Pipeline purging activities were completed in November, 2001, however, the business decision to abandon the line was not confirmed until April, 2002.

Please be advised that although the piping is abandoned, MAPL is continuing the existing right-of-way agreement with the property owner to retain the right to use the crossing.

If you require additional information on this matter, please feel free to contact me at 419-421-3201, or via E-mail at TASchell@MAPLLC.COM.
