The Air Transportation Safety and System Stabilization Act (P.L. 107-42) provided \$5 billion to compensate air carriers for direct losses incurred during the Federal ground stop of civil aviation after the September 11, 2001, terrorist attacks, and for incremental losses incurred between September 11 and December 31, 2001. The Administration is not requesting additional funds for this purpose in 2009.

COMPENSATION FOR GENERAL AVIATION OPERATIONS—Continued

The Transportation, Treasury and Housing and Urban Development, The Judiciary, District of Columbia and Independent Agencies Appropriations Act for Fiscal Year 2006 (P.L. 109–115) provided \$17 million to reimburse fixed-based general aviation operators and providers of general aviation ground support services at five facilities for the financial losses they incurred when the Federal Government closed the facilities due to the September 11, 2001 terrorist attacks. The Administration is not requesting additional funds for this purpose in 2009.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

For necessary expenses for conducting transportation planning, research, systems development, development activities, and making grants, to remain available until expended, **[\$13,883,900]** \$10,105,000. (Department of Transportation Appropriations Act, 2008.)

This appropriation finances research activities and studies concerned with planning, analysis, and information development needed to support the Secretary's responsibilities in the formulation of national transportation policies. The program is carried out primarily through contracts with other Federal

agencies, educational institutions, non-profit research organizations, and private firms. Activities support the development of transportation policy, coordination of national-level transportation planning, and such issues as regulatory modernization, energy conservation, and environmental and safety impacts of transportation. These also support departmental leadership on aviation economic policy and international transportation issues.

The Federal Aviation Reauthorization Act (FAA) of 1996 (P.L. 104–264) authorized the collection of user fees for services provided by the FAA to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service program and rural airport improvements. To the extent that fee collections fall below \$50 million, the law required the difference to be covered by Federal Aviation Administration funds. The 2009 Budget proposes a \$50 million program to be fully financed from overflight fees. The Budget proposes a general provision to restructure the program.

Through 1997, this program was funded from the Airport and Airway Trust Fund. Starting in 1998, the FAA reauthorization funded it as a mandatory program supported by overflight fees under the Essential Air Service and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to the Payments to Air Carriers program were enacted in 2007 and 2008. The Administration is not requesting appropriations from the Airport and Airway Trust Fund for the Payments to Air Carriers account in 2009.

[ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION]

[SEC. 101. The Secretary of Transportation is authorized to transfer the unexpended balances available for the bonding assistance program from “Office of the Secretary, Salaries and expenses” to “Minority Business Outreach”.]

[SEC. 102. None of the funds made available in this Act to the Department of Transportation may be obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.]

[SEC. 103. None of the funds made available under this Act may be obligated or expended to establish or implement a program under which essential air service communities are required to assume subsidy costs commonly referred to as the EAS local participation program.] (*Department of Transportation Appropriations Act, 2008.*)

FEDERAL AVIATION ADMINISTRATION

Today’s disjointed system of aviation ticket taxes and fuel taxes fails to encourage efficient use of airports and airspace. The Administration transmitted a reauthorization proposal in February 2007 to reform the Federal Aviation Administration’s (FAA) financing system by adopting new cost-based user fees and a new governance structure to provide more transparency and accountability for FAA operations. The Administration will resubmit the proposal that establishes a cost-based financing system, helps to address congestion, and

makes the system more accountable to aviation stakeholders. The Budget estimates in the Appendix present FAA’s budget accounts under current law financing mechanisms for 2009; estimates beyond 2009 assume enactment of the Administration’s proposal.

Under the proposal, FAA’s financing sources shift from a mix of fuel taxes, other excise taxes, and general fund contributions to user fees, fuel taxes, and a general fund contribution. FAA would have the authority to collect user fees that directly offset the cost of FAA’s operations and capital investments related to air traffic services; expenditure of the available fees would be affirmed in the appropriations process. Air traffic user fees would be collected from turbine-powered fixed-wing commercial aviation operators. General aviation users, along with commercial piston flights and helicopters, would continue to pay a fuel tax that would be deposited into the Airport and Airway Trust Fund; fuel tax rates would be calibrated based on the costs that these users impose on the system. The general fund component of FAA’s budget would cover activities that benefit the public such as safety and public use of the airspace. Finally, the Airport Improvement Program and the majority of the Research, Engineering, and Development program would continue to be funded by fuel taxes paid by all domestic users into the Airport and Airway Trust Fund, along with an international passenger tax (reduced from current rates because these flights would also pay user fees).

(in millions of dollars)

	2009 Budget Current Law Extended	2010 Budget Under Reauthori- zation Proposal
Safety and Operations	2,052	2,116
Air Traffic Organization	9,670	10,294
Airport Improvement Program	2,750	2,900
Research, Engineering and Development	171	189
FAA Total Program Level	14,643	15,499
Less: Obligation Limitation	-2,750	-2,900
FAA Gross Discretionary Level	11,893	12,599
Less: Discretionary User Fees	n/a	-8,550
FAA Net Discretionary Level	11,893	4,049

As the table above illustrates, while total spending will increase by \$856 million in 2010 under the Administration’s proposal, user fees will offset over half of FAA’s 2010 budget. This means FAA net discretionary level will decrease by \$7.84 billion, even as FAA increases investment in the Next Generation Air Traffic Control System.

FAA aims to create a more direct relationship between revenues collected and the cost of services provided, thereby creating incentives to make the system more efficient and responsive to user needs. The reform of FAA’s financing structure is necessary because under the existing aviation tax structure, there is no relationship between the taxes paid by users and the air traffic control services rendered by the FAA. This disconnect leads to distorted consumption of air traffic services, and, ultimately, congestion. For example, when a full plane flies from New York to Boston it imposes the same workload on the FAA as when a less crowded plane of the same size travels the same route. However, since the current tax structure is primarily based on ticket revenue, the full plane pays much more in taxes than the less crowded plane. Furthermore, a general aviation jet pays a small fraction, often less than 10 percent of what a commercial flight pays, despite using the same airspace and services. User fees allow commercial aviation users to pay directly for the services that FAA provides for managing their use of the national airspace. Similarly, under the recalibrated fuel taxes, general aviation users would pay a fairer share of the air traffic costs through their preferred payment mechanism.

The Administration's proposal was crafted to reform FAA's financing system to better enable modernization and reduce congestion. In its proposal, FAA would charge cost-based fees for terminal and en route airspace. At large congested airports, FAA could adjust this terminal fee based on the time of day and day of the week, to reduce delays and congestion.

The Administration has also taken several short-term steps to address congestion including new air traffic patterns at JFK, LaGuardia, Newark, and Philadelphia International airports, directing the appointment of a New York aviation czar, and working with the Port Authority of New York and New Jersey, airports, airlines, and other stakeholders to make operational improvements. FAA also convened scheduling reduction meetings in October 2007. As a result of those meetings, an agreement was reached on reducing schedules during peak hours at JFK to ensure operations remain within available capacity. The Secretary also directed the FAA to enter into negotiations to set hourly caps at Newark Airport, so that flights are not simply shifted there, erasing gains made at JFK.

DOT will continue talks with airlines and airports to look at ways to use broader market-based mechanisms to combat delays not only in the New York region, but in clogged aviation centers elsewhere around the country. Later this year, the FAA anticipates leasing new airspace capacity added in the New York City region for the 2009 summer schedule. The price of these leases will ultimately be determined by the market demand for the operating authorizations. The Administration will consider transmitting a budget amendment when there is better information concerning the number of operating authorizations available to be leased and the potential revenue generated from the leases. Revenue will be directed to further capacity improvements in the New York airspace.

The following table depicts the total funding for all Federal Aviation Administration programs, for which more detail is furnished in the budget schedules:

	[In millions of dollars]

In 2009, FAA proposes a new account structure to align FAA's budget account structure with its lines of business. The proposal replaces the Operations and Facilities and

Equipment accounts with the Air Traffic Organization and Safety and Operations accounts. No further budget authority is requested in 2009 in the Operations account and its schedule shows obligation and outlay amounts from prior years. 2009 funding is requested for these activities in the Air Traffic Organization and Safety and Operations accounts.

For 2009, FAA proposes a new budget account, Safety and Operations, that better aligns with FAA's lines of business. The Budget request of \$2,052 million supports the Office of Aviation Safety, which is responsible for ensuring the safe operation of the airlines and certifies new aviation products. The request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

For 2009, FAA proposes a new budget account, Air Traffic Organization, that better aligns with FAA's lines of business. This account provides funds for the operation, maintenance, communications, and logistical support of the air traffic control and air navigation systems, including the deployment of communications, navigation, surveillance and related equipment and technology. As a performance-based organization, ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. In 2009, this account includes funding for FAA initiatives related to the Next Generation Air Transportation System, a joint effort between FAA, NASA, and other agencies to design the future operating environment. The funding request for 2009 is also in accordance with FAA's comprehensive plan for modernizing and improving air traffic control and airway facilities services.

This account provides funding to conduct research, engineering, and development to improve the capacity and safety of the national airspace, as well as the ability to meet environmental needs. For 2009, the Administration proposes funding the Research, Engineering and Development (RE&D) program from a combination of the Airport and Airway Trust Fund and the General Fund requiring this account to accommodate both sources of funding. The proposed funding is allocated to the following performance goal areas of the FAA: increase safety and create greater capacity. The request includes funding for the Joint Planning and Development Office to coordinate the interagency effort to develop the Next Generation Air Transportation System.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for air traffic control and related services provided by the FAA to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Budget estimates that \$52 million in overflight fees will be collected in 2009.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). Income to the fund is derived from premium collections for premium insurance coverage issued, income from authorized investments, and binder fees for nonpremium coverage issued. The binders provide aviation insurance coverage for U.S. air carrier aircraft used in connection with certain Government contract operations by the Department of Defense and the Department of State.

The Homeland Security Act of 2002 (P.L. 107-296) required the Secretary to provide additional war risk insurance coverage (Hull Loss and Passenger and Crew Liability) to air carriers insured for Third-Party War Risk Liability as of June 19, 2002, as authorized under existing law. Continuation of this coverage was subsequently directed by several appropriations acts, the last being the Department of Transportation Appropriations Act of 2008, which extended the requirement to provide insurance coverage through August 31, 2008. The Secretary is authorized to limit an air carrier's third party liability to \$100 million, when the Secretary certifies that the loss was from an act of terrorism. The FAA insurance policy covers: (i) hull losses at agreed value; (ii) death, injury, or property loss to passengers or crew, the limit being the same as that of the air carrier's commercial coverage before September 11, 2001; and (iii) third party liability, the limit generally being twice that of such coverage.

In 1997, the Federal Aviation Administration established a franchise fund to finance operations where the costs for goods and services provided are charged to the users on a reimbursable basis. The fund improves organizational efficiency and provides better support to FAA's internal and external customers. The activities included in this franchise fund are: training, accounting, payroll, travel, duplicating services, multi-media services, information technology, materiel management (logistics), and aircraft maintenance.

Section 9502 of Title 26, U.S. Code, provides for amounts equivalent to the funds received in the Treasury for the passenger ticket tax and certain other taxes paid by airport and airway users to be transferred to the Airport and Airway Trust Fund. In turn, appropriations are authorized from this fund to meet obligations for airport improvement grants, FAA staff offices, the Air Traffic Organization, payment to air carriers, and the Bureau of Transportation Statistics Office of Airline Information.

The status of the fund is as follows:

GRANTS-IN-AID FOR AIRPORTS
(LIQUIDATION OF CONTRACT AUTHORIZATION)
(LIMITATION ON OBLIGATIONS)
(AIRPORT AND AIRWAY TRUST FUND)

For liquidation of obligations incurred for grants-in-aid for airport planning and development, and noise compatibility planning and programs as authorized under subchapter I of chapter 471 and subchapter I of chapter 475 of title 49, United States Code, and under other law authorizing such obligations; for procurement, installation, and commissioning of runway incursion prevention devices and systems at airports of such title; for grants authorized under section 41743 of title 49, United States Code; and for inspection activities and administration of airport safety programs, including those related to airport operating certificates under section 44706 of title 49, United States Code, **[\$4,399,000,000] \$3,600,000,000**, to be derived from the Airport and Airway Trust Fund and to remain available until expended: *Provided*, That none of the funds under this heading shall be available for the planning or execution of programs the obligations for which are in excess of **[\$3,514,500,000] \$2,750,000,000** in fiscal year **[2008] 2009**, notwithstanding section 47117(g) of title 49, United States Code: *Provided further*, That none of the funds under this heading shall be available for the replacement of baggage conveyor systems, reconfiguration of terminal baggage areas, or other airport improvements that are necessary to install bulk explosive detection systems: *Provided further*, That notwithstanding any other provision of law, of funds limited under this heading, not more than **[\$80,676,000] \$87,454,232** shall be obligated for administration, not less than **[\$10,000,000] \$15,000,000** shall be available for the airport cooperative research program, and not less than **[\$18,712,000] \$19,347,834** shall be for Airport Technology Research **[and \$10,000,000**, to remain available until expended, shall be available and transferred to "Office of the Secretary, Salaries and Expenses" to carry out the Small Community Air Service Development Program].

(RESCISSION)

[Of the amounts authorized under sections 48103 and 48112 of title 49, United States Code, \$185,500,000 is rescinded from amounts authorized for the fiscal year ending September 30, 2007, and prior years; and \$85,000,000 is rescinded from amounts authorized for the fiscal year ending September 30, 2008.] (*Department of Transportation Appropriations Act, 2008.*)

Program and Financing (in millions of dollars)

Identification code 69-8106-0-7-402	2007 actual	2008 est.	2009 est.

