Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology. This centralized fund, under the control of the DOJ Chief Information Officer, will ensure that investments in information sharing technology are well-planned and aligned with the Department's overall information technology (IT) strategy and enterprise architecture, and that all DOJ components are able to operate in a technologically unified environment, particularly with respect to preventing terrorist

attacks on the United States. The current major initiatives/projects are described below.

Joint Automated Booking System.—The Joint Automated Booking System (JABS) is a Department of Justice information sharing project that provides data to the FBI's Integrated Automated Fingerprint Identification System (IAFIS) through an automated process for the collection and transmission of fingerprint, photographic, and biographical data. The mission of JABS is to: (1) improve the booking process through automation; (2) enable agencies to share and exchange arrest information; and (3) maintain a federal offender tracking system.

Justice Consolidated Office Network (JCON) Office Automation.—JCON provides a reliable and robust common office automation platform for several Departmental components. The cornerstone of the project is the JCON Standard Architecture, which defines the IT computing framework, including networked workstations, servers, and printers; a common set of core applications (e-mail, word processing, etc.); and a basic set of system administration tools.

Litigation Case Management System.—This project will develop a common framework for the processes and systems that support litigation case management. The implementation of a common solution for litigation case management systems will provide for: (1) more accurate reporting on case loads and activity across the United States.; (2) operational efficiencies and greater information sharing; (3) long term cost savings by eliminating redundant systems and investments.

JCON S/TS Program.—The JCON Secret/Top Secret (S/TS) Program provides a seamless, Department-wide IT infrastructure for electronically sharing, processing, and storing classified information. JCON S/TS is a reliable, secure system which allows attorneys, intelligence analysts, law enforcement staff, and managers to exchange classified electronic data within and between components on a real-time basis.

Law Enforcement Information Sharing Program.—The Law Enforcement Information Sharing Program (LEISP) is a Department-wide strategy to facilitate the sharing of information about terrorism, criminal activity, and threats to public safety. LEISP will implement the information technology tools needed to facilitate timely, appropriate, and secure sharing of information across the law enforcement community.

Unified Financial Management System.—The Unified Financial Management System will allow the Department of Justice to streamline and standardize business processes and procedures across all components, providing secure, accurate, timely, and useful financial and procurement data to program managers, and to produce component and Department level financial statements.

Resources are requested to support the Department of Justice's law enforcement wireless communications program, including efforts to make more efficient use of radio spectrum as required by 47 U.S.C. 903(d)(1). Wireless communications efforts will address communications shortcomings in key strategic locations, such as along the northern and southern land borders, and in cities or regions that are potential targets for terrorism. Requested resources will be allocated to operations and maintenance requirements; investment in new, more efficient infrastructure and subscriber equipment; promotion of communications interoperability by Federal law enforcement and homeland security personnel; support of existing legacy land mobile radio systems; and management and operating requirements of the Wireless Program Management Office.

The Communications Assistance for Law Enforcement Act (CALEA) of 1994 authorized the Attorney General to reimburse telecommunications carriers for costs associated with modifying digital equipment installed before January 1, 1995, in order that court-authorized wiretaps may be performed.

The Omnibus Consolidated Appropriations Act of 1997 (P.L. 104-208) extended eligibility for reimbursement to telecommunications equipment manufacturers and providers of support services. In addition to direct appropriations to the Fund, Congress authorized Federal agencies with law enforcement and intelligence responsibilities to transfer to the Fund

unobligated balances that are available until expended, upon compliance with Congressional notification requirements.

With the appropriations provided in 2001, total funding for the program has reached \$500 million, the authorization level provided in the Act.

This program includes the Office of the Pardon Attorney (OPA) and the Executive Office for Immigration Review (EOIR). The Pardon Attorney receives and reviews all petitions for clemency, i.e., commutation of sentences and pardons. The Executive Office for Immigration Review contains 54 Immigration Courts and the Board of Immigration Appeals. EOIR was established January 1, 1983, to improve the immigration hearing and appeal process.

The Office of the Federal Detention Trustee (OFDT) is mandated is to direct detention programs and improve and coordinate detention activities for the Departments of Justice and Homeland Security. The Federal Detention Trustee (the Trustee) reports to the Deputy Attorney General on detention activities, policy, and forecasting appropriations formulation and execution. The Trustee's primary responsibility is to ensure operational effectiveness and the efficient expenditure of appropriated funds so that the Federal agencies involved in detention provide for the safe, secure, and humane confinement of persons in the custody of the United States Marshals Service (USMS). The Trustee's role encompasses the care of Federal detainees in private, State, and local facilities, and includes housing, subsistence, transportation, medical care, and medical guard service. The Trustee also manages the Justice Prisoner and Alien Transportation System (JPATS) and strives to ensure equality among participating agencies while allowing unimpeded prisoner transportation operations.

For 2009, the Trustee will continue to work with State and local governments and private service providers to maintain adequate detention capacity to house detained individuals charged with Federal offenses awaiting trial or sen-

tencing. The Federal Government utilizes various methods to house detainees. For example, detention bed space for Federal detainees is acquired at the lowest cost to the Government through: (1) Federally-owned and managed detention facilities, where the Government has paid for construction and operation of the facility. This is by in large paid for in the Federal Bureau of Prisons' (BOP) Salaries and Expenses account; (2) Intergovernmental Agreements (IGAs) with State and local jurisdictions, whose excess prison and jail bed capacity is utilized and paid via a daily rate; and, (3) Private performance-based contract facilities, where a daily rate is paid. Based on anticipated growth rates in the Federal detention population, over three-quarters of the USMS's federally detained population will likely be housed in State, local and private facilities.

