Introduction

The FY 2003 *Federal Credit Supplement* provides summary information about Federal direct loan and loan guarantee programs subject to the Federal Credit Reform Act (FCRA) of 1990, as amended by the Balanced Budget Act of 1997. The data are based on legislation enacted for FY 2002 and the proposals contained in the President's 2003 *Budget*. The credit activities of deposit insurance and other insurance programs are exempt from FCRA and do not appear in this *Supplement*.

Tables 1 and 2 provide FY 2002 and FY 2003 subsidy rates, obligations/commitments, and average loan size for direct loans and loan guarantees programs, as well as the program's BEA classification under the Budget Enforcement Act (BEA) of 1990 as discretionary or mandatory (see the "Preview Report" in the *Analytical Perspectives* volume of the 2003 *Budget* for additional information about BEA categories).

Tables 3 and 4 provide information about the major components of FY 2002 subsidy rates and about the characteristics of direct and guaranteed loans, respectively. Tables 5 and 6 provide the same information for direct and guaranteed loans included in the President's 2003 budget request. The four components of the subsidy (defaults, net of recoveries; interest; fees; and all other) are reported on a present value basis, the sum of which equals the estimated subsidy rate. Loan characteristics describe the terms of the loan agreement between the borrower and the agency or lender. Except for loan maturity and grace period, which are expressed in years, all characteristics are expressed as a percentage. Grace period may be for repayment of principal and/or interest.

Tables 7 and 8 provide information on the lifetime reestimates of FY 1992-2001 direct loan and loan guarantee cohorts, by agency, program, bureau and risk category. The tables show, for each cohort, the original subsidy rate used at point of obligation or commitment, the current reestimated subsidy rate, the breakout between the interest and technical portions of the subsidy reestimate, and the total dollar amount of the reestimate.

Tables 9 and 10 provides actual obligations/commitments, disbursements, and outstandings for selected direct and guaranteed loan programs, respectively, between 1992 to 2001. These programs are either the largest or fastest growing Federal credit programs. Defaulted guaranteed loans that result in a loan receivable are shown on the direct loan table.

Tables 11 and 12 show the rate at which the FY 2003 cohorts of direct loans and guaranteed loans are disbursed.

* Nonzero amount rounds to zero, based on units for this column.

¹ Lifetime defaults as a percentage of disbursements.

² Recoveries as a percentage of lifetime defaults.

³ Reflects a weighted average, fees range from 1 percent to 2 percent.

⁴ Subsidized and unsubsidized Stafford loans include a six month grace period.

⁵ Recoveries include interest.

⁶ The Government guarantees 98 percent of principal for private lenders and 95 percent for guaranty agencies.

⁷ Rates are set at the weighted rate of the loans consolidated, rounded up to the nearest eighth of a percent.

⁸ Sallie Mae pays the Department of Education a fee amount specified in statute. This fee is calculated annually in an amount equal to 0.30 percent of the principal amount of each loan made, insured, or guaranteed under the FFEL program that Sallie Mae holds, provided that the loan was acquired on or after August 4, 1993 (the date of enactment of the Student Loan Reform Act, which created the fee).

- ⁹ Other fees includes the construction mortgage insurance premiums paid at initial endorsement.
- ¹⁰ Guarantee varies from 50 percent to 90 percent.
- ¹¹ Annual premiums are charged until the loan amortizes to 78 percent of the original loan value.
- ¹² The lenders are allowed to charge the prime rate plus up to one percent.
- ¹³ Borrowers are charged a \$30,000 application fee.
- ¹⁴ Equals the State and Local Government Series rate plus 0.50 percent on the loan closing date.
- ¹⁵ Fees to the Government vary depending on the characteristics of the borrower and the terms of the loan.
- ¹⁶ Fee collected when loans are assumed.
- ¹⁷ The guarantee percentage varies depending on the loan size.

¹ Reestimates for some programs did not appear in the FY 2003 Budget because they were less than \$500,000.

² Total (net cumulative) reestimates, including interest on reestimates.

³ Breakout between technical and interest reestimates is not available.

⁴ Reestimates have not yet been calculated.

⁵ No program was authorized in FY 1995.

⁶ Includes the SLS loan program, for which loans were last originated in FY 1994.

⁷ These reestimates are calculated using the balances approach. No revised subsidy rates are available. Reestimates are calculated on a consolidated program basis, not by individual risk category.

⁸ The 1992 subsidy rate was originally executed at — 1.82 percent in 1992, but was adjusted retroactively to — 2.60 percent in 1993.

⁹ Total reestimates for all seven risk categories. Subsidy rates represent weighted averages.

¹⁰ Subsidy was not displayed separately until FY 1999.

¹¹ The 1999 subsidy rate was originally executed at 5.36 percent in 1999, but was adjusted retroactively to 5.69 percent in 2002.