Against gross budget authority only:			
88.95 Change in uncollected customer payments from Federal sources (unexpired)	-9		
88.96 Portion of offsetting collections (cash) credited to expired accounts	64		

Net budget authority and outlays:

89.00 Budget authority	2,518	2,514	
90.00 Outlays	2,290	2,704	1,628

In 2009, FAA proposes a new account structure that replaces the Operations and Facilities and Equipment accounts with the Air Traffic Organization and Safety and Operations accounts to align FAA's budget account structure with its lines of business. No budget authority is requested in 2009 in the Facilities and Equipment account and its schedule shows obligation and outlay amounts from prior years. Instead, 2009 funding is requested for these activities in the Air Traffic Organization and Safety and Operations accounts.

In 2009, the Administration proposes funding the Research, Engineering and Development (RE&D) program from a combination of resources from the Airport and Airway Trust Fund and the General Fund. A RE&D account was established to accommodate both sources of funding. Therefore, no further budget authority is requested for this RE&D Trust Fund account.

For 2009, the Budget proposes \$11,893 million for FAA Safety and Operations, Air Traffic Organization, and Research, Engineering, and Development, of which \$9,161 million would be provided from the Airport and Airway Trust Fund.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

【SEC. 110. None of the funds in this Act may be used to compensate in excess of 425 technical staff-years under the federally funded research and development center contract between the Federal Aviation Administration and the Center for Advanced Aviation Systems Development during fiscal year 2008.】

【SEC. 111. None of the funds in this Act shall be used to pursue or adopt guidelines or regulations requiring airport sponsors to provide to the Federal Aviation Administration without cost building construction, maintenance, utilities and expenses, or space in airport sponsor-owned buildings for services relating to air traffic control, air navigation, or weather reporting: *Provided*, That the prohibition of funds in this section does not apply to negotiations between the agency and airport sponsors to achieve agreement on “below-market” rates for these items or to grant assurances that require airport sponsors to provide land without cost to the FAA for air traffic control facilities.】

SEC. 【112】 110. The Administrator of the Federal Aviation Administration may reimburse amounts made available to satisfy 49 U.S.C. 41742(a)(1) from fees credited under 49 U.S.C. 45303: *Provided*, That during fiscal year 【2008】 2009, 49 U.S.C. 41742(b) shall not apply, and any amount remaining in such account at the close of that fiscal year may be made available to satisfy section 41742(a)(1) for the subsequent fiscal year.

SEC. 【113】 111. Amounts collected under section 40113(e) of title 49, United States Code, shall be credited to the appropriation current at the time of collection, to be merged with and available for the same purposes of such appropriation.

【SEC. 114. (a) Section 44302(f)(1) of title 49, United States Code, is amended by striking “2006,” each place it appears and inserting “2008,”.

(b) Section 44303(b) of such title is amended by striking “2006,” and inserting “2008,”.】

【SEC. 115. None of the funds appropriated or limited by this Act may be used to change weight restrictions or prior permission rules at Teterboro airport in Teterboro, New Jersey.】

【SEC. 116. EXTENSION OF TAXES AND EXPENDITURE AUTHORITY RELATING TO AIRPORT AND AIRWAY TRUST FUND

(a) FUEL TAXES.—Subparagraph (B) of section 4081(d)(2) of the Internal Revenue Code of 1986 is amended by striking “September 30, 2007” and inserting “February 29, 2008”.

(b) TICKET TAXES.—

(1) PERSONS.—Clause (ii) of section 4261(j)(1)(A) of such Code is amended by striking “September 30, 2007” and inserting “February 29, 2008”.

(2) PROPERTY.—Clause (ii) of section 4271(d)(1)(A) of such Code is amended by striking “September 30, 2007” and inserting “February 29, 2008”.

(c) AIRPORT AND AIRWAY TRUST FUND EXPENDITURE AUTHORITY.—

(1) IN GENERAL.—Paragraph (1) of section 9502(d) of such Code is amended—

(A) by striking “October 1, 2007” and inserting “March 1, 2008”, and

(B) by inserting “or the Department of Transportation Appropriations Act, 2008” in subparagraph (A) before the semicolon at the end.

(2) CONFORMING AMENDMENT.—Paragraph (2) of section 9502(f) of such Code is amended by striking “October 1, 2007” and inserting “March 1, 2008”.

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 2007.】

【SEC. 117. LABOR INTEGRATION

(a) LABOR INTEGRATION.—With respect to any covered transaction involving two or more covered air carriers that results in the combination of crafts or classes that are subject to the Railway Labor Act (45 U.S.C. 151 et seq.), sections 3 and 13 of the labor protective provisions imposed by the Civil Aeronautics Board in the Allegheny-Mohawk merger (as published at 59 C.A.B. 45) shall apply to the integration of covered employees of the covered air carriers; except that—

(1) if the same collective bargaining agent represents the combining crafts or classes at each of the covered air carriers, that collective bargaining agent’s internal policies regarding integration, if any, will not be affected by and will supersede the requirements of this section; and

(2) the requirements of any collective bargaining agreement that may be applicable to the terms of integration involving covered employees of a covered air carrier shall not be affected by the requirements of this section as to the employees covered by that agreement, so long as those provisions allow for the protections afforded by sections 3 and 13 of the Allegheny-Mohawk provisions.

(b) DEFINITIONS.—In this section, the following definitions apply:

(1) AIR CARRIER.—The term “air carrier” means an air carrier that holds a certificate issued under chapter 411 of title 49, United States Code.

(2) COVERED AIR CARRIER.—The term “covered air carrier” means an air carrier that is involved in a covered transaction.

(3) COVERED EMPLOYEE.—The term “covered employee” means an employee who—

(A) is not a temporary employee; and

(B) is a member of a craft or class that is subject to the Railway Labor Act (45 U.S.C. 151 et seq.).

(4) COVERED TRANSACTION.—The term “covered transaction” means—

(A) a transaction for the combination of multiple air carriers into a single air carrier; and which

(B) involves the transfer of ownership or control of—

(i) 50 percent or more of the equity securities (as defined in section 101 of title 11, United States Code) of an air carrier; or

(ii) 50 percent or more (by value) of the assets of the air carrier.

(c) APPLICATION.—This section shall not apply to any covered transaction involving a covered air carrier that took place before the date of enactment of this Act.

(d) EFFECTIVENESS OF PROVISION.—This section shall become effective on the date of enactment of this Act and shall continue in effect in fiscal years after fiscal year 2008.】

SEC. 112. None of the funds in this Act shall be available for paying premium pay under 5 U.S.C. 5546(a) to any Federal Aviation Administration employee unless such employee actually performed work during the time corresponding to such premium pay.

SEC. 113. None of the funds in this Act may be obligated or expended for an employee of the Federal Aviation Administration to purchase a store gift card or gift certificate through use of a Government-issued credit card. (Department of Transportation Appropriations Act, 2008.)

FEDERAL HIGHWAY ADMINISTRATION

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), enacted August 10, 2005, provides for increased transportation infrastructure investment, strengthens transportation safety programs and environmental programs, and continues core research activities. SAFETEA-LU, along with Title 23, United States Code (“Highways”) and other supporting legislation, provides authority for the various programs of the Federal Highway Administration designed to improve highways

throughout the Nation. The President's Budget continues transportation infrastructure investment to increase the mobility and productivity of the Nation, strengthens transportation safety programs, and provides focus on program efficiencies, oversight, and accountability. In support of the Administration's National Strategy to Reduce Congestion on America's Transportation Network, the Administration proposes using existing budgetary resources to fund a new initiative to reduce highway congestion.

In 2009, the Federal Highway Administration continues core programs, including the Surface Transportation Program, the National Highway System, Interstate Maintenance, Highway Safety Improvement Program, Highway Bridge Replacement and Rehabilitation Program, the Federal Lands Highways Program, and the Congestion Mitigation and Air Quality Improvement Program. In addition, the Transportation Infrastructure Finance and Innovation program provides Federal credit assistance to nationally or regionally significant surface transportation projects, and the Equity Bonus program provides funding to States based on equity considerations. Other programs new in SAFETEA-LU include the Coordinated Border Infrastructure Program, Highways for Life Pilot Program, National Corridor Infrastructure Improvement Program, Projects of National and Regional Significance, and Safe Routes to School.

In summary, the 2009 Budget consists of \$41,562 million in new budget authority and \$40,637 million in outlays. The following table reflects the total funding for all Federal Highway Administration programs.

	(In millions of dollars)		
	2007 actual	2008 actual	2009 est.
Budget Authority:			
Federal-aid highways (HTF)	42,159	42,627	41,487
Federal-aid subject to limitation	41,409	41,877	40,748
Federal-aid highways exempt from the limitation	751	750	739
Appalachian development highway system (GF)	20	16	0
Miscellaneous appropriations (GF)	1	15	0
Emergency relief (GF) 1/	871	195	0
Miscellaneous trust funds (TF)	34	75	75
Total Budget Authority	43,085	42,928	41,562
Total Discretionary	894	225	0
Total Mandatory	42,191	42,703	41,562
Obligation Limitation:			
Federal-aid highways (HTF)	38,965	41,216	39,399

¹Includes U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act 2007, Chapter 8 of Title IV—Additional Hurricane Disaster Relief and Recovery, P. L. 110-28.
Note: Numbers may not add due to rounding. Totals do not include transfers with the Federal Transit Administration.

Federal Funds

MISCELLANEOUS APPROPRIATIONS

[DELTA REGIONAL TRANSPORTATION DEVELOPMENT PROGRAM]

[For necessary expenses for the Delta Regional Transportation Development Program as authorized under section 1308 of Public Law 109-59, \$14,014,000, to remain available until expended.] (*Department of Transportation Appropriations Act, 2008.*)

Program and Financing (in millions of dollars)

Net budget authority and outlays:				
89.00	Budget authority	871	195	
90.00	Outlays	841	1,112	979

The Emergency Relief program receives \$100 million annually in mandatory funds from the Highway Trust Fund in the Federal-aid highways account. SAFETEA-LU authorized the program to receive additional General Fund discretionary funding as needed. These funds are provided through this account starting in 2006.

In 2008, \$195 million was appropriated for the repair and reconstruction of the Interstate 35W bridge located in Minneapolis, MN, that collapsed on August 1, 2007, as authorized under Public Law 110-56. No further appropriation is requested for this account in 2009.

[APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM]

[For necessary expenses for West Virginia corridor H of the Appalachian Development Highway System as authorized under section 1069(y) of Public Law 102-240, as amended, \$15,680,000, to remain available until expended.] (*Department of Transportation Appropriations Act, 2008.*)

1231	Disbursements: Direct loan disbursements	20	40
1290	Outstanding, end of year	20	60

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from lines of credit made under the Transportation Infrastructure Finance and Innovation Act Program (TIFIA). The amounts are a means of financing and are not included in the budget totals.

ORANGE COUNTY (CA) TOLL ROAD DEMONSTRATION PROJECT PROGRAM ACCOUNT

Program and Financing (in millions of dollars)

Identification code 69-0543-0-1-401	2007 actual	2008 est.	2009 est.
Change in obligated balances:			
72.40	Obligated balance, start of year	5	3 1
73.40	Adjustments in expired accounts (net)	— 2	— 2
74.40	Obligated balance, end of year	3	1 1

Net budget authority and outlays:			
89.00	Budget authority		
90.00	Outlays		

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated in 1992 and later years (including modifications of direct loans, loan guarantees, or lines of credit that resulted from obligations or commitments in any year) as well as administrative expenses of this program. The Department provided these lines of credit for two toll road projects in Orange County, California. Each year, \$24 million of these lines of credit expire if not used.

RIGHT-OF-WAY REVOLVING FUND LIQUIDATING ACCOUNT—Continued

Status of Direct Loans (in millions of dollars)

Identification code 69-8402-0-8-401	2007 actual	2008 est.	2009 est.
Cumulative balance of direct loans outstanding:			
1210 Outstanding, start of year	67	67	67
1264 Write-offs for default: Loan Forgiveness (P.L. 109-59)			
1290 Outstanding, end of year	67	67	67

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs.

This program was terminated by TEA-21 but will continue to be shown for reporting purposes as loan balances remain outstanding. The purchase of right-of-way is an eligible expense of the Federal-aid program.

FEDERAL-AID HIGHWAYS
HIGHWAY TRUST FUND

Whenever in this fiscal year the Secretary of the Treasury (after consultation with the Secretary of Transportation) determines that the amount in the Highway Trust Fund (other than the Mass Transit Account) or the Mass Transit Account is insufficient to timely meet the anticipated payments from the account, and the amount in the other account exceeds the amount necessary to timely meet the anticipated payments from that account, the Secretary shall transfer to the insufficient account from such other account referred to in this paragraph an amount up to the insufficiency or the excess in such other account, whichever is less: Provided, That any amount transferred to the insufficient account shall be treated as a non-interest bearing repayable advance: Provided further, That whenever in this fiscal year or any fiscal year hereafter the Secretary of the Treasury (after consultation with the Secretary of Transportation) determines that the amount in the account to which an advance is made exceeds the amount necessary to timely meet the anticipated payments from the account, the Secretary shall transfer from that account, to the account from which the advance was made, an amount equal to the amount so advanced or such excess, whichever is less.

Program and Financing (in millions of dollars)

Identification code 20-8102-0-7-401	2007 actual	2008 est.	2009 est.
Memorandum (non-add) entries:			
92.01 Total investments, start of year: Federal securities: Par value	10,998	12,205	7,070
92.02 Total investments, end of year: Federal securities: Par value	12,205	7,070	1,072

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law.

The Budget authorizes borrowing between the Highway Account and the Mass Transit Account within the Highway Trust Fund in fiscal year 2009 in the form of non-interest bearing repayable advances. The borrowing would occur if the Secretary of the Treasury, in consultation with the Secretary of Transportation, determines that during 2009, the amount in the borrowing account is not sufficient to make anticipated payments in a timely manner and the amount in the lending account exceeds the amount necessary to make anticipated payments in a timely manner.

The Status of Funds table presents the status of the Highway Trust Fund. The rule governing most trust funds is that the legal authority to incur obligations against the receipts estimated to be collected by the fund cannot exceed the cash balances of the fund, i.e., the actual receipts estimated to be collected in that year. The laws governing the Highway Trust Fund provide an exception to this rule. The legal authority to incur obligations against the Highway Trust Fund can exceed the actual cash balances up to the receipts anticipated to be collected in the following four years.