In an effort to reduce detention costs, the Trustee has implemented efficiencies such as the e-Designate program which automates the sentencing-to-commitment process and accelerates the movement of prisoners from detention to Bureau of Prisons (BOP) facilities. The Trustees office also facilitated the establishment of in-transit holdover facilities to further reduce the time from sentencing to incarceration by accelerating the movement of prisoners to a designated BOP facility and by increasing alternatives to detention programs.

As a key strategy to expand the President's e-government initiative, OFDT has also developed DSNetwork, a multifaceted, full-service Internet site designed to meet various detention services needs. DSNetwork is a consolidated detention services site which allows for automated processing of IGAs (eIGA), provides a facility locator and a Detention Services Schedule, posts detention facility review information, allows agencies to maintain an automated multi-year acquisition plan for long-range planning, and collects and maintains procurement data for agencies to use to assess bed space availability. DSNetwork reduces lengthy and cumbersome workload by transitioning from paper-based processing toward automation and is significantly improving interaction between government agencies and service providers. This web-based, Internet accessible tool provides timely, accurate, and comprehensive detention information on a secure, centralized site (<https://www.ofdt.net>).

Additionally, OFDT developed a Quality Assurance Program (QAP) based on Federal Performance-Based Detention Standards (FPBDS). The elements of the QAP include: Quality Assurance Reviews (QAR)—annual reviews of contracted private detention facilities and identified state and local IGA detention facilities—which produce corrective action plans for any noted deficiencies; a Facility Review Management System, which automates the QAR process; and, a Contract Monitoring Instrument (CMI), which is an automated tool that government representatives can use to monitor the performance of a facility on a more frequent basis, thus ensuring a consistent approach to monitoring non-Federal detention bed space. The QAP data is collected and provided through the DSNetwork to detention agencies and facility providers with the underlying goal of improving the safety, security and treatment of federal detainees.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. Also by statute, the OIG reports to the Attorney General, Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decisionmakers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and Congress and of vital importance to the Department.

The Executive Direction and Control function provides program direction for the OIG. Responsibilities include policy development, legal counsel, congressional affairs, planning, budget, finance, personnel, procurement, automated data processing, and general support services.

The United States Parole Commission makes decisions to grant or deny parole to Federal and D.C. prisoners serving sentences of one year and a day or more, sets conditions of parole, supervises parolees and mandatory releasees, re-commits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In addition, the Commission seeks to improve the rehabilitation process by monitoring an effective parole supervision program through U.S. and District of Columbia probation officers and through research studies that evaluate the effectiveness of parole programs. The U.S. Parole Commission has responsibility for parole and parole revocation hearings and supervision of District of Columbia parolees and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105-33).

The Foreign Claims Settlement Commission adjudicates the claims of American nationals (individuals and corporations) arising out of the nationalization, expropriation or other taking of their property, or injury, caused by foreign governments, pursuant to the International Claims Settlement Act of 1949 and other statutes. In 2009, the Commission will continue adjudicating American claims against Albania. In addition, the Commission will provide technical assistance to the Departments of State and the Treasury and to the public in connection with the 45 international and war claims programs previously completed, including, in particular, the Cuban Claims Program. It also will provide policy recommendations, evaluation of pending claims legislation, and liaison with congressional committees considering such legislation.

The Federal Government is represented in each of the 94 judicial districts and the District of Columbia Superior Court by a U.S. Marshal. The primary missions of the U.S. Marshals Service (USMS) are protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

The USMS is proposing to restructure its 2009 budget in accordance with the President's Management Reform Agenda and the Government Performance Results Act. The new structure merges the Construction and Salaries and Expenses budgets into one streamlined budget.

For 2009, \$10.3 million in program increases are requested for judicial security in the Southwest Border district offices.

Reimbursable program.— Federal funds in 2009 are derived from the Administrative Office of the U.S. Courts for the court security program, the Office of the Federal Detention Trustee for the housing and transportation of USMS prisoners in non-Federal facilities, the Assets Forfeiture Fund for seized assets management, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, and the Office of National Drug Control Policy and the Centers for Disease Control for security services. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

This appropriation is used to pay fees and expenses to witnesses who appear on behalf of the Government in litigation in which the United States is a party. Factors over which the Department of Justice has little, or no, control affect the costs incurred. The United States Attorneys, the United States Marshals, and the Department's six litigating divisions are served by this appropriation.

Fees and expenses of witnesses.—Pays the fees and expenses associated with the presentation of testimony on behalf of the United States for fact witnesses, who testify as to events or facts about which they have personal knowledge, and for expert witnesses, who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

Protection of witnesses.—Pays subsistence and other costs to ensure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

Victim compensation fund.—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

Private counsel.—Pays private counsel retained to represent government employees who are sued, charged, or subpoenaed for actions taken while performing their official duties (private counsel expenditures may be authorized for congressional testimony as well as for litigation in instances where Government counsel is precluded from representing the employee or private counsel is otherwise appropriate).

