See Y'all in San Antonio!

The San Antonio Expo... An Event You Won't Want To Miss!

FEDERAL EMPLOYEES REGISTER AND ATTEND FREE OF CHARGE

We look forward to seeing you at GSA's 1999 International Products and Services Exposition to be held in exciting San Antonio, Texas, on March 31 - April 1, 1999. This is the Government's premier trade show, and we hope you'll take advantage of the opportunity to see our many new products and services, attend FREE informative

training seminars, network with hundreds of GSA vendors and place orders on-site for GSA quality products!

Doing business with the Federal Supply Service of GSA is easier than ever. Our mission is to be your preferred source of best value, commercial products and services. We continually strive to improve our responsiveness to you, our Federal client, because we value your business.

Some of our recent innovations at FSS include offering better delivery times, expanded product selection, and "total-package" solutions to meet all of your needs. In addition, our **GSA Advantage!**™ on-line shopping service lets you order supplies and services with the click of a mouse.

The San Antonio Expo is an event you won't want to miss. Federal employees can register and attend free of charge.

Frank P. Pugliese, Jr.

"The 1998 GSA Products and Services Expo in Seattle was extremely beneficial. Not only was I introduced to new vendor sources and ideas, but through the knowledge gained through various workshops offered, I was able to fully prepare for the upcoming Procurement and Purchasing changes within our own organization."

DENNIS WILLIAMS, U.S. COAST GUARD
AIRCRAFT REPAIR AND SUPPLY CENTER, ELIZABETH CITY, NC

TRAINING ACTIVITIES:

- ▶ Learn how to access hundreds of thousands of products at Government volume prices through the use of GSA Schedules.
- ▶ Obtain hands-on experience with **GSA Advantage!**TM, GSA's on-line ordering system.
- ▶ Acquire information about new products and services that support quality of life issues, better business practices, and process improvements.
- ▶ Gain insight from experts in Government procurement sources - GSA, DLA, NIB/NISH, UNICOR.

▶ **Register Today!**

*Register by completing and faxing
in the form on the next page.*

"This was the second GSA Products and Services Fair I have attended and they keep getting better. It was very helpful to see all the new products that were available. I'm already signed up for San Antonio."

TAMMY ZINKOWSKY, OPERATIONS SUPPORT
U.S. POSTAL SERVICE, ST. PETERSBURG, FL

"The GSA Products and Services Fair in Seattle was GREAT! Supply is a very important mission, but it is a collateral duty for me and the training sessions were very helpful in giving me the knowledge to do the job right. I have already recommended to my CO that my replacement attend next year's event in San Antonio."

LT DAN MOSER, "SEA BEES"
U.S. NAVY CENTRAL COMMAND, TAMPA, FL

You may register by completing and returning this form.

COME SEE WHAT WE HAVE TO OFFER!

DESCRIPTION OF WORKSHOP TRACKS AND EXAMPLES OF CLASSES

Explore GSA - How We Work for You

Learn how GSA is here to help you. Come see the products and services GSA has to offer, from office supplies to managerial services (and everything else in between). Listen to customers explain how GSA worked with them to complete their agency's missions. Discover new and innovative products GSA has to offer you. Whatever your agency needs, however exotic your mission, learn how GSA can help you do your job.

Some classes in this track will include:

- ▶ *Vehicle Acquisition and Leasing*
- ▶ *Hardware and Appliances*
- ▶ *Furniture*
- ▶ *Office and Paper Products*
- ▶ *Management Improvement Services*
- ▶ *Outsourcing and Temporary Services*
- ▶ *Airline City Pairs and Your Travel*
- ▶ *Integrated Technology*

Procurement and Purchasing Made Simple

Learn about the practical side of acquisition reform and simplified purchasing. This track provides an overview of the different ways a customer can purchase goods and services through GSA. You will be delighted to discover the most effective method for your procurement needs.

Some classes in this track will include:

- ▶ *GSA SmartPay Purchase Cards*
- ▶ *Government Credit Card Usage*
- ▶ *Federal Supply Schedules*
- ▶ *Blanket Purchase Agreements*

Technology for the New Millennium

The future of Federal business is electronic commerce. Learn how GSA can help your agency be in the forefront of technology with your purchasing. Don't get left in the dark!

Some classes in this track will include:

- ▶ *GSA Advantage!™*
- ▶ *Y2K Update*
- ▶ *Office of the Future*
- ▶ *FEDSTRIP/MILSTRIP and MUFFIN*

GSA's Added Value and Partnerships

Come learn about our partnerships with a variety of our nation's mandatory source programs and sister agencies. Discover how GSA is working within the Federal community to help you accomplish your mission. You'll be amazed at what we are doing!

