

BUSINESS SERVICE PROVIDER

Our promotional campaign to let American firms know about our new location at www.buyusa.gov/thailand/en is in full swing. In addition to our existing listings on top American search engines, we are expanding our promotion through our network of Export Assistance Centers nationwide to generate interest in the Thai market from more American companies.

You can take advantage of the name recognition of the U.S. Commercial Service at the U.S. Embassy in Thailand to get your company's information into the hands of the right people. We can help you by expanding awareness among American exporters of your products or services here because we are frequently asked to provide lists of legal and other services. Post your information on our English website and watch your contacts grow.