Foreign Counsel.—Allows the Civil Division who is authorized to oversee litigation in foreign courts to provide foreign counsel, retained and supervised by the Department of Justice, to pay the legal expenses of representing the United States in cases filed in foreign courts.

Alternative Dispute Resolution.—Pays the costs of providing Alternative Dispute Resolution (ADR) services in instances wherein the Department has taken the initiative to use such services and in those matters wherein the courts have directed the parties to attempt a settlement using mediation or some other ADR process.

United States trustee system fund.—The United States trustees supervise the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts and litigate against fraud and abuse in the system. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee program to a twenty-one region, nationwide program encompassing 88 judicial districts. The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 (Public Law 109-8) expanded United States trustees' existing responsibilities to include means testing, credit counseling/debtor education, and debtor audits. User fees that are assessed offset the annual appropriation.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund, into which forfeited cash and the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the assets forfeiture program are paid from the permanent, indefinite portion of the

fund. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner and Alien Transportation System (JPATS) is responsible for transporting by air all Federal prisoners and detainees, including sentenced and pretrial, whether in the custody of the U.S. Marshals Service or the Bureau of Prisons. JPATS also transports prisoners in the custody of the Department of Defense, Department of Homeland Security, and State and local law enforcement. JPATS transports prisoners and detainees on a full cost recovery reimbursable basis with participating Executive Departments and agencies without sacrificing the safety of the public, Federal employees, or those in custody. Proceeds from the disposal of aircraft will be deposited into the Fund. The Office of the Federal Detention Trustee (OFDT) is responsible for process improvement, fiscal and management oversight and the development and implementation of a long range strategic plan for JPATS.

The Organized Crime Drug Enforcement Task Force (OCDETF) Program consists of a nationwide structure of nine regional task forces that combine the resources and expertise of its seven member Federal law enforcement agencies, in cooperation with State and local investigators and with prosecutors from the U.S. Attorneys Offices and the Criminal and Tax Divisions, to target and destroy major narcotic-trafficking and money-laundering organizations. The task forces perform the following activities:

Investigation.—This activity includes the resources for direct investigative, intelligence and support activities of the task forces, focusing on the disruption and dismantlement of drug trafficking and money laundering organizations by various organized crime enterprises. Organizations participating under the Investigations function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, and U.S. Immigration and Customs Enforcement.

Prosecution.—This activity includes the resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are intended to dissolve drug trafficking and money laundering organizations in their entirety, most notably the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, and the Department of Justice’s Criminal Division and Tax Division.

WORKLOAD

	2007 actual	2008 est.	2009 est.
Number of new OCDETF Investigations initiated	1,016	975	975
Percent of active OCDETF investigations linked to CPOT	14%	15%	15%

At the request of the Attorney General, the OCDETF member agencies, with input from the intelligence community, developed the Consolidated Priority Organization Target (CPOT) List, which identifies those significant international drug trafficking and money laundering organizations most responsible for the illegal drug supply to the United States. In FY 2007, the CPOT list includes 46 international targets. As of Dec. 10, 2007, OCDETF had identified 578 current OCDETF investigations that are targeting components of CPOT-listed organizations. The CPOT strategy seeks to incapacitate the foreign-based organization heads, their domestic transportation and smuggling systems, their regional and local distribution networks, and their financial operations, thereby interrupting the flow of drugs into the United States and diminishing the capacity of the CPOT organizations to reconstitute themselves. The strategy aims to ensure that OCDETF funding is being used as effectively and efficiently as possible. In addition to CPOTs, OCDETF also prioritizes cases linked to Regional Priority Organization Targets (RPOTs), whose drug activities have a significant impact on the particular drug threats facing one or more of the nine

OCDETF regions. OCDETF’s commitment to pursuing priority targets is evident from the steady increase in the percentage of cases linked to these targets. During 2007, 14 percent of OCDETF’s active investigations were linked to a CPOT, while 21 percent were linked to RPOTs.

In 2007, OCDETF initiated 1,016 new cases, a 5 percent increase over the number initiated in 2006. OCDETF district and regional coordination groups are working to ensure that only those investigations that meet the standards established for OCDETF cases are approved and the quality of these new investigations clearly reflects OCDETF’s commitment to pursue the most significant drug trafficking and money laundering organizations.

The mission of the FBI is to protect the United States from terrorist and foreign intelligence activities; to uphold the law through the investigation of violations of Federal criminal law; to provide leadership and assistance to Federal, State, local, and international law enforcement agencies; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

Protecting America in the current challenging national security and criminal environment requires that the FBI refocus its priorities; realign its workforce to address these priorities; and improve management policies and operating procedures to enhance flexibility, agility, effectiveness, and accountability. The FBI's revised strategic priorities are, in order:

- Protect the United States from terrorist attack,
- Protect the United States against foreign intelligence operations and espionage,
- Protect the United States against cyber-based attacks and high technology crimes,
- Combat public corruption at all levels of government,
- Protect civil rights,
- Combat transnational and national criminal organizations and enterprises,
- Combat major white-collar crime,
- Combat significant violent crime,
- Support federal, state, county, municipal, and international partners,
- Upgrade technology to successfully perform the FBI's mission.