Some classes in this track will include:

- ▶ *Working with NIB/NISH*
- ▶ *Planet GSA*
- ▶ *Partnering with DLA*
- ▶ *Using UNICOR Sources*

Safety is Just a Step Away with Shure-Step®

Working in the engine compartment of trucks and larger vehicles can be dangerous and time-consuming. Standing on milk crates or moving a small step around the vehicle is not the answer.

The Shure-Step® is an L-shaped platform made of high-strength plastic. It lifts the technician 10 inches off the ground while allowing movement about the vehicle safely and efficiently. When two steps are butted together, they surround the engine compartment with what amounts to a scaffold system. Got a truck so big you wonder how you'll ever work on it? No problem, the Shure-Step® is a stackable unit, which grows 7 inches with every step stacked.

Skilcraft® Medium Duty Plastic Flatware

It may be called Medium Duty, but Skilcraft® Medium Duty Plastic Flatware is up to the challenge of even your toughest clientele. More portable than heavier flatware, this collection travels well to site events, and for supplying large groups. Because of its low cost yet functional construction, medium-duty forks, knives and spoons work well for stocking self-serve counters, snack bars, and galleys.

This premium white flatware is heat tolerant and meets FDA requirements. Made from medium-weight polystyrene. Use medium-duty flatware where disposability is a must.

Skilcraft® Medium Duty Plastic Flatware is manufactured by people who are blind working at Signature Works, Inc., Hazlehurst, MS. This product meets your Javits-Wagner-O'Day (JWOD) Act mandatory source requirements.

IT Acquisition Center Washington, DC

Home of the Group 70 Information Technology Multiple Award Schedule Computer Equipment, Software and Services.

At the General Services Administration (GSA) it's a matter of pride and commitment to ensure that you can acquire the information technology equipment, supplies and services that you need – and that you can now do this with the streamlined commercial acquisition practices that we're making available to the Federal marketplace.

The IT Acquisition Center is one of GSA's major acquisition centers. Today, the Group 70 IT Multiple Award Schedule (MAS) encompasses over half a million products and services and provides you with a selection of over 1,600 high-quality IT companies. This information and more can be viewed on our website at:

<http://pub.fss.gsa.gov/it/>

Our primary objective is to make it easy for you to access all the IT resources you need including state-of-the-art equipment and services. We're particularly proud of our record of continuous improvement and innovations that make real world business sense.

Your complete satisfaction is our number one goal. Do you have comments, recommendations, or suggestions? If so, we'd like to hear from you. Let us know how we're doing and what we could do for you to make your job easier. Give us a call at 703/305-3038 or e-mail us at:

IT.Center@gsa.gov

Need Hands-On Help? Arrange for Experts via the GSA IT Schedule

When you find yourself in need of integration support and other IT professional services, the IT Schedule is the place to go! With more than 600 companies on Schedule (and this number continues to grow) you'll find IT services specialists of all stripes: re-engineering consultants, systems integrators, software engineers, configuration managers, technical writers, trainers, Year 2000 specialists and many more.

Remember to follow GSA's established procedures when you order these services. You'll find that these services are priced at hourly rates on GSA Schedule. Our team of experienced contracting officers have already negotiated these rates, so you can be sure that you are paying a fair and reasonable price. However, keep in mind that you must consider the level of effort and the labor mix proposed by a professional services contractor for performing the task you have ordered to ensure that the total firm-fixed price or ceiling price is fair and reasonable. If you'd like more information regarding the new ordering procedures for IT professional services, you will find it on our homepage at <http://pub.fss.gsa.gov/it/>. Under the Site Map, simply select "Solicitations". The screen that appears will allow you to download the IT solicitation, including all applicable terms and conditions. This is where you will locate the new ordering procedures.

What's new and exciting? How about the IT Contract Database Search!

The IT Acquisition Center is proud to present one of our latest innovations...the IT Contract Database Search. This search engine allows

you to query your search by selecting from 64 different search engines. Search by contract number, company name or product and/or service category. The results you receive will be based on the search criteria you selected. What makes this database search even more appealing is that once your results are received, you can access the contractor's Group 70 Federal Supply Schedule price list and do your market research on-line! Now, this database is fairly new and your feedback is welcome ... if you have any comments or suggestions, please don't hesitate to let us know. You can e:mail us at:

IT.Center@gsa.gov

Benefits and Advantages of Ordering from the Federal Supply Schedule Program... Can you name them?