Cash balances.—The Status of Funds table begins with the unexpended balance on a “cash basis” at the start of the year. The table shows the amount of cash invested in Federal securities at par value and the amount of cash on hand, i.e., uninvested balance. Next, the table provides the amounts of cash income and cash outlays during each year to show the cash balance at the end of each year.

The following table shows the annual income and outlays of programs funded by the Highway Account of the Highway Trust Fund.

STATUS OF THE HIGHWAY ACCOUNT OF THE HIGHWAY TRUST FUND

(In millions of dollars)

	2007 actual	2008 est.	2009 est.

FEDERAL-AID HIGHWAYS
([RESCISSION] CANCELLATION)
(HIGHWAY TRUST FUND)

Of the unobligated balances of funds apportioned to each State under chapter 1 of title 23, United States Code, \$3,150,000,000 are [rescinded] hereby cancelled: *Provided*, That such [rescission] cancellation shall not apply to the funds distributed in accordance with sections 130(f) and 104(b)(5) of title 23, United States Code; sections 133(d)(1) and 163 of such title, as in effect on the day before the date of enactment of Public Law 109-59; and the first sentence of section 133(d)(3)(A) of such title.

(a) *Notwithstanding any other provision of law, of the unobligated balances of funds made available under sections 1103(b), 1104(b), 1105(f), 1105(h), 1106(a), 1106(b), 1107(b), 1108(b), and 4008(j) of Public Law 102-240 and section 6023(b) of Public Law 102-240 (adding paragraph (10)(C) to section 11(b) of the Federal Transit Act), up to \$175,000,000 shall be available to the Secretary of Transportation to carry out the National Strategy to Reduce Congestion on America's Transportation Network, consisting of \$100,000,000 for metropolitan area congestion reduction demonstration initiatives and \$75,000,000 to support the Corridors of the Future program: Provided further, That funds available pursuant to this section shall remain available for obligation until September 30, 2011, and shall not be subject to any limitation on obligations for Federal-aid highways and highway safety construction programs set forth in this Act or any other act: Provided further, That the Federal share payable on account of any program, project, or activity carried out with funds made available under this section may be up to 100 percent.*

(b) *Notwithstanding any other provision of law, after funds are made available in accordance with subsection (a), of the remaining unobligated balances of funds under sections 1103(b), 1104(b), 1105(f), 1105(h), 1106(a), 1106(b), 1107(b), 1108(b), and 4008(j) of Public Law 102-240 and section 6023(b) of Public Law 102-240 (adding paragraph (10)(C) to section 11(b) of the Federal Transit Act), \$109,000,000 are hereby cancelled.*

(c) *Notwithstanding any other provision of law, of the unobligated balances made available under section 1602 of Public Law 105-178, funds for each project for which less than 10 percent of the funds made available under that section have been obligated are hereby cancelled.*

(LIMITATION ON OBLIGATIONS)
(HIGHWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)

None of the funds in this Act shall be available for the implementation or execution of programs, the obligations for which are in excess of \$40,216,051,359 \$39,398,728,226 for Federal-aid highways and

highway safety construction programs for fiscal year 2008: *Provided*, That within the \$40,216,051,359 \$39,398,728,226 obligation limitation on Federal-aid highways and highway safety construction programs, not more than \$429,800,000 shall be available for the implementation or execution of programs for transportation research (chapter 5 of title 23, United States Code; sections 111, 5505, and 5506 of title 49, United States Code; and title 5 of Public Law 109-59) for fiscal year [2008] 2009: *Provided further*, That this limitation on transportation research programs shall not apply to any authority previously made available for obligation: *Provided further*, That the Secretary may, as authorized by section 605(b) of title 23, United States Code, collect and spend fees to cover the costs of services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments and all or a portion of the costs to the Federal Government of servicing such credit instruments: *Provided further*, That such fees are available until expended to pay for such costs: *Provided further*, That such amounts are in addition to administrative expenses that are also available for such purpose, and are not subject to any obligation limitation or the limitation on administrative expenses under section 608 of title 23, United States Code.

[(ADDITIONAL OBLIGATION LIMITATION)]
[(HIGHWAY TRUST FUND)]

[For an additional amount of obligation limitation to be distributed for the purpose of section 144(e) of title 23, United States Code, \$1,000,000,000: *Provided*, That such obligation limitation shall be used only for a purpose eligible for obligation with funds apportioned under such section and shall be distributed in accordance with the formula in such section: *Provided further*, That such obligation limitation shall remain available for a period of three fiscal years and shall be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years: *Provided further*, That in distributing obligation authority under this paragraph, the Secretary shall ensure that such obligation limitation shall supplement and not supplant each State's planned obligations for such purposes.]

(LIQUIDATION OF CONTRACT AUTHORIZATION)
(HIGHWAY TRUST FUND)

For carrying out the provisions of title 23, United States Code, that are attributable to Federal-aid highways, not otherwise provided, including reimbursement for sums expended pursuant to the provisions of 23 U.S.C. 308, \$41,955,051,359 \$39,500,000,000 or so much thereof as may be available in and derived from the Highway Trust Fund (other than the Mass Transit Account), to remain available until expended: *Provided*, That notwithstanding any other provision of law, from such amount, sufficient funds shall first be allocated to ensure timely liquidation of obligations for salaries and administrative expenses authorized to be paid from this account for the fiscal year. (Department of Transportation Appropriations Act, 2008.)

The Federal-Aid Highways (FAH) program is designed to aid in the development, operations and management of an intermodal transportation system that is economically efficient, environmentally sound, provides the foundation for the Nation to compete in the global economy, and moves people and goods safely.

All programs included within FAH are financed from the Highway Trust Fund and most are distributed via apportionments and allocations to States. Liquidating cash appropriations are subsequently requested to fund outlays resulting from obligations incurred under contract authority. The Budget continues to fund most programs from within the Federal-Aid Highway obligation limitation. Emergency Relief (\$100 million) and a portion of the Equity Bonus program (\$639 million) are exempt from the obligation limitation.

The FAH program is funded by contract authority in P.L. 109-59, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The Budget proposes an obligation limitation for FAH of \$39.4 billion. This funding level for 2009 reflects the obligation limitation that will fulfill the funding commitment under SAFETEA-LU, including a downward adjustment based on the revenue aligned budget authority (RABA) calculation enacted in SAFETEA-LU.

Surface transportation program (STP).—STP funds may be used by States and localities for projects on any Federal-

aid highway, bridge projects on any public road, transit capital projects, and intracity and intercity bus terminals and facilities. A portion of STP funds are set aside for transportation enhancements and State sub-allocations are provided.

National highway system (NHS).—The NHS program provides funding for a designated National Highway System consisting of roads that are of primary Federal interest. The NHS consists of the current Interstate, other rural principal arterials, urban freeways and connecting urban principal arterials, and facilities on the Defense Department's designated Strategic Highway Network, and roads connecting the NHS to intermodal facilities. Legislation designating the 161,000 mile system was enacted in 1995.

Interstate maintenance (IM).—The IM program finances projects to rehabilitate, restore, resurface and reconstruct roads and bridges on the Interstate system. Reconstruction that increases capacity, other than HOV lanes, is not eligible for IM funds.

Emergency relief (ER).—The ER program provides funds for the repair or reconstruction of Federal-aid highways and bridges and Federally-owned roads and bridges that have suffered serious damage as the result of natural disasters or catastrophic failures. The ER program supplements the commitment of resources by States, their political subdivisions, or Federal agencies to help pay for unusually heavy expenses resulting from extraordinary conditions.

Bridge replacement and rehabilitation.—The bridge program enables States to improve the condition of their bridges through replacement, rehabilitation, and systematic preventive maintenance. The funds are available for use on bridges located on any public road.

Congestion mitigation and air quality improvement program (CMAQ).—The CMAQ program directs funds toward transportation projects and programs to help meet and maintain national ambient air quality standards for ozone, carbon monoxide, and particulate matter.

Federal lands.—This category funds improvement for forest highways, park roads and parkways, Indian reservation roads, and refuge roads. The Federal Lands Highways program provides for transportation planning, research, engineering, and construction of highways, roads, parkways, and transit facilities that provide access to or within public lands, National parks, and Indian reservations.

Transportation infrastructure finance and innovation (TIFIA) program.—The TIFIA credit program issues loans to assist in the development of surface transportation projects of regional and national significance. The goal is to develop major infrastructure facilities through greater non-Federal and private sector participation.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans, loan guarantees, and lines of credit obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and the administrative expenses are estimated on a cash basis.

Federal highway research, technology and education.—Research, technology, and education programs develop new transportation technology that can be applied nationwide. Activities include surface transportation research, including Intelligent Transportation Systems; development and deployment, training and education; and University Transportation Research.

Highway safety improvement (HSIP).—The highway infrastructure safety program, established as a core program in 2006, features strategic safety planning and performance, devotes additional resources, and supports innovative ap-

proaches to reducing highway fatalities and injuries on all public roads.

Equity Bonus program.—The Equity Bonus program provides additional funds to States to ensure that each State receives an amount based on equity considerations. Each State is guaranteed a minimum rate of return on its share of contributions to the Highway Account of the Highway Trust Fund, and a minimum increase relative to the average dollar amount of apportionments under the previous highway authorization (the Transportation Equity Act for the 21st Century, or TEA-21). Certain States will maintain the share of total apportionments they each received during TEA-21. An open-ended authorization is provided, ensuring that there will be sufficient funds to meet the objectives of the Equity Bonus program.

High priority projects and transportation improvements.—Funds are provided for specific projects identified in SAFETEA-LU, each with a specified amount of funding over the 5 years of SAFETEA-LU.

Projects of national and regional significance.—Provides funding for specific projects of national or regional importance. All the funds authorized for this program from the Highway Trust Fund are designated for projects listed in SAFETEA-LU.

Congestion Reduction Initiative.—In support of a Department-wide effort to tackle congestion in all modes of transportation, the 2009 Budget includes a \$175 million initiative for reducing highway congestion. The Budget proposes to fund the initiative by reprogramming \$175 million in unobligated balances associated with inactive Federal-aid highway program demonstration projects. These funds will be used to support new pricing projects in metropolitan areas and continue the Corridors of the Future program.

The Miscellaneous Trust Funds account reflects work performed by FHWA for other parties. FHWA performs the work on a reimbursable basis.

Cooperative work, forest highways.—Contributions are received from States and counties in connection with cooperative engineering, survey, maintenance, and construction projects for forest highways.

Contributions for highway research programs (Government Receipts).—Contributions are received from various sources in support of the FHWA Research, Development, and Technology Program. The funds are used primarily in support of pooled-funds projects.

Advances from State cooperating agencies.—Funds are contributed by the State highway departments or local subdivisions thereof for construction and/or maintenance of roads or bridges. The work is performed under the supervision of the Federal Highway Administration.

International highway transportation outreach.—Funds are collected to inform the domestic highway community of technological innovations, promote highway transportation expertise internationally, and increase transfers of transportation technology to foreign countries.

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION
[(INCLUDING RESCISSIONS)]

[SEC. 120. (a) For fiscal year 2008, the Secretary of Transportation shall—

(1) not distribute from the obligation limitation for Federal-aid highways amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code; programs funded from the administrative takedown authorized by section 104(a)(1) of title 23, United States Code (as in effect on the date before the date of enactment of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users); the highway use tax evasion program; the programs, projects and activities funded by the set aside authorized by section 129 of this Act; the Bureau of Transportation Statistics; and additional obligation limitation provided in this Act for the purpose of section 144(e) of title 23, United States Code;

(2) not distribute an amount from the obligation limitation for Federal-aid highways that is equal to the unobligated balance of amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highways and highway safety programs for previous fiscal years the funds for which are allocated by the Secretary;

(3) determine the ratio that—

(A) the obligation limitation for Federal-aid highways, less the aggregate of amounts not distributed under paragraphs (1) and (2), bears to

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION—
Continued

[(INCLUDING RESCISSIONS)]—Continued

(B) the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction programs (other than sums authorized to be appropriated for provisions of law described in paragraphs (1) through (9) of subsection (b) and sums authorized to be appropriated for section 105 of title 23, United States Code, equal to the amount referred to in subsection (b)(10) for such fiscal year), less the aggregate of the amounts not distributed under paragraphs (1) and (2) of this subsection;

(4)(A) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2), for sections 1301, 1302, and 1934 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users; sections 117 (but individually for each project numbered 1 through 3676 listed in the table contained in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) and 144(g) of title 23, United States Code; and section 14501 of title 40, United States Code, so that the amount of obligation authority available for each of such sections is equal to the amount determined by multiplying the ratio determined under paragraph (3) by the sums authorized to be appropriated for that section for the fiscal year; and

(B) distribute \$2,000,000,000 for section 105 of title 23, United States Code;

(5) distribute the obligation limitation provided for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and amounts distributed under paragraph (4), for each of the programs that are allocated by the Secretary under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users and title 23, United States Code (other than to programs to which paragraphs (1) and (4) apply), by multiplying the ratio determined under paragraph (3) by the amounts authorized to be appropriated for each such program for such fiscal year; and

(6) distribute the obligation limitation provided for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and amounts distributed under paragraphs (4) and (5), for Federal-aid highways and highway safety construction programs (other than the amounts apportioned for the equity bonus program, but only to the extent that the amounts apportioned for the equity bonus program for the fiscal year are greater than \$2,639,000,000, and the Appalachian development highway system program) that are apportioned by the Secretary under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users and title 23, United States Code, in the ratio that—

(A) amounts authorized to be appropriated for such programs that are apportioned to each State for such fiscal year, bear to

(B) the total of the amounts authorized to be appropriated for such programs that are apportioned to all States for such fiscal year.