FBI investigations and operations are conducted through a network of 56 major field offices, over 400 smaller field offices (resident agencies), and four information technology centers located throughout the United States; the FBI Academy and engineering complex at Quantico, Virginia; a fingerprint identification and criminal justice information services center in Clarksburg, West Virginia; over 50 foreign liaison posts; and FBI Headquarters in Washington, D.C.

A number of FBI activities are carried out on a reimbursable basis. For example, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs and by other Federal agencies for certain investigative services, such as pre-employment background inquiries and fingerprint and name checks. The FBI also is authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2009, the FBI proposes \$438 million in program enhancements. These enhancements support national security, intelligence, information technology, information sharing, and infrastructure needs. Highlights of these initiatives include: (1) enhanced national security and intelligence capabilities, to include training; (2) enhanced surveillance capabilities; (3) enhanced information sharing capabilities; and (4) improved information technology.

DEA’s mission is to enforce the controlled substances laws and regulations of the United States. DEA’s major focus is the disruption and dismantlement of Priority Target Organizations (PTOs)—domestic and international drug trafficking and money laundering organizations having a significant impact upon drug availability in America. DEA emphasizes PTOs with links to organizations on the Attorney General’s Consolidated Priority Organization Target (CPOT) list, which represents the “Most Wanted” drug supply and money laundering organizations believed to be primarily responsible for the United States’ illicit drug supply. In addition to keeping drugs and drug-related violence out of the United States, DEA plays a vital role in the areas of national security, border security, and immigration.

DEA’s activities are divided into three main categories:

Domestic Enforcement.—Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This activity contains most of DEA’s resources, including domestic enforcement groups, state and local task forces, other federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. Strategic objectives have been established to:

—Identify and target the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;

—Systematically disrupt or dismantle targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,

—Work with international offices to dismantle domestic organizations directly affiliated with international cartels.

International Enforcement.—DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. Strategic objectives include:

—Identifying, prioritizing, and targeting the most significant international drug and chemical trafficking organizations;

—Disrupting and dismantling the networks, financial infrastructures, operations, and the resource bases of targeted international drug and chemical trafficking organizations; and,

—Preventing drug trafficking organizations from funding terrorist organizations and activities.

State and Local Assistance.—DEA advises, assists, and trains state and local law enforcement and local community groups to ensure a consistent national approach to drug law enforcement. DEA’s training enhances their enforcement capabilities and provides access to the latest intelligence and investigative methods. The strategic objectives are to:

- Provide clandestine methamphetamine laboratory training to state and local law enforcement officers;
- Assist state and local law enforcement with efforts to clean up hazardous waste from clandestine methamphetamine laboratories; and,
- Assist local efforts to control the production of cannabis.

Reimbursable Programs.—The primary reimbursements to DEA are for the Interagency Crime and Drug Enforcement Task Force program and the Department of Justice Assets Forfeiture Fund.

For 2009, \$20.6 million is provided to support DEAs Drug Flow Attack Strategy, an innovative, multi-agency strategy, designed to significantly disrupt the flow of drugs, money, and chemicals between the source zones and the United States by attacking vulnerabilities in the supply, transportation systems, and financial infrastructure of major drug trafficking organizations. This strategy calls for aggressive, well-planned and coordinated enforcement operations with host-nation counterparts in global source, transit zones, and arrival zones. Key components of this strategy include intelligence driven enforcement, multilateral cooperation, sequential enforcement operations, and end game capability. This strategy will also enhance efforts to stop the flow of illegal drugs into the United States by way of the U.S. southwest border.

DEA’s general long-term goal supports the Department of Justice’s efforts to reduce illegal drug availability. DEA accomplishes its general long-term goal by disrupting or dismantling identified PTOs. The measures below reflect DEA’s focus on PTOs and those PTOs linked to organizations on the Attorney General’s CPOT list.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. By carrying out the mandates of the Controlled Substances Act (CSA), DEA ensures that adequate supplies of controlled drugs are available to meet legitimate medical, scientific, industrial, and export needs, while preventing, detecting, and eliminating diversion of these substances to illicit traffic. The CSA requires physicians, pharmacists, and chemical companies to register with the DEA in order to distribute or manufacture controlled substances or listed chemicals. Investigations conducted by DEA's Diversion Control Program fall into two distinct categories: the diversion of legitimately manufactured pharmaceutical controlled substances and the diversion of controlled chemicals (List I and II) used in the illicit manufacture of controlled substances. Strategic objectives include:

- Identifying and targeting those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cyber crime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;
- Supporting the registrant population with improved technology, including e-commerce and customer support, while maintaining cooperation, support and assistance from the regulated industry;
- Educating the public on the dangers of prescription drug abuse and taking proactive enforcement measures to combat emerging drug trends; and,
- Ensuring an adequate and uninterrupted supply of pharmaceutical controlled substances and listed chemicals to meet legitimate medical, commercial, and scientific needs.

For 2009, DEA is requesting programmatic enhancements totaling \$0.5 million under the Diversion Control Fee Account. These resources will be used to place a diversion investigator position in Guatemala, and fund the Diversion Control Programs portion of DEA-wide information technology infrastructure upgrades.

