may be used as dessert dishes) — Vessels with long and short stem, footed ware. The most common stemware items are: beer goblet, brandy, brandy snifter, champagne, cocktail, cordial, dessert, sour, footed pilsner, water goblet, and wine glasses.*

*Code 1143, Tableware — Items from which food and beverages are served or consumed, but not prepared. The most common items are: bread and butter plates, cups and saucers, cereal bowls, dinner plates, handled mugs, salad dishes, snack sets, soup bowls, butter dishes and covers, cake plates, candy dishes, chip'n dip sets, cream and sugar sets, vinegar cruets, hors d'oeuvre plates, jam dishes, meat dishes, pitchers (water, juice, syrup), punch bowls and cups, relish dishes, salad bowls, salt and pepper, serving carafes, and vegetable bowls.*

*Code 1148, Cookware, ovenware, and kitchenware including microwave specialty pieces — Items of ceramic glass and heat-resistant glass used to cook over direct heat or in the oven, and items used in the preparation and storage of foods.*

The most common kitchenware items are: canister sets, cookie jars, juicers, measuring cups, mixing bowls, shakers, refrigerator bottles, and refrigerator storage dishes.

The most common ovenware items are: baking dishes, cake pans, casseroles, custard cups, loaf pans, oven roasters, pie plates, and utility dishes.

The most common cookware items are: carafes, coffee makers, double boilers, dutch ovens, platters, saucepans, skillets, and teapots.

*Code 1151, Ornamental, decorative, novelty glassware, and smokers' accessories — Include such items as floralware (flower blocks, vases, ivy balls, and planters), ash trays, cigarette boxes, humidors, towel bars, decorative jars (apothecary, bathroom, and candy and spice), miscellaneous items (beverage coasters, caster cups, candle holders, fish bowls, piggy banks, Christmas tree ornaments), etc. (Specify kind)*

*Code 1154, Other table, kitchen, art, and novelty glassware — Includes other table, kitchen, art, and novelty glassware not specified above.*

*Code 1159 — Partially fabricated products shipped to another glassware establishment (in the same company or a separate company) for further processing should be reported on this line and not included on the individual lines above. The processing establishment will report the finished product on the appropriate product line. This will avoid duplicate reporting of the same product by separate establishments.*

### b. Lighting and Electronic Glassware

*Code 1241, Automotive lighting glassware — Sealed beam lenses, backup lenses, signal lenses, and interior automotive lenses.*

*Code 1243, Searchlight and other lenses — Railroad, marine, air and traffic lighting glassware.*

*Code 1245, Electric light bulb blanks — Incandescent, photo flash, and mercury vapor and high temperature lamps.*

*Code 1247, Tubing and cane for electric light bulbs and fluorescent and neon lighting — Exhaust tubes and flares for incandescent and fluorescent lamps.*

*Code 1251, Electronic tube blanks, radio, X-ray, radar, and special tubes — Exclude television picture tube blanks and parts. Include cathode ray, power tubes, microwave, and storage tubes.*

*Code 1255, Television tube blanks and parts; and tubing, cane, and other glass parts for electronic tubes and devices — Cylinders, rod-support insulators, diode beads and bodies, multiform parts, and moisture getter.*

*Codes 1257 and 1259, Bowls and enclosing globes, etc. — Lantern globes, chimneys, enclosing globes, shades, prismatic and diffusing globes, luminaire globes, decorative lighting glass parts and shields, and plates for fluorescent and incandescent lighting fixtures. Interior and exterior.*

*Code 1265, Other lighting and electronic glassware — Include such items as dials, insulator, custom-made lighting and electronic glassware, etc. (Specify kind)*

*Code 1269 — See code 1159.*

MA327E

## DEFINITIONS AND SPECIAL INSTRUCTIONS — Continued

### c. Scientific, Technical, and Industrial Glassware

*Code 1471, Tubing, rods, and canes, all types (except electrical and electronic)* — Items which are produced for uses such as volumetric ware, advertising purposes, heat-absorbing uses, and precision bore applications.

*Code 1472, Scientific and laboratory glassware – reusable* — Beads, beakers, bottles, burrets, centrifuge tubes, condensers, connecting tubes, crucibles, cylinders, desiccators, fritted disc, flasks, funnels, ground joints, jars, microscope slides, cover glasses, Petri culture dishes, pipets, special laboratory apparatus, stopcocks, test and culture tubes, thermometer and hydrometer blanks, custom-made laboratory apparatus.

*Code 1474, Scientific and laboratory glassware – disposable* — See code 1472.

*Code 1475, Industrial and technical glassware* — Battery jars, caps and bodies, coffee urn liners, explosion capsules, flow meter blanks, gauge glasses, lubrication glasses, copy machine cylinders, sight glasses, vacuum bottle parts, godet wheels, heat exchangers, milking machine accessories, glass pipe for chemical and food process and drain lines, rashing rings, ground glass, glass knobs, insulators, etc.

*Code 1477, Ophthalmic lens blanks and optical instrument lens blanks* — Ophthalmic and optical lens blanks, color filters, photographic window blanks, prism blanks, telescope mirror blanks, infrared and ultraviolet transmitting glasses, fibre optics glass parts. Do not include finished or semi-finished lenses.

*Code 1479, Other glassware* — Include such products as glass blocks, nursery bottles, balls, radomes, nose cones, vessels, vials, etc. (Specify kind)

*Code 1489* — See code 1159.

### 4. Comparability

Data reported in this survey should correspond to data reported in the Economic Census - Manufacturing Sector form. The sum of values for item codes shown in column (a) should correspond to dollar values reported under product codes indicated in column (b) below.

Current Industrial Reports (Form MA327E)	Economic Census- Manufacturing Sector
Item codes (a)	Product codes (b)
1200, column 4  1200, column 6	3272123100 or 3272151100 - 3272129100 pt or 3272155100 pt
1300	3272125100 or 3272153100 pt 3272129100 pt 3272155100 pt
1500	3272127100 or 3272153100 pt 3272129100 pt 3272155100 pt

pt — Part of the product code is comparable.