(b) EXCEPTIONS FROM OBLIGATION LIMITATION.—The obligation limitation for Federal-aid highways shall not apply to obligations: (1) under section 125 of title 23, United States Code; (2) under section 147 of the Surface Transportation Assistance Act of 1978; (3) under section 9 of the Federal-Aid Highway Act of 1981; (4) under subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982; (5) under subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987; (6) under sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991; (7) under section 157 of title 23, United States Code, as in effect on the day before the date of the enactment of the Transportation Equity Act for the 21st Century; (8) under section 105 of title 23, United States Code, as in effect for fiscal years 1998 through 2004, but only in an amount equal to \$639,000,000 for each of those fiscal years; (9) for Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century or subsequent public laws for multiple years or to remain available until used, but only to the extent that the obligation authority has not lapsed or been used; (10) under section 105 of title 23, United States Code, but only in an amount equal to \$639,000,000 for each of fiscal years 2005 through 2008; and (11) under section 1603 of

the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, to the extent that funds obligated in accordance with that section were not subject to a limitation on obligations at the time at which the funds were initially made available for obligation.

(c) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—Notwithstanding subsection (a), the Secretary shall, after August 1 of such fiscal year, revise a distribution of the obligation limitation made available under subsection (a) if the amount distributed cannot be obligated during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under sections 104 and 144 of title 23, United States Code.

(d) APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.—The obligation limitation shall apply to transportation research programs carried out under chapter 5 of title 23, United States Code, and title V (research title) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, except that obligation authority made available for such programs under such limitation shall remain available for a period of 3 fiscal years and shall be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(e) REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.—

(1) IN GENERAL.—Not later than 30 days after the date of the distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds that—

(A) are authorized to be appropriated for such fiscal year for Federal-aid highways programs; and

(B) the Secretary determines will not be allocated to the States, and will not be available for obligation, in such fiscal year due to the imposition of any obligation limitation for such fiscal year.

(2) RATIO.—Funds shall be distributed under paragraph (1) in the same ratio as the distribution of obligation authority under subsection (a)(6).

(3) AVAILABILITY.—Funds distributed under paragraph (1) shall be available for any purposes described in section 133(b) of title 23, United States Code.

(f) SPECIAL LIMITATION CHARACTERISTICS.—Obligation limitation distributed for a fiscal year under subsection (a)(4) for the provision specified in subsection (a)(4) shall—

(1) remain available until used for obligation of funds for that provision; and

(2) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(g) HIGH PRIORITY PROJECT FLEXIBILITY.—

(1) IN GENERAL.—Subject to paragraph (2), obligation authority distributed for such fiscal year under subsection (a)(4) for each project numbered 1 through 3676 listed in the table contained in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users may be obligated for any other project in such section in the same State.

(2) RESTORATION.—Obligation authority used as described in paragraph (1) shall be restored to the original purpose on the date on which obligation authority is distributed under this section for the next fiscal year following obligation under paragraph (1).

(h) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to limit the distribution of obligation authority under subsection (a)(4)(A) for each of the individual projects numbered greater than 3676 listed in the table contained in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users.】

SEC. [121] 120. Notwithstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to 49 U.S.C. 111 may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses: *Provided*, That such funds shall be subject to the obligation limitation for Federal-aid highways and highway safety construction.

【SEC. 122. Of the unobligated balances made available under sections 1103, 1104, 1105, 1106(a), 1106(b), 1107, and 1108 of Public Law 102-240, \$1,292,287.73 are rescinded.】

【SEC. 123. Of the unobligated balances made available under section 1602 of Public Law 105-178, \$5,987,345.70 are rescinded.】

【SEC. 124. Of the unobligated balances made available under section 188(a)(1) of title 23, United States Code, as in effect on the

day before the date of enactment of Public Law 109-59, and under section 608(a)(1) of such title, \$256,806,000 are rescinded.]

[SEC. 125. Of the amounts made available under section 104(a) of title 23, United States Code, \$43,358,601 are rescinded.]

[SEC. 126. Of the unobligated balances of funds made available in fiscal year 2005 and prior fiscal years for the implementation or execution of programs for transportation research, training and education, and technology deployment including intelligent transportation systems, \$239,801,603 are rescinded.]

[SEC. 127. Of the amounts made available for "Highway Related Safety Grants" by section 402 of title 23, United States Code, and administered by the Federal Highway Administration, \$11,314 in unobligated balances are rescinded.]

[SEC. 128. Of the unobligated balances made available under Public Law 101-516, Public Law 102-143, Public Law 103-331, Public Law 106-346, Public Law 107-87, and Public Law 108-7, \$4,753,687.26 are rescinded.]

[SEC. 129. Notwithstanding any other provision of law, the Secretary of Transportation shall set aside from revenue aligned budget authority authorized for fiscal year 2008 under section 110 of title 23, United States Code, such sums as may be necessary for the programs, projects and activities at the level of 98 percent of the corresponding amounts identified under this section in the explanatory statement accompanying this Act: *Provided*, That funds set aside by this section, at the request of a State, shall be transferred by the Secretary to another Federal agency: *Provided further*, That the Federal share payable on account of any program, project, or activity carried out with funds set aside by this section shall be 100 percent: *Provided further*, That the sums set aside by this section shall remain available until expended: *Provided further*, That all funds set aside by this section shall be subject to any limitation on obligations for Federal-aid highways and highway safety construction programs set forth in this Act or any other Act: *Provided further*, That the obligation limitation made available for the programs, projects, and activities for which funds are set aside by this section shall remain available until used and shall be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years: *Provided further*, That amounts authorized for fiscal year 2008 for revenue aligned budget authority under such section in excess of the amount set aside by the first clause of this section are rescinded.]

[SEC. 130. Not less than 15 days prior to waiving, under her statutory authority, any Buy America requirement for Federal-aid highway projects, the Secretary of Transportation shall make an informal public notice and comment opportunity on the intent to issue such waiver and the reasons therefor: *Provided*, That the Secretary shall provide an annual report to the Appropriations Committees of the Congress on any waivers granted under the Buy America requirements.]

[SEC. 131. Notwithstanding any other provision of law, amounts authorized for fiscal year 2008 for programs under sections 1305 and 1502 of Public Law 109-59 and section 503(b) of title 23, United States Code, are rescinded.] (*Department of Transportation Appropriations Act, 2008.*)

Motor Carrier Safety Grants are funded at \$307 million in 2009, of which \$209 million is dedicated to Motor Carrier Safety Assistance Program (MCSAP) State grants. Grants will be used to support State compliance reviews; identify and apprehend traffic violators; conduct roadside inspections; and support safety audits on new entrant carriers. State safety enforcement efforts, at both the southern and northern borders, are funded at a total of \$32 million to ensure that all points of entry into the U.S. are fortified with comprehensive safety measures. In addition, \$25 million is included to improve State commercial driver’s license (CDL) oversight activities to prevent unqualified drivers from being issued CDLs, and \$5 million is provided for the Performance and Registration Information Systems and Management (PRISM) program, which links State motor vehicle registration systems with carrier safety data in order to identify unsafe commercial motor carriers. It also includes \$25 million for Commercial Vehicle Information Systems and Networks Deployment (CVISN) to improve safety and productivity of commercial vehicles and drivers; \$3 million for Safety data improvement program to improve the accuracy, timeliness, and completeness of commercial motor vehicle safety data; and \$8 million to modernize its Commercial Driver’s License Information System (CDLIS).

This account provides the necessary resources to support motor carrier safety program activities and maintain the agency's administrative infrastructure. Funding will support nationwide motor carrier safety and consumer enforcement efforts, including federal safety enforcement activities at the U.S./Mexico border to ensure that Mexican carriers entering

the U.S. are in compliance with Federal Motor Carrier Safety Regulations.

Resources are also provided to fund motor carrier regulatory development and implementation, information management, research and technology, safety education and outreach, and the safety and consumer telephone hotline.

(HIGHWAY TRUST FUND)

For payment of obligations incurred in carrying out chapter 303 of title 49, United States Code, **\$4,000,000**, to be derived from the Highway Trust Fund (other than the Mass Transit Account) and to remain available until expended: *Provided*, That none of the funds in this Act shall be available for the implementation or execution of programs the total obligations for which, in fiscal year **[2008] 2009**, are in excess of **\$4,000,000** for the National Driver Register authorized under such chapter: *Provided further*, That notwithstanding any other provision of law, from such amounts, sufficient

funds shall first be allocated to ensure timely liquidation of obligations for the payment of authorized salaries and administrative expenses for the fiscal year. (Department of Transportation Appropriations Act, 2008.)

Total:			
Budget Authority	233	100	232
Outlays	240	201	215

A total of \$231.5 million (including the National Driver Register program) is proposed for Operations and Research. Of this amount, \$105.5 million is for the Highway Safety Research and Development Program, and \$4.0 million is for the National Driver Register program, both of which are currently authorized under SAFETEA-LU. In addition, \$122.0 million is for the Vehicle Safety Program for which authorization is being requested. The Budget proposes to fund all NHTSA programs from the Highway Trust Fund.

Programs funded under the Operations and Research appropriation are described below.

Safety Performance Standards (Rulemaking) Programs.—Supports the promulgation of Federal motor vehicle safety standards for motor vehicles and safety-related equipment; automotive fuel economy standards required by the Energy Policy and Conservation Act; international harmonization of vehicle standards; and consumer information on motor vehicle safety, including the New Car Assessment Program.

Safety Assurance (Enforcement) Programs.—Provides support to ensure compliance with motor vehicle safety and automotive fuel economy standards, investigate safety-related motor vehicle defects, enforce Federal odometer law, encourage enforcement of State odometer law, and conduct safety recalls when warranted.

Research and Analysis.—Provides motor vehicle safety research and development in support of all NHTSA programs, including the collection and analysis of crash data (also funded under Highway Safety Research) to identify safety problems; develops alternative solutions; and assesses costs, benefits, and effectiveness. Research will continue to concentrate on improving vehicle crash worthiness and crash avoidance, with emphasis on increasing safety belt use, decreasing alcohol involvement in crashes, decreasing the number of rollover crashes, improving vehicle-to-vehicle crash compatibility, and improving data systems.

Highway Safety Research Programs.—Provide research, demonstrations, technical assistance, and national leadership for highway safety programs conducted by State and local governments, the private sector, universities, research units, and various safety associations and organizations. This program emphasizes alcohol and drug countermeasures, vehicle occupant protection, traffic law enforcement, emergency medical and trauma care systems, traffic records and licensing, State and community evaluation, motorcycle riders, pedestrian and bicycle safety, pupil transportation, young and older driver safety programs, and development of improved accident investigation procedures.

National Driver Register.—Provides funding to implement and operate the Problem Driver Pointer System (PDPS) to help identify drivers who have been suspended for or convicted of serious traffic offenses, such as driving under the influence of alcohol or other drugs.

SAFETEA-LU updated the following programs:

Section 402.—SAFETEA-LU reauthorized and amended the State and Community Highway Safety formula grant program to support State highway safety programs, designed to reduce traffic crashes and resulting deaths, injuries,

and property damage. A State may use these grant funds only for highway safety purposes; at least 40 percent of these funds are to be expended by political subdivisions of the State.

Section 405.—SAFETEA-LU reauthorized and amended Section 405(a) of Chapter 4 of Title 23 to encourage States to adopt and implement effective programs to reduce deaths and injuries from riding unrestrained or improperly restrained in motor vehicles. A State may use these grant funds only to implement and enforce occupant protection programs.

Section 406.—SAFETEA-LU established a new program of incentive grants to encourage the enactment and enforcement of laws requiring the use of safety belts in passenger motor vehicles. A State may use these grant funds for any safety purpose under Title 23 or for any project that corrects or improves a hazardous roadway location or feature or proactively addresses highway safety problems. However, at least \$1 million of amounts received by States must be obligated for behavioral highway safety activities.

Section 408.—SAFETEA-LU established a new program of incentive grants to encourage States to adopt and implement effective programs to improve the timeliness, accuracy, completeness, uniformity, integration, and accessibility of State data that is needed to identify priorities for national, State, and local highway and traffic safety programs; to evaluate the effectiveness of efforts to make such improvements; to link these State data systems, including traffic records, with other data systems within the State; and to improve the compatibility of the State data system with national data systems and data systems of other States to enhance the ability to observe and analyze national trends in crash occurrences, rates, outcomes, and circumstances. A State may use these grant funds only to implement such data improvement programs.

Section 410.—SAFETEA-LU reauthorized and amended the alcohol-impaired driving countermeasures incentive grant program to encourage States to adopt and implement effective programs to reduce traffic safety problems resulting from individuals driving while under the influence of alcohol. A state may use these grant funds to implement the impaired driving activities described in the Programmatic Criteria, including but not limited to costs for high visibility enforcement; the costs of training and equipment for law enforcement; the costs of advertising and educational campaigns that publicize checkpoints, increase law enforcement efforts and target impaired drivers under 34 years of age; the costs of a State impaired operator information system, and the costs of vehicle or license plate impoundment. In addition, the Secretary is directed to make a separate grant under the section to high fatality rate States.

Child Safety and Child Booster Seat Safety Incentive Grants.—Section 2011 of SAFETEA-LU established a new incentive grant program to make grants available to States that are enforcing a law requiring any child riding in a passenger vehicle who is too large to be secured in a child safety seat to be secured in a child restraint that meets the requirements prescribed under section 3 of Anton’s Law (49 U.S.C. 30127 note; 116 Stat. 2772). These grant funds may be used only for child safety seat and child restraint programs, including programs for purchasing and distributing child safety seats and child restraints to low-income families.

Motorcyclist Safety.—Section 2010 of SAFETEA-LU established a new program of incentive grants to encourage States to adopt and implement effective programs to reduce the number of single and multi-vehicle crashes involving motorcyclists. A State may use these grants funds only for motorcyclist safety training and motorcyclist awareness

HIGHWAY TRAFFIC SAFETY GRANTS—Continued
(HIGHWAY TRUST FUND)—Continued

programs, including improvements to training curricula, delivery of training, recruitment or retention of motorcyclist safety instructors, and public awareness and outreach programs.