The Bureau of Alcohol, Tobacco, Firearms and Explosives mission is to deter and investigate violations of law relating to alcohol, tobacco, firearms, explosives and arson. ATF stands in the front ranks of the nation's battle against terrorism. Explosives and firearms can be terrorist tools, and ATF is in the unique position of not only regulating commerce in firearms and explosives, but also of having the requisite ex-

pertise and authority to investigate firearms and explosives-related crimes. Through these programs, ATF investigators are positioned to thwart criminal and terrorist activity at every level of the execution process—from the theft or illegal purchase of explosives to the interdiction and neutralization of those explosives.

For 2009, \$948,000 is provided to support the Southwest Border Prosecuritorial Initiative.

This appropriation will provide for the custody and care of an average daily population of 210,120 offenders and for the maintenance and operation of 115 penal institutions, 6 regional offices, and a central office located in Washington, D.C. The appropriation also finances the incarceration of sentenced Federal prisoners in State and local jails and other facilities for short periods of time. An average daily population of 36,000 sentenced prisoners will be in contract facilities in 2009.

The Federal Prison System (FPS) receives reimbursements for the daily care and maintenance of State and local offenders, for utilities used by Federal Prison Industries, Inc., for staff housing, and for meals purchased by FPS staff at institutions.

The FPS has restructured its 2009 Budget in accordance with the President's Management Reform Agenda and the Government Performance and Results Act. The new structure reflects actual costs by decision unit, and condenses the Salaries and Expenses budget from four decision units (Inmate Care and Programs, Institution Security and Administration, Contract Confinement, and Management and Administration) to three decision units (Inmate Care and Programs, Institution Security and Administration, and Contract Confinement).

Inmate Care and Programs.—This activity covers the costs of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This decision unit also finances the costs of education and vocational training, drug treatment, religious programs, psychological services, and other inmate programs such as Life Connections. This activity also covers costs associated with regional and central office executive direction and management support functions related to providing inmate care such as medical and drug treatment programs.

Institution Security and Administration.—This activity covers costs associated with the maintenance of facilities and institution security. This activity finances institution maintenance, motor pool operations, powerhouse operations, institution security and other administrative functions. Finally, this activity covers costs associated with regional and central office executive direction and management support functions such as research and evaluation, systems support, financial management, budget functions, safety, and legal counsel.

Contract Confinement.—This activity provides for the confinement of sentenced Federal offenders in Government owned, contractor-operated facilities and State, local, and private contract facilities, and for the care of Federal prisoners in contract community residential centers and assistance by the National Institute of Corrections to State and local corrections. This activity also covers costs associated with management and oversight of contract confinement functions.

Federal Prison Industries, Inc., (FPI) was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to maximize meaningful inmate employment opportunities and minimize the effects of competition on private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

FPI strives to provide additional industrial employment opportunities at existing and planned institutions.

Budget program.—Federal Prison Industries, Inc., operations are entirely self-sustaining, and no appropriations are required for its operations. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

Financing program.—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay accident compensation.

Operating results.—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs (OJP) is requesting \$134.6 million in FY 2009 for the Justice Assistance appropriation. This appropriation includes programs that provide grants, contracts, and cooperative agreements for research, development and evaluation; development and dissemination of quality statistical and scientific information; and promotion and expansion of law enforcement information sharing initiatives and systems.

Through leadership, funding, and technical support, OJP plays a significant role in the development of new techniques and methods in the areas of crime prevention, forensic science, and violence and victimization research. The research and statistical data compiled by OJP staff are used at all levels of government to guide decision making and planning efforts related to law enforcement, courts, corrections, and other criminal justice issues. Grants, technical assistance, and national leadership provided by OJP supported the establishment of the Regional Information Sharing System, which has emerged as one of the Nation's most important law enforcement intelligence sharing networks. OJP continues to support efforts to expand and improve information sharing among the Nation's Federal, state, local, and tribal law enforcement and criminal justice agencies.

Research, Evaluation, and Demonstration Program.—The National Institute of Justice (NIJ) serves as the research and development agency of the Department of Justice, as authorized by 42 U.S.C. 3721–3723. The mission of NIJ is to advance scientific research, development, and evaluation to enhance the administration of justice and public safety by providing objective, independent, evidence-based knowledge, and tools to meet the challenges of crime and justice, particularly at the state and local levels. NIJ research, development, and evaluation (RD&E) efforts support practitioners and policy makers at all levels of government.

NIJ focuses its resources in program areas where Federal assistance will generate the greatest benefit in order to successfully address the wide range of mandates assigned to it by Congress. During strategic and budgetary planning, NIJ emphasizes RD&E activities into the following major program areas: (1) State and Local Law Enforcement; (2) Forensic Science; (3) Crime Prevention; (4) Violence and Victimization; and (5) Corrections and Courts.

RD&E efforts funded by NIJ concentrate on practical and effective approaches to improving crime and delinquency prevention, crime control, and the administration of justice. NIJ research funding supports the development of new standards, and tools for criminal justice practitioners; testing of innovative concepts, equipment, and program models in the field; development of new knowledge through research on crime, justice systems, violence and victimization issues; and evaluation of existing programs and responses to crime. Information generated by NIJ research activities is actively disseminated to numerous targeted audiences across the United States, including policymakers, program partners, and Federal, state, local, and tribal justice agencies.

