Re: Underwater Abandoned Pipeline Facilities

Per the requirements of 49 CFR 192.727, Aquila is submitting the attached data pertaining to three underwater abandoned pipeline facilities that were abandoned prior to Oct. 10, 2000. Included are maps of the pipelines, and a spreadsheet which includes further details.

To the best of my knowledge, all of the requested information that is reasonably available about these three abandoned pipelines has been included. Also, to the best of my knowledge, the abandonment was completed in accordance with all applicable State and Federal laws in effect at the time of the abandonment.

Sincerely,

Randy Paap