High Visibility Enforcement.—Section 2009 of SAFETEA-LU established a new program to administer at least two high-visibility traffic safety law enforcement campaigns each year to achieve one or both of the following objectives: (1) reduce alcohol-impaired or drug-impaired operation of motor vehicles; and/or (2) increase the use of safety belts by occupants of motor vehicles. These funds may be used to establish and administer the high visibility traffic safety law enforcement campaigns, to pay for the development, production, and use of broadcast and print media advertising in carrying out these campaigns, and by the Secretary to conduct an annual evaluation of the effectiveness of these campaigns. Consideration is to be given to advertising directed at non-English speaking populations, including those who listen, read or watch non-traditional media.

Grant Administrative Expenses.—Section 2001(a)(11) of SAFETEA-LU provides funding for salaries and operating expenses related carrying out Chapter 4 of Title 23, United States Code, as well as supporting the National Occupant Protection User Survey (NOPUS) and Highway Safety Research programs.

The Safety and Operations account funds the following activities:

Salaries and expenses.—Provides support for Federal Railroad Administration (FRA) rail safety activities and all other administrative and operating activities related to FRA staff and programs.

Contract support.—Provides support for policy-oriented economic, industry, and systems analysis.

Alaska Railroad Liabilities.—Provides reimbursement to the Department of Labor for compensation payments to former Federal employees of the Alaska Railroad who were on the rolls during the period of Federal ownership and support for clean-up activities at hazardous waste sites located at properties once owned by the FRA. The 2009 request is for workers' compensation.

The Railroad Research and Development Program provides science and technology support for FRA's rail safety rule-making and enforcement efforts. It also stimulates techno-

RAILROAD RESEARCH AND DEVELOPMENT—Continued

logical advances in conventional and high speed railroads. The program focuses on the following areas of research:

Railroad system issues.—Provides for research in railroad system safety, performance-based regulations, railroad systems and infrastructure security, railroad environmental issues, and locomotive R&D.

Human factors.—Provides for research in train operations, and yard and terminal accidents and incidents.

Rolling stock and components.—Provides for research in on-board monitoring systems, wayside monitoring systems, and material and design improvements.

Track and structures.—Provides for research in inspection techniques, material and component reliability, track and structure design and performance, and track stability data processing and feedback.

Track and train interaction.—Provides for research in derailment mechanisms, and vehicle-track performance.

Train control.—Provides for research in train control test and evaluation.

Grade crossings.—Provides for research in grade crossing human factors and infrastructure.

Hazardous materials transportation.—Provides for research in hazmat transportation safety, damage assessment and inspection, and tank car safety.

Train occupant protection.—Provides for research in locomotive safety, and passenger car safety and performance.

R&D facilities and test equipment.—Provides support to the Transportation Technology Center (TTC) and the track research instrumentation platform. The TTC is a Government-owned facility near Pueblo, Colorado, operated by the Association of American Railroads under a contract for care, custody and control.

Funds are used to redevelop the Pennsylvania Station in New York City, which involves also renovating the James A. Farley Post Office building. Funding for this project was included in the Grants to the National Railroad Passenger Corporation appropriation in 1995 through 1997, and the Northeast Corridor Improvement Program in 1998. In 2000, an advance appropriation of \$20 million was provided for 2001, 2002, and 2003. In 2001, Congress specified that the \$20 million advance appropriation provided in 2000 for the Farley Building, was to be used exclusively for fire and life safety initiatives. No funds are requested in 2009.

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a for profit corporation with all Board members appointed by the Executive Branch of the Federal Government, with the advice and consent of the Senate. Amtrak is not an agency or instrument of the U.S. Government. Since 2006, funds for Amtrak have been

provided through separate appropriation accounts for capital, operating, and efficiency incentive grants.

Resources in this account are provided to the Secretary of Transportation to make grants to the National Passenger Railroad Corporation for capital requirements.

EFFICIENCY INCENTIVE GRANTS

For an additional amount to be made available to the Secretary for efficiency incentive grants to the National Railroad Passenger Corporation, \$275,000,000, to remain available until expended: Provided, That if the Secretary deems it in the best interests of the transportation system, the Secretary has sole discretion to make grants from these funds to the Corporation at such times and in such amounts for intercity passenger rail, including coverage of operating losses of the Corporation: Provided further, That the Secretary may approve funding to cover operating losses of the Corporation only after receiving and reviewing a grant request for each specific train route, accompanied by a detailed financial analysis, revenue projection, and capital expenditure projection justifying the Federal support to the Secretary's satisfaction: Provided further, That the Corporation is directed to achieve savings through operating efficiencies: Provided further, That within 30 days after enactment of this Act, the Corporation shall develop a comprehensive business plan, approved by the Board of Directors, for approval by the Secretary, that outlines how the Corporation will operate with a \$275,000,000 non-capital Federal subsidy in 2009: Provided further, That the business plan shall provide detailed steps for reducing losses on long distance trains and describe how the Corporation could reduce Federal subsidies for long distance trains: Provided further, That the Corporation shall implement the plan beginning in 2009, pending approval by the Secretary: Provided

further, That the business plan shall include, as applicable, targets for ridership, revenues, and capital and operating expenses, with a separate accounting of targets for the Northeast Corridor; commuter service; long distance Amtrak service; State-supported service; each intercity train route, including Autotrain; and commercial activities including contract operations: Provided further, That the business plan shall include a description of the work to be funded, along with cost estimates and an estimated timetable for completion of the projects covered by the business plan: Provided further, That the Corporation shall continue to provide monthly reports in electronic format regarding the current business plan, which shall describe the work completed to date, any changes to the business plan and the reasons for such changes, and shall identify all sole source contract awards accompanied by a justification as to why said contract was awarded on a sole source basis: Provided further, That no federal subsidies shall be spent on food and beverage services in 2009 and beyond: Provided further, That as a condition for providing service requested by a State, the Corporation must collect an equitable contribution from that State reflecting the costs associated with that service: Provided further, That within 30 days of enactment of this Act, the Corporation shall produce a comprehensive corporate-wide competition plan that will identify multiple opportunities for public and private entities to perform core Corporation business functions, including the operation of trains: Provided further, That the Corporation shall implement the competition plan beginning in 2009, upon its approval by the Secretary: Provided further, That no later than 30 days after the date of enactment of this Act, the Secretary shall, in consultation with the States that presently provide financial assistance for intercity passenger rail service; initiate a pilot program under which the Secretary shall competitively select an operator of a State-supported intercity passenger rail service presently operated by the Corporation: Provided further, That the selection of such an operator shall be made in accordance with such terms and conditions as the Secretary, in the Secretary's sole discretion, deems appropriate: Provided further, That the Corporation shall make available to such operator, on terms and conditions to be established by the Secretary, such equipment and access to such facilities and services as the Secretary deems necessary for the selected operator to effectively provide the subject service: Provided further, That the Secretary may, from the funds appropriated in this account, make a grant to a State or States that provide support for the subject service an amount not greater than 75 percent of the Corporation's avoidable loss on the subject service during Fiscal Year 2007 for the purpose of offsetting net operating losses of such service: Provided further, That none of the funds in this Act may be used for operating expenses, including advance purchase orders, not approved by the Secretary and in the Corporation's fiscal year 2009 business plan: Provided further, That the Corporation shall display the business plan and all subsequent supplemental plans on the Corporation's website within a reasonable timeframe following the submission to the appropriate entities: Provided further, That none of the funds under this heading may be obligated or expended until the Corporation agrees to continue to abide by the provisions of paragraphs 1, 2, 3, 5, and 11 of the summary of conditions for the direct loan agreement of June 22, 2002, in the same manner as in effect on the date of enactment of this Act: Provided further, That the Secretary may, at the Secretary's discretion, condition the award of efficiency incentive grant funds on reform requirements for the Corporation and the Secretary's assessment of progress towards such reform requirements.

[CAPITAL ASSISTANCE TO STATES—INTERCITY] INTERCITY PASSENGER RAIL GRANT PROGRAM

[PASSENGER RAIL SERVICE]

To enable the [Federal Railroad Administrator] Secretary to make grants to States [for the capital costs of improving existing] in support of intercity passenger rail [service and providing new intercity passenger rail service, \$30,000,000], \$100,000,000, to remain available until expended: [Provided, That grants shall be provided to a State only on a reimbursable basis: Provided further, That grants cover no more than 50 percent of the total capital cost of a project selected for funding: Provided further, That no more than 10 percent of funds made available under this program may be used for planning activities that lead directly to the development of a passenger rail corridor investment plan consistent with the requirements established by the Administrator: Provided further, That no later than eight months following enactment of this Act, the Secretary shall establish and publish criteria for project selection, set a deadline for grant applications, and provide a schedule for project selection: Provided further, That to be eligible for this assistance, States must include intercity passenger rail service as an integral part of statewide transportation planning as required under section 135 of title 23, United States Code: Provided further, That to be eligible for capital assistance the specific project must be on the Statewide Transportation Improvement Plan at the time of the application to qualify: Provided further, That the Secretary give priority to capital and planning applications for projects that improve the safety and reliability of intercity passenger trains, involve a commitment by freight railroads to an enforceable on-time performance of passenger trains of 80 percent or greater, involve a commitment by freight railroads of financial resources commensurate with the benefit expected to their operations, improve or extend service on a route that requires little or no Federal assistance for its operations, and involve a commitment by States or railroads of financial resources to improve the safety of highway/rail grade crossings over which the passenger service operates.] Provided, That States may apply to the Federal Railroad Administration for grants up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy: Provided further, That priority shall be given to infrastructure improvement projects that improve the safety, reliability and schedule of intercity passenger trains, reduce congestion on the host freight railroads, involve a commitment by freight railroads to an enforceable on-time performance of passenger trains of 80 percent or greater, involve a commitment by States of financial resources to improve the safety of highway/rail grade crossings over which the passenger service operates, and that protect and enhance the environment, promote energy conservation, and improve quality of life: Provided further, That to be eligible for this assistance, States must include intercity passenger rail service as an integral part of Statewide transportation planning as required under 23 U.S.C. 135: Provided further, That the specific project must be on the Statewide Transportation Improvement Plan at the time of application to qualify. (Department of Transportation Appropriations Act, 2008.)

90.00	Outlays	2	10

For 2009, the Administration proposes a Capital Grant Program to encourage state participation in its passenger rail service. Under this program, a State or States may apply for grants for up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy. To qualify for funding, States would have to include intercity passenger rail service as an integral part of Statewide transportation planning as required under 23 U.S.C. 135. Additionally, the specific project would have to be on the Statewide Transportation Improvement Plan at the time of application.

NEXT GENERATION HIGH-SPEED RAIL

This account shows credit activity that occurred prior to the passage of the Federal Credit Reform Act, including:

Section 505—Redeemable preference shares—Authority for the section 505 redeemable preference shares program expired on September 30, 1988. The account reflects actual and projected outlays resulting from payments of principal and interest as well as repurchases of redeemable preference shares and the sale of redeemable preference shares to the private sector.

Section 511—Loan repayments—This program reflects repayments of principal and interest on outstanding borrowings by the railroads to the Federal Financing Bank under the section 511 loan guarantee program.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, all cash flows to and from the Government resulting from direct loans obligated and loan guarantees committed prior to 1992. All new activity in this program (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program accounts and financing accounts.

ADMINISTRATIVE PROVISIONS—FEDERAL RAILROAD ADMINISTRATION

[SEC. 150. Notwithstanding any other provision of this Act, funds provided in this Act for the National Railroad Passenger Corporation shall immediately cease to be available to said Corporation in the event that the Corporation contracts to have services provided at or from any location outside the United States. For purposes of this section, the word “services” shall mean any service that was, as of July 1, 2006, performed by a full-time or part-time Amtrak employee whose base of employment is located within the United States.]

[SEC. 151. Not later than January 1, 2008, the Federal Railroad Administrator shall submit a report, and quarterly reports thereafter, to the House and Senate Committees on Appropriations detailing the Administrator’s efforts at improving the on-time performance of Amtrak intercity rail service operating on non-Amtrak owned property. Such reports shall compare the most recent actual on-time performance data to pre-established on-time performance goals that the Administrator shall set for each rail service, identified by route. Such reports shall also include whatever other information and data regarding the on-time performance of Amtrak trains the Administrator deems to be appropriate.]

SEC. [152] 150. The Secretary may purchase promotional items of nominal value for use in public outreach activities to accomplish the purposes of 49 U.S.C. 20134: *Provided*, That the Secretary shall prescribe guidelines for the administration of such purchases and use.

SEC. [153] 151. The Secretary of Transportation may receive and expend cash, or receive and utilize spare parts and similar items, from non-United States Government sources to repair damages to or replace United States Government owned automated track inspection cars and equipment as a result of third party liability for such damages, and any amounts collected under this subsection shall be credited directly to the Safety and Operations account of the Federal Railroad Administration, and shall remain available until expended for the repair, operation and maintenance of automated track inspection cars and equipment in connection with the automated track inspection program. (*Department of Transportation Appropriations Act, 2008.*)

FEDERAL TRANSIT ADMINISTRATION

The Federal Transit Administration (FTA) provides grant funding to State and local governments, public and private transit operators, and other recipients to subsidize public transit operations; construct new public transit systems; purchase and maintain transit vehicles and equipment; support regional transportation planning efforts; and improve the technology and service methods used in the delivery of public transportation services. FTA programs also provide financial assistance to help implement national policy goals relating to mobility for the elderly, for individuals with disabilities, and for those who are economically disadvantaged. In 2009, FTA will again increase public transportation funding predictability and transparency by distributing more funds by formula, including the rural (non-urbanized area) program funds to address unmet public transportation needs in underserved rural communities.

This table below presents the total funding for all Federal Transit Administration programs with additional detail provided in the budget schedules that follow.