Criminal Justice Statistics Program.—The Bureau of Justice Statistics (BJS) serves as the primary statistical arm of the Department of Justice, as authorized by 42 U.S.C. 3721–3735. The Criminal Justice Statistics Program is BJS base program and funds ongoing statistical series. BJS collects and analyzes statistical data on all aspects of the criminal justice system and assists state, local, and tribal govern-

ments in collecting and analyzing justice statistics. It disseminates quality information and statistics to inform policy makers, researchers, criminal justice practitioners, and the general public.

The Criminal Justice Statistics Program collects, analyzes and publishes data on a wide range of criminal justice topics, including: (1) Victimization; (2) Law Enforcement; (3) Prosecution; (4) Courts and Sentencing; (5) Corrections; (6) Tribal Justice; (7) Justice Expenditure and Employment; (8) International justice systems; and (9) Drugs, alcohol, and crime.

In addition, BJS administers the State Justice Statistics (SJS) Program for the Statistical Analysis Centers (SACs). SACs have been established in all states and most territories to centralize and integrate criminal justice statistical functions. Through financial and technical assistance to the state SACs, the SJS Program provides support to each state to coordinate and conduct statistical activities within the state, conduct research to estimate impacts of legislative and policy changes, and serve as a liaison in assisting BJS to gather data from respondent agencies within their states.

Regional Information Sharing System (RISS).—This program, authorized by 42 USC 3796h(d) and administered by the Bureau of Justice Assistance (BJA), is the only national criminal intelligence system operated by and for state and local law enforcement agencies. Six regional intelligence centers operate in mutually exclusive geographic regions that include all 50 states, the District of Columbia, and U.S. territories, with some member agencies in Canada, Australia, and England. These regional centers facilitate information sharing to support member agency investigative and prosecution efforts by providing state-of-the-art investigative support and training, analytical services, specialized equipment, and secure information-sharing technology. The centers also provide secure encrypted e-mail and communications capabilities to over 6,000 Federal, state, county, and municipal law enforcement agencies nationwide.

RISS initially supported state and local law enforcement. However, the regional information sharing concept has expanded from efforts in combating drug trafficking and organized criminal activity to intelligence sharing across jurisdictional boundaries. Section 701 of the USA PATRIOT Act authorized RISS to operate secure information sharing systems to enhance the investigative and prosecutorial abilities of participating law enforcement agencies in addressing terrorism.

The Office of Justice Programs (OJP) is requesting \$404 million for the State and Local Law Enforcement Assistance appropriation. This appropriation account includes programs that establish and build on partnerships with state, local, and tribal governments, and faith-based and community organizations. These programs provide Federal leadership on high-priority criminal justice concerns such as violent crime, criminal gang activity, illegal drugs, information sharing, and related justice system issues. The discretionary grants, training programs, and technical assistance activities authorized under this account assist law enforcement agencies, courts, local community partners and other components of the criminal justice system in preventing and addressing violent crime, protecting the public, and ensuring that offenders are held accountable for their actions.

For FY 2009, the Weed and Seed Program will be incorporated into the Byrne Public Safety and Protection Program. This program was previously funded under a separate appropriation account (Weed and Seed Program Fund). The FY 2009 Budget also proposes to transfer community policing development and training into this account, which was previously funded under a separate appropriation account (Community Oriented Policing Services). The transfer will help to ensure better coordination of comprehensive training and technical assistance initiatives for state and local law enforcement on issues related to violent crime control and community policing.

For FY 2009, funding requested for this account will support the following initiatives:

Violent Crime Reduction Partnership Initiative: \$200 million. Funding for this program supports communities affected by high rates of violent crime to address this problem by forming effective multi-jurisdictional law enforcement partnerships between Federal, state, and local law enforcement agencies. Through a competitive grant process, OJP provides funding and technical assistance to communities to establish and enhance partnerships to investigate and reduce violent crime—including efforts to address drug trafficking and criminal gang activity, which contribute to many violent offenses.

Byrne Public Safety and Protection Program: \$200 million. This program consolidates the most successful OJP law enforcement assistance programs into a single, flexible grant that allows state, local, and tribal governments to develop programs appropriate to the particular needs of their jurisdictions. Through a competitive grant process, OJP focuses assistance on those jurisdictions experiencing significant criminal justice problems and assists state and local governments in addressing a number of high-priority criminal justice concerns.

Community Policing Development: \$4 million. This program provides technical assistance and training to states, units of local government, Indian Tribal governments, and other public and private entities to advance community policing, expand cooperation between law enforcement agencies and members of the community, and enhance public safety.

The Office on Violence Against Women (OVW) is requesting \$280 million for programs to prevent and respond to violence against women and related victims. OVW provides national leadership against domestic violence, dating violence, sexual assault, and stalking, and supports a multifaceted approach to responding to these crimes. Funding will support the Prevention and Prosecution of Violence Against Women and Related Victim Services Program. This appropriation account supports a new consolidated, competitive grant program, including contracts, cooperative agreements and other assistance to support State, local, tribal and community efforts to develop and implement effective, coordinated prevention and prosecution of domestic violence, dating violence, sexual assault and stalking, and support related victims services. Such awards are designed to forge state, local and tribal partnerships among police, prosecutors, the judiciary, victim advocates, health care providers, faith leaders, and others, in order to help provide victims with the protection and services they need to pursue safe and healthy lives, while simultaneously enabling communities to hold offenders accountable.

