

This guidance manual was revised under the sponsorship of the U.S. Department of Transportation. The manual relies on sources representing the best opinion on the subject at the time of publication. However, it should not be assumed that all acceptable safety measures and procedures are mentioned in this manual. The reader is referred to the Code of Federal Regulations (49 CFR Parts 190-199 and Part 40) for the complete pipeline safety requirements.

The U.S. Department of Transportation (DOT), Research and Special Programs Administration (RSPA) staff involved in the revision of this manual included:

Danny McGriff  
Jim Anderson  
Joel Kohler  
Ed Steele  
Dennis Fothergill  
Mahendra Jhala  
Ken Wood  
Richard Sanders  
Steve Horvath

Sponsor Approval:

Stacey Gerard  
*Associate Administrator for  
Pipeline Safety*

In addition, technical review was conducted by the Directors of the Office of Pipeline Safety's five regional offices and the National Association of Pipeline Safety Representatives (NAPSR), as well as other OPS Headquarters' regulatory, compliance, and program support staff.