[In millions of dollars]

	2007 actual	2008 actual	2009 est.
Budget Authority:			
Administrative expenses (GF)	85	89	94
Research and university research centers (GF)	61	65	60
Formula grants (GF) ¹	35	0	0
Capital investment grants (GF)	1,566	1,569	1,621

For 2009, \$94 million is requested to fund the personnel and support costs associated with the management and direction of FTA programs. FTA remains committed to implementing the President's Management Agenda, to increasing efficiency and productivity within current staffing levels, and to improving the services offered to its customers. FTA has been a leader in the Department in implementing internet access for grantees to the Transportation Electronic Award and Management system. This on-line resource provides information on grant awards and disbursements and allows users to monitor project budgets and milestones, make budget and scope revisions, and other project management activities.

In 2009, the National Research and Technology Program, Transit Cooperative Research Program, University Centers Program, and the National Transit Institute are funded in the Research and University Research Centers account.

National Research and Technology Program funding will be used for FTA's safety and mobility activities. Under the national component of the program, FTA advances the research, development, and deployment of transportation methods and technologies that address issues such as accessibility for elderly, low income, and disabled individuals; air quality; traffic congestion; and transit capacity and operational improvements.

The Transit Cooperative Research Program funds research projects that are significant to the transit industry. Grant awards support priority projects in areas of safety, security, equipment and system design, system operations, and the economic development impact of transit investment in transportation corridors.

Funding for the University Centers Program will provide continued support for research, education, and technology transfer activities aimed at addressing regional and national transportation problems.

The National Transit Institute exists to develop and provide transit industry employee education programs to improve transit workforce performance, enhance security incident response capability, and to implement strategies that increase ridership.

In 2009, funding for the New Starts program, including Small Starts grants, is included in the Capital Investment Grants account. FTA's New Starts program is the Federal government's primary source for capital investment in transit infrastructure that is planned, constructed and operated by State and local government entities. These projects include heavy rail, light rail, commuter rail and bus rapid transit systems that are implemented in communities across the country to provide an alternative to automobile travel, to improve mobility, and to address congestion and air quality concerns in the areas they serve.

The National Capital Transportation Amendments of 1979 (Stark-Harris) authorized \$1.7 billion in Federal funds to support the construction of the Washington, D.C. Metrorail transit system. The National Capital Transportation Amendments of 1990 authorized an additional \$1.3 billion in Federal funds to complete construction of the planned 103-mile system. The Federal commitment to complete the 103-mile system was fully funded in 1999. No new budget authority is proposed for the Washington, D.C. Metrorail transit system in this account for 2009.

For 2009, all programs within the Formula and Bus Grant account are funded from the Mass Transit Account of the Highway Trust Fund.

Formula and Bus Grants are funded by contract authority provided in SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) P.L. 109–59. Formula Grant funds can be used for all transit purposes including planning, bus and railcar purchases, facility repair and construction, maintenance and, where eligible, operating expenses. These funds help existing transit systems alleviate congestion, ensure basic mobility, promote economically vibrant communities and meet the requirements of the Americans with Disabilities Act (ADA) and the Clean Air Act (CAA).

Urbanized Area Formula.—\$4,552.3 million in funds will be apportioned to areas with populations of 50,000 or more. Funds may be used for any transit capital purpose, including preventive maintenance for capital assets in urban areas over 200,000 in population. In urban areas under 200,000, both capital and operating costs are eligible expenditures. Urbanized Area Formula includes funding for the Growing States and High Density States Formula Programs which are distributed to the Urbanized and Nonurbanized Area Formula programs using separate factors.

Fixed Guideway Modernization.—\$1,666.5 million for the acquisition, reconstruction and improvement of facilities and equipment for use on fixed guideways, including heavy rail, light rail, commuter rail, and ferryboat operations. Funding for this program will help ensure that the Nation’s older fixed guideway systems continue to meet the transportation needs of the communities they serve.

Bus and Bus Facility Grants.—\$984 million to provide investments in bus and bus-related capital projects that enhance the efficiency and safety of the nation’s bus systems.

State Administered Programs.—\$928.6 million. Nonurbanized Area Formula—\$538.1 million will be apportioned by legislative formula based on each State’s nonurban areas with populations of less than 50,000. Available funding may be used to support intercity bus service as well as to help meet rural and small urban areas’ transit needs, including \$9.3 million for the Rural Transportation Assistance Program. Nonurbanized Area Formula includes funding for the Growing States Program. Formula Grants for Elderly and Individuals with Disabilities—\$133.5 million will be apportioned to each State according to a legislatively required formula for the purchase of vehicles and equipment and for transportation services under a contract, lease or similar arrangement. Job Access and Reverse Commute—\$164.5 million, to be appor-

tioned to the States by formula to provide grants to non-profit organizations and local transit agencies to fund transportation services in urban, suburban and rural areas to assist welfare recipients and low-income individuals to access employment opportunities. New Freedom Program—\$92.5 million, to be apportioned by formula to provide additional tools to overcome significant barriers facing Americans with disabilities seeking access to jobs and integration into the workforce.

Planning.—\$113.5 million to fund metropolitan and state-wide planning activities.

Over-the-Road Bus Accessibility Program.—\$8.8 million for the Rural Transportation Accessibility Incentive Program. Funding will assist operators of over-the-road buses in financing the incremental capital and training costs of complying with the Department of Transportation’s final rule regarding disabled accessibility of over-the-road buses required by the Americans with Disabilities Act.

Clean Fuels Grant Program.—\$51.5 million to provide financing for the purchase or lease of clean fuel buses and bus facilities and the improvement of existing facilities to accommodate these buses. This includes buses powered by compressed natural gas, biodiesel fuels, batteries, alcohol-based fuels, hybrid electric, fuel cell and certain clean diesel (up to 25 percent of grants annually), and other low or zero emissions technology.

Alternatives Analysis Program.—\$25 million provided for transit projects in the early stage of development and to investigate transit alternatives to solving local transportation problems.

Alternative Transportation in Parks and Public Lands.—\$26.9 million to enhance the protection of America’s national parks and increase the enjoyment of those visiting the parks. The goals of the Alternative Transportation in Parks program include ensuring access for all, including individuals with disabilities; improving conservation and park and public land opportunities in urban areas through partnering with State and local governments; and improving park and public land transportation.

National Transit Database (NTD).—\$3.5 million for operation and maintenance of the NTD system, a database of statistics on the transit industry, which is Congressionally mandated under 49 U.S.C. 5335(a)(1)(2). The NTD provides for the national collection and dissemination of a uniform system of transit system financial accounts and operating data. As set forth in legislative formulas, these data are used in the national allocation of FTA formula funding.

This account was renamed in 2006 from Trust Fund Share of Expenses consistent with the account restructuring in SAFETEA-LU.

ADMINISTRATIVE PROVISIONS—FEDERAL TRANSIT ADMINISTRATION

SEC. 160. The limitations on obligations for the programs of the Federal Transit Administration shall not apply to any authority under 49 U.S.C. 5338, previously made available for obligation, or to any other authority previously made available for obligation.

SEC. 161. Notwithstanding any other provision of law, funds made available by this Act under “Federal Transit Administration, Capital investment grants” and bus and bus facilities under “Federal Transit Administration, Formula and bus grants” for projects specified in this Act or identified in reports accompanying this Act not obligated by September 30, [2010] 2011, and other recoveries, shall be made available for other projects under 49 U.S.C. 5309.

SEC. 162. Notwithstanding any other provision of law, any funds appropriated before October 1, [2007] 2008, under any section of chapter 53 of title 49, United States Code, that remain available for expenditure, may be transferred to and administered under the most recent appropriation heading for any such section.

SEC. 163. Notwithstanding any other provision of law, unobligated funds made available for a new fixed guideway systems projects under the heading “Federal Transit Administration, Capital Investment Grants” in any appropriations Act prior to this Act may be used during this fiscal year to satisfy expenses incurred for such projects.

SEC. 164. During fiscal year [2008] 2009, each Federal Transit Administration grant for a project that involves the acquisition or rehabilitation of a bus to be used in public transportation shall be funded for [90] 100 percent of the net capital costs of a biodiesel bus or a factory-installed or retrofitted hybrid electric propulsion system and any equipment related to such a system: *Provided*, That the Secretary shall have the discretion to determine, through practicable administrative procedures, the costs attributable to the system and related equipment.

[SEC. 165. Notwithstanding any other provision of law, in regard to the Central Link Initial Segment Project, to the extent that Federal funds remain available within the current budget for the project, the Secretary shall, immediately upon the date of enactment of this Act, amend the Full Funding Grant Agreement for said project to allow remaining Federal funds to be used to support completion of the Airport Link extension of said project.]

[SEC. 166. Amounts provided for a high capacity fixed guideway light rail and mass transit project for the City of Albuquerque, New Mexico, in Public Laws 106-69, 106-346 and 107-87 shall be available for bus and bus facilities.]

[SEC. 167. Any unobligated amounts made available for the Commuter Rail, Albuquerque to Santa Fe, New Mexico under the heading “Capital Investment Grants” under the heading “Federal Transit Administration” in title I of division A of the Transportation, Treasury, Housing and Urban Development, the Judiciary, the District of Columbia, and Independent Agencies Appropriations Act, 2006 (Public Law 109-115; 119 Stat. 2418) shall be made available for public transportation buses, equipment and facilities related to such buses, and intermodal terminal in Albuquerque and Santa Fe, New Mexico, subject to the requirements under section 5309 of title 49, United States Code.]

[SEC. 168. Notwithstanding any other provision of law, funds made available for the Las Vegas Resort Corridor Fixed Guideway Project under the Federal Transit Administration Capital Investment Grants Account in any previous Appropriations Act, including Public Laws 108-7, 108-199, 108-447, and any unexpended funds in Federal Transit Administration grant number NV-03-0019 may hereafter be made available until expended to the Regional Transportation Commission of Southern Nevada for bus rapid transit projects and bus and bus-related projects: *Provided*, That funds made available for a project in accordance with this section shall be administered under the terms and conditions set forth in 49 U.S.C. 5307, to the extent applicable.]

ADMINISTRATIVE PROVISIONS—FEDERAL TRANSIT ADMINISTRATION—
Continued

[SEC. 169. The second sentence of section 321 of the Department of Transportation and Related Agencies Appropriations Act, 1986 (99 Stat. 1287) is repealed.]

[SEC. 170. None of the funds provided or limited under this Act may be used to issue a final regulation under section 5309 of title 49, United States Code, except that the Federal Transit Administration may continue to review comments received on the proposed rule (Docket No. FTA-2006-25737).]

[SEC. 171. Funds made available to the Putnam County, Florida, for Ride Solutions buses and bus facilities in Public Laws 108-199, 108-447 and 109-115 that remain unobligated may be available to Putnam County under the conditions of 49 U.S.C. 5312 to research, develop, fabricate, test, demonstrate, deploy and evaluate a low floor bus to meet the needs of Ride Solution in particular, and small urban and rural operators in general.]

[SEC. 172. Of the balances available for this fiscal year to carry out 49 U.S.C. 5309(b) left to the discretion of the Secretary of Transportation, \$104,697,038 are rescinded.]

[SEC. 173. Of the balances available for this fiscal year to carry out 49 U.S.C. 5339 left to the discretion of the Secretary of Transportation, \$308,900 are rescinded.]

SEC. 165. *Project Management Oversight Limitations. Section 5327(c) of title 49, United States Code, is amended—(1) by adding at the end of paragraph (1) the following: “(G) 1 percent of the amounts to carry out section 5314. (H) 1 percent of the amounts to carry out section 5316. (I) 1 percent of the amounts to carry out section 5317.”; (2) in paragraph (2)(B) by striking “sections 5305, 5307, 5309, 5310, 5311, and 5320” and inserting “this chapter”; and (3) in paragraph (2)(C) by inserting “and enforcement necessary” after “assistance”. (Department of Transportation Appropriations Act, 2008.)*

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

Federal Funds

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

The Saint Lawrence Seaway Development Corporation is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to the Corporation, and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the programs set forth in the Corporation's budget for the current fiscal year. (Department of Transportation Appropriations Act, 2008.)

The Saint Lawrence Seaway Development Corporation (SLSDC) is a wholly owned government corporation responsible for the operation, maintenance, and development of that part of the St. Lawrence Seaway between the Port of Montreal and Lake Erie that is within the territorial limits of the United States. The St. Lawrence Seaway provides an efficient and economic waterway and lock transportation system for the movement of commercial goods to and from the Great Lakes Region of North America. SLSDC works with its Canadian counterpart agency to ensure the reliability, safety and security of the locks and waterway and the uninterrupted flow of maritime commerce through the system. Appropriations from the Harbor Maintenance Trust Fund, and revenues from other non-Federal sources, are used to finance SLSDC operational, maintenance, and capital asset renewal needs for the U.S. portion of the St. Lawrence Seaway.

The Pipeline and Hazardous Materials Safety Administration (PHMSA) provides services to advance safety and security in hazardous materials transportation. PHMSA's program is focused on five principal areas. First, PHMSA provides comprehensive regulations for the safe and secure transportation of hazardous materials. Second, through training, guidance and outreach materials, PHMSA helps shippers and carriers understand the regulations and how to comply with them. Third, PHMSA enforces the regulations on those persons who refuse or neglect to comply with safety and security requirements. Fourth, PHMSA assists the Nation's response community to plan for and respond to hazardous materials transportation emergencies. Finally, PHMSA builds each of these operational responsibilities on a comprehensive technical and analytical foundation.

The Oil Pollution Act of 1990 requires the preparation of oil spill response plans by pipeline operators to minimize the environmental impact of oil spills and to improve public and private sector response capabilities. The Pipeline and Hazardous Materials Safety Administration (PHMSA) is responsible for the review, approval and testing of these plans, and for ensuring that the public and the environment are provided with an adequate level of protection from such spills. PHMSA does this through data analysis, spill monitoring, pipeline mapping, environmental indexing, and advanced technologies to detect and prevent leaks.