The Office of Justice Programs (OJP) is requesting \$185 million for the Juvenile Justice Programs appropriation. This appropriation account includes programs that support state, local and tribal community efforts to develop and implement effective, coordinated prevention and intervention juvenile programs. Such programs are designed to: reduce juvenile delinquency and crime; protect children from sexual exploitation; and improve the juvenile justice system so that it protects public safety, holds offenders accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

For FY 2009, funding will support the Child Safety and Juvenile Justice Program, which consolidates existing juvenile justice and exploited children programs such as the Internet Crimes Against Children into a single, flexible grant program. Through a competitive discretionary grant process, OJP will assist State and local governments in addressing multiple child safety and juvenile justice needs to: reduce incidents of child exploitation and abuse, including those facilitated by the use of computers and the Internet, improve juvenile justice outcomes, and address school safety needs.

America's youth are facing an ever changing set of problems and barriers to successful lives. As a result, OJP is constantly challenged to develop enlightened policies and programs to address the needs and risks of those youth who enter the

juvenile justice system. OJP remains committed to leading the nation in efforts addressing these challenges, which include: preparing juvenile offenders to return to their communities following release from secure correctional facilities; dealing with the small percentage of serious, violent, and chronic juvenile offenders; helping States address the disproportionate confinement of minority youth; and helping children who have been victimized by crime and child abuse.

The Office of Justice Programs is requesting \$58.8 million for the Public Safety Officers Benefits (PSOB) appropriation. This appropriation account supports a \$49.7 million mandatory program and two discretionary programs totaling \$9.1 million: (1) \$5.0 million for disability payments; and (2) \$4.1 million for educational assistance. Funds provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a thirty-year partnership among the Department of Justice; national public safety organizations; and State, local, and tribal public safety agencies.

Programs supported by the Crime Victims Fund focus on providing compensation to victims of crime and survivors; supporting appropriate victims services programs and victimization prevention strategies; and building capacity to improve response to crime victims needs and increase offender accountability. The Fund was established to address the need for victim services programs, and to assist State, local, and tribal governments in providing appropriate services to their communities.

The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Federal crimes. The 2009 Budget proposes to appropriate \$590 million from collections and balances to provide for victim compensation, services, and related needs.

GENERAL PROVISIONS

SEC. 201. In addition to amounts otherwise made available in this title for official reception and representation expenses, a total of not to exceed \$50,000 from funds appropriated to the Department of Justice in this title shall be available to the Attorney General for official reception and representation expenses.

SEC. 202. None of the funds appropriated by this title shall be available to pay for an abortion, except where the life of the mother would be endangered if the fetus were carried to term, or in the case of rape: *Provided*, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.

SEC. 203. None of the funds appropriated under this title shall be used to require any person to perform, or facilitate in any way the performance of, any abortion.

SEC. 204. Nothing in the preceding section shall remove the obligation of the Director of the Bureau of Prisons to provide escort services necessary for a female inmate to receive such service outside the Federal facility: *Provided*, That nothing in this section in any way diminishes the effect of section 203 intended to address the philosophical beliefs of individual employees of the Bureau of Prisons.

SEC. 205. Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Justice in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: *Provided*, That any transfer pursuant to this section shall be treated as a reprogramming of funds under section 505 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section: *Provided further*, That none of the funds appropriated to "Buildings and Facilities, Federal Prison System" in this or any other Act may be transferred to "Salaries and Expenses, Federal Prison System", or any other Department of Justice account, unless the President certifies that such a transfer is necessary to the national security interests of the United States, and such authority shall not be delegated, and shall be subject to section 505 of this Act.

SEC. 206. The Attorney General is authorized to extend through September 30, [2009] 2010, the Personnel Management Demonstration Project transferred to the Attorney General pursuant to section 1115 of the Homeland Security Act of 2002, Public Law 107-296 (6 U.S.C. 533) without limitation on the number of employees or the positions covered.

SEC. 207. Notwithstanding any other provision of law, Public Law 102-395 section 102(b) shall extend to the Bureau of Alcohol, Tobacco, Firearms and Explosives in the conduct of undercover investigative operations and shall apply without fiscal year limitation with respect to any undercover investigative operation initiated by the Bureau of Alcohol, Tobacco, Firearms and Explosives that is necessary for the detection and prosecution of crimes against the United States.

SEC. 208. None of the funds made available to the Department of Justice in this Act may be used for the purpose of transporting an individual who is a prisoner pursuant to conviction for crime under State or Federal law and is classified as a maximum or high security prisoner, other than to a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

SEC. 209. (a) None of the funds appropriated by this Act may be used by Federal prisons to purchase cable television services, to rent or purchase videocassettes, videocassette recorders, or other audiovisual or electronic equipment used primarily for recreational purposes.

(b) The preceding sentence does not preclude the renting, maintenance, or purchase of audiovisual or electronic equipment for inmate training, religious, or educational programs.

[SEC. 210. None of the funds made available under this title shall be obligated or expended for Sentinel, or for any other major new or enhanced information technology program having total estimated development costs in excess of \$100,000,000, unless the Deputy Attorney General and the investment review board certify to the Committees on Appropriations that the information technology program has appropriate program management and contractor oversight mechanisms in place, and that the program is compatible with the enterprise architecture of the Department of Justice.]

[SEC. 211. Any deviation from the amounts designated for specific activities in this Act and accompanying report, or any use of deobligated balances of funds provided under this title in previous years, shall be subject to the procedures set forth in section 505 of this Act.]

[SEC. 212. (a) Section 589a of title 28, United States Code, is amended in subsection (b) by—

- (1) striking "and" in paragraph (8);
- (2) striking the period in paragraph (9) and inserting "; and"; and
- (3) adding the following new paragraph:

"(10) fines imposed under section 110(l) of title 11, United States Code."

(b) Section 110(l)(4)(A) of title 11, United States Code, is amended to read as follows:

“(A) Fines imposed under this subsection in judicial districts served by United States trustees shall be paid to the United States trustees, who shall deposit an amount equal to such fines in the United States Trustee Fund.”.]

[SEC. 213. (a) Section 1930(a) of title 28, United States Code, is amended in paragraph (6) by striking everything after “whichever occurs first.” and inserting in lieu thereof: “The fee shall be \$325 for each quarter in which disbursements total less than \$15,000; \$650 for each quarter in which disbursements total \$15,000 or more but less than \$75,000; \$975 for each quarter in which disbursements total \$75,000 or more but less than \$150,000; \$1,625 for each quarter in which disbursements total \$150,000 or more but less than \$225,000; \$1,950 for each quarter in which disbursements total \$225,000 or more but less than \$300,000; \$4,875 for each quarter in which disbursements total \$300,000 or more but less than \$1,000,000; \$6,500 for each quarter in which disbursements total \$1,000,000 or more but less than \$2,000,000; \$9,750 for each quarter in which disbursements total \$2,000,000 or more but less than \$3,000,000; \$10,400 for each quarter in which disbursements total \$3,000,000 or more but less than \$5,000,000; \$13,000 for each quarter in which disbursements total \$5,000,000 or more but less than \$15,000,000; \$20,000 for each quarter in which disbursements total \$15,000,000 or more but less than \$30,000,000; \$30,000 for each quarter in which disbursements total more than \$30,000,000. The fee shall be payable on the last day of the calendar month following the calendar quarter for which the fee is owed.”.]

(b) This section and the amendment made by this section shall take effect January 1, 2008, or the date of the enactment of this Act, whichever is later.]

[SEC. 214. None of the funds appropriated by this Act may be used to plan for, begin, continue, finish, process, or approve a public-private competition under the Office of Management and Budget Circular A-76 or any successor administrative regulation, directive, or policy for work performed by employees of the Bureau of Prisons or of Federal Prison Industries, Incorporated.]

[SEC. 215. Notwithstanding any other provision of law, no funds shall be available for the salary, benefits, or expenses of any United States Attorney assigned dual or additional responsibilities by the Attorney General or his designee that exempt that United States Attorney from the residency requirements of 28 U.S.C. 545.]

[SEC. 216. Of the funds appropriated in this Act for the Federal Bureau of Investigation’s Sentinel program, \$25,000,000 shall not be available for obligation until 60 days after the Committees on Appropriations receive from the Federal Bureau of Investigation a report on the results of a completed integrated baseline review for that program: *Provided*, That the report shall be submitted simultaneously to the Government Accountability Office: *Provided further*, That the Government Accountability Office shall review the Bureau’s performance measurement baseline for the Sentinel program and shall submit its findings to the Committees on Appropriations of the Senate and House of Representatives within 60 days of its receipt of the report.]

[SEC. 217. None of the funds appropriated in this or any other Act shall be obligated for the initiation of a future phase of the Federal Bureau of Investigation’s Sentinel program until the Attorney General certifies to the Committees on Appropriations that existing phases currently under contract for development or fielding have completed a majority of the work for that phase under the performance measurement baseline validated by the integrated baseline review referred to in section 216 of this Act: *Provided*, That this restriction does not apply to planning and design activities for future phases: *Provided further*, That the Bureau will notify the Committees on Appropriations of any significant changes to the baseline.]

[SEC. 218. (a) The Attorney General shall submit quarterly reports to the Inspector General of the Department of Justice regarding the costs and contracting procedures relating to each conference held by the Department of Justice during fiscal year 2008 for which the cost to the Government was more than \$20,000.

(b) Each report submitted under subsection (a) shall include, for each conference described in that subsection held during the applicable quarter—

(1) a description of the subject of and number of participants attending that conference;

(2) a detailed statement of the costs to the Government relating to that conference, including—

(A) the cost of any food or beverages;

(B) the cost of any audio-visual services; and

(C) a discussion of the methodology used to determine which costs relate to that conference; and

(3) a description of the contracting procedures relating to that conference, including—

(A) whether contracts were awarded on a competitive basis for that conference; and

(B) a discussion of any cost comparison conducted by the Department of Justice in evaluating potential contractors for that conference.]

SEC. [219] 210. Notwithstanding any other provision of law, a public or private institution of higher education may offer or provide an officer or employee of any branch of the United States Government or of the District of Columbia, who is a current or former student of such institution, financial assistance for the purpose of repaying a student loan or forbearance of student loan repayment, and an officer or employee of any branch of the United States Government or of the District of Columbia may seek or receive such assistance or forbearance.