RESEARCH AND INNOVATIVE TECHNOLOGY
ADMINISTRATION

Federal Funds

RESEARCH AND DEVELOPMENT

For necessary expenses of the Research and Innovative Technology Administration, \$12,000,000, of which \$6,036,000 shall remain avail-

able until September 30, [2010] 2011: *Provided*, That there may be credited to this appropriation, to be available until expended, funds received from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training. The Research and Innovative Technology Administration (RITA) works to provide strategic clarity to DOT's multi-modal and intermodal research efforts and coordinates DOT's research agenda. Coordination and advancement of research and development activities is led by the RITA Office of Re-

search, Development and Technology and is funded through the General Fund. RITA also manages the Department's work in Position, Navigation and Timing and the Nationwide Differential Global Positioning System.

RITA also coordinates and reviews the following programs and activities: 1) the Volpe Center—that services many of the research, development, and technology needs of the Department's operating administrations on a fee-for-service basis; 2) the Intelligent Transportation Systems—that facilitates deployment of technology to enhance the safety, efficiency and convenience of surface transportation; and 3) the Transportation Safety Institute—that develops and conducts worldwide safety, security, and environmental training, products, and services for both the public and private sector on a fee-for-service basis.

The Bureau of Transportation Statistics (BTS) is funded by an allocation from the Federal Highway Administration's Federal-Aid Highways account. BTS compiles, analyzes, and makes accessible information on the Nation's transportation systems, including statistics on freight movement, geospatial transportation information and transportation economics.

The Working Capital Fund finances multidisciplinary research, evaluation, analytical and related activities undertaken at the Volpe Center in Cambridge, MA. The fund is financed through negotiated agreements with the Office of the Secretary, Departmental operating administrations, and other governmental elements requiring the Center's capabilities. These agreements also define the activities undertaken at the Volpe Center.

This appropriation finances the cost of conducting and supervising audits and investigations relating to the programs and operations of the Department to promote economy, efficiency and effectiveness, and to prevent and detect fraud, waste, and abuse in such programs and operations. In addition, reimbursable funding will be received from the Federal Highway Administration, the Federal Transit Administration,

the Office of the Secretary of Transportation, and the National Transportation Safety Board.

The Surface Transportation Board was created on January 1, 1996, by P.L. 104-88, the ICC Termination Act of 1995 (ICCTA). The Board is specifically responsible for the regulation of the rail and pipeline industries and certain non-licensing regulation of motor carriers and water carriers.

Rail Carriers.—This regulatory oversight encompasses the regulation of rates, mergers and acquisitions, construction, and abandonment of railroad lines, as well as the planning, analysis and policy development associated with these activities.

Other Surface Transportation Carriers.—This regulatory oversight includes certain regulation of the intercity bus industry and surface pipeline carriers as well as the rate regulation of water transportation in the non-contiguous domestic trade, household-good carriers, and collectively determined motor rates.

2009 Program Request.—\$23.085 million is requested to implement rulemakings and adjudicate the ongoing caseload within the directives and deadlines set forth by the ICCTA.

The following paragraph is presented in compliance with Section 703 of the ICCTA. It is presented without change or correction.

The Board's Request to OMB.—The Board had submitted to the Secretary of Transportation and the Office of Management and Budget a 2009 appropriation request of \$26.847 million and a request for \$1.250 million from reimbursements from the offsetting collection of user fees to operate at 150 FTEs. The offsetting collection of user fees is based on the costs incurred by the Board for fee-related activities and is commensurate with the costs of processing parties' submissions. In past fiscal years, the Board received both an appropriation and authorization for offsetting collections to be made available to the appropriation for the Board's expenses. The 2009 Budget request reflects offsetting collections as a credit to the appropriation received, to the extent that they are collected.

This level of funding is necessary to implement rulemakings and adjudicate the ongoing caseload within the deadlines imposed by ICCTA. The Board requires adequate resources to perform key functions under the ICCTA, including rail rate reasonableness oversight; the processing of rail consolidations, abandonments, and other restructuring proposals; and the resolution of non-rail matters.

The appropriation for Operations and Training provides funding for staff at headquarters and gateway offices to administer and direct Federal maritime programs, for the operation of the U.S. Merchant Marine Academy, and for financial assistance to the six State maritime schools.

Maritime Administration programs also include planning for coordination of U.S. maritime industry activities under emergency conditions; technology assessments calculated to achieve advancements in ship design, construction and operation; and port and intermodal development to increase capacity and mitigate congestion in freight movements.

The total Operations and Training budget request of \$117.8 million, is distributed as follows: United States Merchant Marine Academy (USMMA) \$61.3 million, State Marine Schools (SMS) \$11.0 million and MARAD Operations \$45.5 million.

The Ship Disposal program provides resources to properly dispose of obsolete government-owned merchant-type vessels maintained by MARAD in the National Defense Reserve Fleet. These vessels pose a significant environmental threat due to the presence of unexpended fuel and oil and other hazardous substances such as asbestos and solid and liquid polychlorinated biphenyls (PCBs). MARAD contracts with domestic shipbreaking firms to dismantle and recycle these vessels in accordance with guidelines set forth by the U.S. Environmental Protection Agency.

The Maritime Security Program provides resources to maintain a U.S.-flag merchant fleet crewed by U.S. citizens to serve both the commercial and national security needs of the United States. The program provides direct payments to U.S.-flag ship operators engaged in U.S.-foreign trade. Participating operators are required to keep the vessels in active commercial service and are required to provide intermodal sealift support to the Department of Defense in times of war or national emergency.

The Operating-Differential Subsidies (ODS) program provided resources to maintain a U.S.-flag merchant fleet to serve both the commercial and national security needs of the United States through operating subsidies to participating U.S.-flag ship operators to offset certain cost differences between U.S.-flag and foreign-flag vessel operations. This program has been replaced by the Maritime Security Program. The ODS account is inactive except for final settlement of open contracts and closing of financial accounts.

90.00 Outlays	198	145	175

Ocean freight differential is the difference in cost incurred in the movement of ocean cargoes. In general, when applied to cargo preference policy implementation, it is the cost difference between using U.S.-flag carriers and foreign-flag carriers. Cargo preference provides a revenue source to help sustain a privately-owned U.S.-flag merchant marine by requiring shippers of certain U.S. government-sponsored cargoes to use U.S.-flag vessels. Public Law 99-108 amended the cargo preference requirement in Section 901 of the Merchant Marine Act by increasing the minimum required tonnage of certain government-sponsored food-aid shipments that must be shipped on U.S.-flag vessels from 50 to 75 percent. The Maritime Administration is required to reimburse the U.S. government agencies that sponsor these food-aid shipments for the increase in ocean freight differential associated with compliance with this expanded U.S.-flag shipping requirement.

READY RESERVE FORCE

Program and Financing (in millions of dollars)

Identification code 69-1710-0-1-054	2007 actual	2008 est.	2009 est.

VESSEL OPERATIONS REVOLVING FUND—Continued

The Maritime Administration (MARAD) is authorized to reactivate, maintain, operate, and deactivate government-owned merchant vessels comprising the National Defense Reserve Fleet (NDRF) and the Ready Reserve Force (RRF), a subset of the NDRF. Resources for RRF vessel maintenance, preservation, activation and operation costs, as well as RRF infrastructure support costs and additional DOD/Navy-sponsored sealift activities and special projects, are provided by reimbursement from the Defense Sealift Fund. MARAD incurs similar obligations for government-owned merchant vessels outside the RRF fleet and for the charter of privately-owned merchant vessels, the cost of which is likewise provided by reimbursement from sponsoring Federal agencies.

In addition, the fund is used by MARAD to finance the acquisition, maintenance, preservation, protection and use of merchant vessels involved in mortgage foreclosure or collateral forfeiture proceedings instituted by the Federal Government and not financed by the Federal Ship Financing Fund or the Maritime Guaranteed Loan Program; and to finance the acquisition and disposition of merchant vessels under the Trade-In/Scrap Out program. Direct appropriations for the disposal of obsolete government-owned merchant vessels are provided to a separate account within the ship disposal program.

3590 Outlays from new authority	3	4	4

This program provides guaranteed loans for purchasers of ships from the U.S. shipbuilding industry and for modernization of U.S. shipyards.

As required by the Federal Credit Reform Act of 1990, this account also includes the subsidy costs associated with the loan guarantee commitments made in 1992 and subsequent years, and the administrative expenses of the program. The subsidy costs are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Funds for administrative expenses for the Title XI program are appropriated to this account, then transferred to and merged with the Operations and Training account.

No new funds for loan guarantees are requested for 2009.

ADMINISTRATIVE PROVISIONS—MARITIME ADMINISTRATION

SEC. 175. Notwithstanding any other provision of this Act, the Maritime Administration is authorized to furnish utilities and services and make necessary repairs in connection with any lease, contract, or occupancy involving Government property under control of the Maritime Administration, and payments received therefor shall be credited to the appropriation charged with the cost thereof: *Provided*, That rental payments under any such lease, contract, or occupancy for items other than such utilities, services, or repairs shall be covered into the Treasury as miscellaneous receipts.

SEC. 176. No obligations shall be incurred during the current fiscal year from the construction fund established by the Merchant Marine Act, 1936 (46 U.S.C. 53101 note (c-ds)), or otherwise, in excess of the appropriations and limitations contained in this Act or in any prior appropriations Act.

SEC. 177. Section 51509 of title 46, United States Code, is amended in subsection (b) by deleting “\$4,000” and inserting in lieu thereof “\$8,000” and by inserting “tuition,” after “uniforms.” (Department of Transportation Appropriations Act, 2008.)

GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

(INCLUDING [RESCISSIONS] CANCELLATIONS)

SEC. 180. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles oper-

ating in foreign countries on official department business; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

SEC. 181. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for an Executive Level IV.

SEC. 182. None of the funds in this Act shall be available for salaries and expenses of more than 110 political and Presidential appointees in the Department of Transportation [*Provided*, That none of the personnel covered by this provision may be assigned on temporary detail outside the Department of Transportation].

SEC. 183. None of the funds in this Act shall be used to implement section 404 of title 23, United States Code.

SEC. 184. (a) No recipient of funds made available in this Act shall disseminate personal information (as defined in 18 U.S.C. 2725(3)) obtained by a State department of motor vehicles in connection with a motor vehicle record as defined in 18 U.S.C. 2725(1), except as provided in 18 U.S.C. 2721 for a use permitted under 18 U.S.C. 2721.

(b) Notwithstanding subsection (a), the Secretary shall not withhold funds provided in this Act for any grantee if a State is in noncompliance with this provision.

SEC. 185. Funds received by the Federal Highway Administration, Federal Transit Administration, and Federal Railroad Administration from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training may be credited respectively to the Federal Highway Administration’s “Federal-Aid Highways” account, the Federal Transit Administration’s “Research and University Research Centers” account, and to the Federal Railroad Administration’s “Safety and Operations” account, and used for such expenses, except for State rail safety inspectors participating in training pursuant to 49 U.S.C. 20105.

SEC. 186. Funds provided or limited in this Act under the appropriate accounts within the Federal Highway Administration, the Federal Railroad Administration and the Federal Transit Administration shall be made available for the eligible programs, projects and activities at the level of 98 percent of the corresponding amounts identified in the explanatory statement accompanying this Act for the “Delta Regional Transportation Development Program”, “Ferry Boats and Ferry Terminal Facilities”, “Federal Lands”, “Interstate Maintenance Discretionary”, “Transportation, Community and System Preservation Program”, “Rail Line Relocation and Improvement Program”, “Rail-highway crossing hazard eliminations”, “Alternatives analysis”, and “Bus and bus facilities”: *Provided*, That amounts authorized within the Federal Highway Administration for fiscal year 2008 for the Interstate Maintenance Discretionary program under section 118(c) of title 23, United States Code, the Ferry Boats and Ferry Terminal Facilities program under section 147 of title 23, United States Code (excluding the set-aside for projects on the National Highway System authorized by section 147(b) of such title), the Public Lands Highways Discretionary program under section 202(b)(1)(A) of title 23, United States Code, and the Transportation, Community and System Preservation program under section 1117 of Public Law 109-59 in excess of the amounts so set aside by the first clause of this section for such programs, projects and activities in the explanatory statement accompanying this Act are rescinded: *Provided further*, That amounts authorized within the Federal Railroad Administration for fiscal year 2008 for Rail-highway Crossing Hazard Eliminations under section 104(d)(2)(A) of title 23, United States Code (excluding the set-aside for certain improvements authorized by section 104(d)(2)(E) of such title), in excess of the amounts so set aside by the first clause of this section for such programs, projects and activities in the explanatory statement accompanying this Act are rescinded.]

SEC. [187] 186. Notwithstanding any other provisions of law, rule or regulation, the Secretary of Transportation is authorized to allow the issuer of any preferred stock heretofore sold to the Department to redeem or repurchase such stock upon the payment to the Department of an amount determined by the Secretary.

SEC. [188] 187. None of the funds in this Act to the Department of Transportation may be used to make a grant unless the Secretary of Transportation notifies the House and Senate Committees on Appropriations not less than 3 full business days before any discretionary grant award, letter of intent, or full funding grant agreement totaling [\$500,000] \$2,000,000 or more is announced by the department or its modal administrations from: (1) any discretionary grant program of the Federal Highway Administration including the emergency relief program; (2) the airport improvement program of the

Federal Aviation Administration; or (3) any program of the Federal Transit Administration other than the formula grants and fixed guideway modernization programs: *Provided*, That the Secretary gives concurrent notification to the House and Senate Committees on Appropriations for any “quick release” of funds from the emergency relief program: *Provided further*, That no notification shall involve funds that are not available for obligation.

SEC. [189] 188. Rebates, refunds, incentive payments, minor fees and other funds received by the Department of Transportation from travel management centers, charge card programs, the subleasing of building space, and miscellaneous sources are to be credited to appropriations of the Department of Transportation and allocated to elements of the Department of Transportation using fair and equitable criteria and such funds shall be available until expended.

SEC. [190] 189. Amounts made available in this or any other Act that the Secretary determines represent improper payments by the Department of Transportation to a third party contractor under a financial assistance award, which are recovered pursuant to law, shall be available—

(1) to reimburse the actual expenses incurred by the Department of Transportation in recovering improper payments; and

(2) to pay contractors for services provided in recovering improper payments or contractor support in the implementation of the Improper Payments Information Act of 2002: *Provided*, That amounts in excess of that required for paragraphs (1) and (2)—

(A) shall be credited to and merged with the appropriation from which the improper payments were made, and shall be available for the purposes and period for which such appropriations are available; or

(B) if no such appropriation remains available, shall be deposited in the Treasury as miscellaneous receipts: *Provided*, That [prior to the transfer of any such recovery to an appropriations account,] the Secretary shall [notify] *report annually* to the House and Senate Committees on Appropriations [of] the amount and reasons for [such transfer] *these transfers: Provided further*, That for purposes of this section, the term “improper payments”, has the same meaning as that provided in section 2(d)(2) of Public Law 107–300.

SEC. 191. (a) Funds provided in Public Law 102–143 in the item relating to “Highway Bypass Demonstration Project” shall be available for the improvement of Route 101 in the vicinity of Prunedale, Monterey County, California.

(b) Funds provided under section 378 of the Department of Transportation and Related Agencies Appropriations Act, 2001 (Public Law 106–346, 114 Stat. 1356, 1356A–41), for the reconstruction of School Road East in Marlboro Township, New Jersey, shall be available for the Spring Valley Road Project in Marlboro Township, New Jersey.

(c) Notwithstanding any other provision of law, of the unexpended balance of funds made available in title I, chapter III, of Public Law 97–216 (96 Stat. 180, 187) under the heading “Federal-aid Highway Program” to execute contracts to replace or rehabilitate highway bridges, as designated on page 19 of House Report 97–632, \$5,000,000 shall be made available for East Chicago Road Reconstruction, East Chicago, Indiana, and the remaining unexpended funds shall be made available for Calumet Avenue Grade Separation, Munster, Indiana.

(d) Of the unobligated balance appropriated under the heading “Highway Demonstration Projects” in title I of Public Law 102–143 (105 Stat. 929) that was allocated for Routes 70/38 Circle Elimination, New Jersey, \$1,500,000 shall be transferred to, and made available for, the Delaware Street Bridge Replacement Project, (CR640) Bridge over Mathews Branch in West Deptford Township, New Jersey.]

SEC. 192. Notwithstanding any other provision of law, if any funds provided in or limited by this Act are subject to a reprogramming action that requires notice to be provided to the House and Senate Committees on Appropriations, said reprogramming action shall be approved or denied solely by the Committees on Appropriations: *Provided*, That the Secretary may provide notice to other congressional committees of the action of the Committees on Appropriations on such reprogramming but not sooner than 30 days following the date on which the reprogramming action has been approved or denied by the House and Senate Committees on Appropriations.]

SEC. 193. (a) None of the funds appropriated or otherwise made available under this Act to the Surface Transportation Board of the Department of Transportation may be used to take any action to allow any activity described in subsection (b) in a case, matter, or declaratory order involving a railroad, or an entity claiming or seeking authority to operate as a railroad, unless the Board receives

written assurance from the Governor, or the Governor’s designee, of the State in which such activity will occur that such railroad or entity has agreed to comply with State and local regulations that establish public health, safety, and environmental standards for the activities described in subsection (b), other than zoning laws or regulations.

(b) Activities referred to in subsection (a) are activities that occur at a solid waste rail transfer facility involving—

(1) the collection, storage, or transfer of solid waste (as defined in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903)) outside of original shipping containers; or

(2) the separation or processing of solid waste (including baling, crushing, compacting, and shredding).]

SEC. 194. None of the funds appropriated or otherwise made available under this Act may be used by the Surface Transportation Board of the Department of Transportation to charge or collect any filing fee for rate complaints filed with the Board in an amount in excess of the amount authorized for district court civil suit filing fees under section 1914 of title 28, United States Code.]

SEC. [195] 190. [Not later than 30 days after the date of enactment of this Act, the] *The* Secretary of Transportation shall [establish and] maintain on the homepage of the Internet website of the Department of Transportation—

(1) a direct link to the Internet website of the Office of Inspector General of the Department of Transportation; and

(2) a mechanism by which individuals may anonymously report cases of waste, fraud, or abuse with respect to the Department of Transportation.

SEC. 196. None of the funds appropriated or otherwise made available by this Act may be obligated or expended by the Administrator of the Federal Aviation Administration to displace, reassign, reduce the salary of, or subject to a reduction in force any employee at the Academy or discontinue the use of the FAA Academy as the primary training facility for air traffic controller training as a result of implementing the Air Traffic Control Optimum Training Solution in its entirety, prior to September 30, 2008.]

SEC. 197. PROHIBITION ON IMPOSITION AND COLLECTION OF TOLLS ON CERTAIN HIGHWAYS CONSTRUCTED USING FEDERAL FUNDS

(a) DEFINITIONS.—In this section:

(1) FEDERAL HIGHWAY FACILITY.—

(A) IN GENERAL.—The term “Federal highway facility” means—

(i) any highway, bridge, or tunnel on the Interstate System that is constructed using Federal funds; or

(ii) any United States highway.

(B) EXCLUSION.—The term “Federal highway facility” does not include any right-of-way for any highway, bridge, or tunnel described in subparagraph (A).

(2) TOLLING PROVISION.—The term “tolling provision” means section 1216(b) of the Transportation Equity Act for the 21st Century (23 U.S.C. 129 note; 112 Stat. 212);

(b) PROHIBITION.—

(1) IN GENERAL.—None of the funds made available by this Act shall be used to consider or approve an application to permit the imposition or collection of any toll on any portion of a Federal highway facility in the State of Texas—

(A) (i) that is in existence on the date of enactment of this Act; and

(ii) on which no toll is imposed or collected under a tolling provision on that date of enactment; or

(B) that would result in the Federal highway facility having fewer non-toll lanes than before the date on which the toll was first imposed or collected.

(2) EXEMPTION.—Paragraph (1) shall not apply to the imposition or collection of a toll on a Federal highway facility—

(A) on which a toll is imposed or collected under a tolling provision on the date of enactment of this Act; or

(B) that is constructed, under construction, or the subject of an application for construction submitted to the Secretary, after the date of enactment of this Act.

(c) STATE BUY-BACK.—None of the funds made available by this Act shall be used to impose or collect a toll on a Federal highway facility in the State of Texas that is purchased by the State of Texas on or after the date of enactment of this Act.]

SEC. 198. Notwithstanding any other provision of law, the funding made available for the Schuylkill Valley Metro project through the Department of Transportation Appropriations Acts for Federal Fiscal Years 2004 and 2005 shall remain available for that project during fiscal year 2008.]

(INCLUDING [RESCISSIONS] CANCELLATIONS)—Continued

SEC. 191. Funds appropriated in this Act to the modal administrations may be obligated for the Office of the Secretary of Transportation for the costs related to assessments or reimbursable agreements only when such amounts are for the costs of goods and services that are purchased to provide a direct benefit to the applicable modal administration or administrations.

SEC. 192. Notwithstanding subchapter II of chapter 417, title 49, United States Code, and section 332 of Public Law 106-69, subsidies for essential air service (EAS), or ground or other services supporting such transportation, shall be provided as follows:

(a) A community is eligible for subsidized EAS if it is: (1) receiving subsidized EAS as of the date of enactment of the Act; (2) more than 70 highway miles from the nearest medium or large hub airport; and (3) for a community that is more than 70 miles, but less than 210 miles from the nearest medium or large hub airport, the subsidy per passenger does not exceed \$200. As used herein, "highway miles" means the shortest driving distance as determined by the Federal Highway Administration.

(b) The Secretary shall rank all EAS compensated communities in their order of relative decreasing driving distance from the nearest large or medium hub airport.

(c) The Secretary shall provide subsidy first to the eligible communities that do not have highway access to a medium or large hub airport, then to the most isolated community, as determined in accordance with subsection (b), that requires compensation, and then to the next most isolated community requiring compensation, and so on, in order, until the Secretary has obligated not more than \$50,000,000 for compensation in fiscal year 2009. Such funds shall come from amounts received by the Federal Aviation Administration credited to the account established under 49 U.S.C. 45303, which shall remain available until expended.

(d) 49 U.S.C. 41733(e) is amended by inserting a period after "level of service" and striking the remainder.

(e) There are no minimum service requirements for eligible places. Service may consist, among others, of ground transportation, single engine, single-pilot operations, air taxi, charter service, or regionalized service.

(f) In determining between or among carriers competing to provide service to a community, the Secretary shall consider the relative subsidy requirements of the carriers.

SEC. 193. No assessments may be levied against any program, budget activity, subactivity or project funded by this Act for the Working Capital Fund unless such notice of such assessments is transmitted to the House and Senate Committees on Appropriations not less than 5 full business days prior to such assessments. (Department of Transportation Appropriations Act, 2008.)

GENERAL PROVISIONS THIS ACT

[(INCLUDING TRANSFERS OF FUNDS)]

[SEC. 401. Such sums as may be necessary for fiscal year 2008 pay raises for programs funded in this Act shall be absorbed within the levels appropriated in this Act or previous appropriations Acts.]

SEC. [402] 401. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. [403] 402. None of the funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. [404] 403. The expenditure of any appropriation under this Act for any consulting service through procurement contract pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

[SEC. 405. Except as otherwise provided in this Act, none of the funds provided in this Act, provided by previous appropriations Acts to the agencies or entities funded in this Act that remain available for obligation or expenditure in fiscal year 2008, or provided from any accounts in the Treasury derived by the collection of fees and available to the agencies funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that:

(1) creates a new program; (2) eliminates a program, project, or activity; (3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by the Congress; (4) proposes to use funds directed for a specific activity by either the House or Senate Committees on Appropriations for a different purpose; (5) augments existing programs, projects, or activities in excess of \$5,000,000 or 10 percent, whichever is less; (6) reduces existing programs, projects, or activities by \$5,000,000 or 10 percent, whichever is less; or (7) creates, reorganizes, or restructures a branch, division, office, bureau, board, commission, agency, administration, or department different from the budget justifications submitted to the Committees on Appropriations or the table accompanying the explanatory statement accompanying this Act, whichever is more detailed, unless prior approval is received from the House and Senate Committees on Appropriations: *Provided*, That not later than 60 days after the date of enactment of this Act, each agency funded by this Act shall submit a report to the Committees on Appropriations of the Senate and of the House of Representatives to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year: *Provided further*, That the report shall include: (1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level; (2) a delineation in the table for each appropriation both by object class and program, project, and activity as detailed in the budget appendix for the respective appropriation; and (3) an identification of items of special congressional interest: *Provided further*, That the amount appropriated or limited for salaries and expenses for an agency shall be reduced by \$100,000 per day for each day after the required date that the report has not been submitted to the Congress.]

SEC. [406] 404. Except as otherwise specifically provided by law, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year [2008] 2009 from appropriations made available for salaries and expenses for fiscal year [2008] 2009 in this Act, shall remain available through September 30, [2009] 2010, for each such account for the purposes authorized: *Provided*, That [a request] notice thereof shall be submitted to the Committees on Appropriations [for approval] prior to the expenditure of such funds[: *Provided further*, That these requests shall be made in compliance with reprogramming guidelines].

[SEC. 407. All Federal agencies and departments that are funded under this Act shall issue a report to the House and Senate Committees on Appropriations on all sole source contracts by no later than July 31, 2008. Such report shall include the contractor, the amount of the contract and the rationale for using a sole source contract.]

[SEC. 408. (a) None of the funds made available in this Act may be obligated or expended for any employee training that—

(1) does not meet identified needs for knowledge, skills, and abilities bearing directly upon the performance of official duties;

(2) contains elements likely to induce high levels of emotional response or psychological stress in some participants;

(3) does not require prior employee notification of the content and methods to be used in the training and written end of course evaluation;

(4) contains any methods or content associated with religious or quasi-religious belief systems or "new age" belief systems as defined in Equal Employment Opportunity Commission Notice N-915.022, dated September 2, 1988; or

(5) is offensive to, or designed to change, participants' personal values or lifestyle outside the workplace.

(b) Nothing in this section shall prohibit, restrict, or otherwise preclude an agency from conducting training bearing directly upon the performance of official duties.]

[SEC. 409. None of the funds made available in this Act may be used to provide homeownership assistance for applicants described in 274A(h)(3) of the Immigration and Nationality Act (8 U.S.C. 1324a(h)(3)).]

[SEC. 410. None of the funds in this Act may be used to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act (8 U.S.C. 1324a(h)(3)).]

SEC. [411] 405. No funds in this Act may be used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use: *Provided*, That for purposes of this section, public use shall not be construed to include economic development that primarily benefits private entities: *Provided further*, That any use of funds for mass transit, railroad, airport, seaport or highway projects as

well as utility projects which benefit or serve the general public (including energy-related, communication-related, water-related and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health and safety or brownfields as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107-118) shall be considered a public use for purposes of eminent domain.

【SEC. 412. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriations Act.】

【SEC. 413. No part of any appropriation contained in this Act shall be available to pay the salary for any person filling a position, other than a temporary position, formerly held by an employee who has left to enter the Armed Forces of the United States and has satisfactorily completed his period of active military or naval service,

and has within 90 days after his release from such service or from hospitalization continuing after discharge for a period of not more than 1 year, made application for restoration to his former position and has been certified by the Office of Personnel Management as still qualified to perform the duties of his former position and has not been restored thereto.】

【SEC. 414. No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a-10c, popularly known as the “Buy American Act”).】

【SEC. 415. No funds appropriated or otherwise made available under this Act shall be made available to any person or entity that has been convicted of violating the Buy American Act (41 U.S.C. 10a-10c).

This division may be cited as the “Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008”.

】 (*Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008.*)