Here are just a few:

- Simplified Ordering
- Best Value Determination
- Maximum Order Provision
- Blanket Purchase Agreement
- Contractor Teaming Arrangements
- Price Reductions
- Expedited Delivery

Have we captured your attention? Would you like to know more about the advantages and benefits of ordering from the Group 70 Information Technology Federal Supply Schedule? If so, let us help you. Our marketing representatives would welcome the opportunity to visit your organization to discuss our program in more detail. To set up an appointment, please contact Darlena Bikowski at (703) 305-5592.

For additional information, please contact our customer service line at (703) 305-5592.

Management Services Center Auburn, WA

The new Management Services Center, located in Auburn, WA, was formed October 1, 1998, with the aim of providing Federal agencies with management solutions to help meet the challenges of today's government.

The Management Services Center has established several new Multiple Awards Schedule contracts to help solve the challenges of multiple priorities, increased demands and diminishing resources. With ready access to the nation's top consulting and business management firms, these contracts offer a streamlined method to acquire professional management services.

Among the services available from the Management Services Center are:

 -- **Management, and Organizational and Business Improvement Services (MOBIS).**

This program offers contracts with consulting firms to help agencies improve management and organizational effectiveness and comply with the mandates of OMB Circular A-76.

 -- **Environmental Advisory and Hazardous Management Services.**

This contract covers awards to companies who provide valuable knowledge and expertise in the areas of environmental planning and documentation, training and compliance requirements.

 -- **Mail Management Services.**

Make more effective use of shrinking administrative budgets for services such as mailroom operations, mail presorting and mail list management activities.

 -- **Laboratory and Related Services.**

Companies under this service can help meet laboratory evaluation service needs, including geo-thermal, mechanical, electrical and chemical testing.

 -- **Solvent Recycling Service.**

Contracts that provide closed loop systems for aqueous or oil based parts cleaner, solvent and complete servicing.

Should you need more information on the services provided by the Management Services Center, please call:

(800) 241-7246 (RAIN)

or send an E-mail to:

mgmt.services@gsa.gov

For a full menu of other FSS Multiple Schedule Awards visit the GSA web page at:

Aqueous Parts Cleaner Service Now on GSA Schedule

Numerous government maintenance activities have eliminated solvents from their operations and now use aqueous cleaners for their automotive, maintenance and other parts-cleaning needs.

The latest version of GSA's Federal Supply Schedule 495 I A for Solvent/Aqueous Parts Cleaner Recycling Service not only offers an aqueous alternative, but one with a fully-tested, military-specification compliant cleaner for use in both contractor-supplied as well as government-owned equipment.

Safety-Kleen Corporation now offers a service inclusive of the Arm & Hammer "Aquaworks" product that meets MIL-C-29602 (Aqueous Parts Cleaner) and can be used in a wide range of automotive, maintenance and aircraft-related cleaning requirements.

Continued next page

Eliminating solvents and using aqueous cleaning alternatives has become a priority with many government users. Whether you own an aqueous parts cleaner or want a packaged service including the parts cleaner, regular service of these units including transportation, labor, cleaning product and recycling of spent/dirty product - it's all available from this schedule contract with Safety-Kleen (GS-10F-8805H).

If you have any questions, we encourage you to get in touch with us. Our website includes the current contractor, schedule information, and other services available to you.

Privatization Support Services Now Available Through MOBIS

Is your agency undergoing OMB'S Circular A-76 or maybe even organizational changes related to business process reengineering, reductions in budgets, FTE shortfalls? GSA's Multiple Award Schedule for Management, Organizational, and Business Improvement Services (MOBIS) now contains privatization support services and documentation.

These services include expert advice, consultation, assistance and documentation in support of studies conducted under OMB Circular A-76 or other privatization/commercial activities studies, projects or efforts.

These services may include, but are not limited to:

- Strategic, tactical and operational level planning support
- initial study planning
- development of Performance Work Statements (PWS)
- development of in-house Government cost estimates
- development of Quality Assurance Surveillance Plans (QASP)
- administrative appeal process support
- comparison of in-house bids to proposed Interservice Support Agreement (ISSA) prices
- performance of management studies to determine the Government's Most Efficient Organization (MEO)

The MOBIS contracts cover all of this and more! If you have any questions, we encourage you to get in touch with us. Our website includes a list of the 200 plus current contractors, schedule information, as well as other services available to you.

National Furniture Center

Washington, DC

The National Furniture Center's (NFC) staff is committed to servicing your every requirement, conveniently and painlessly. Whether you require electronic ordering, installation services or a copy of a furniture schedule, the NFC puts that information at your fingertips.

The NFC's web site offers you the opportunity to review or download all of its Federal Supply Schedules. Also, check out new and innovative products while receiving all the information you need to order your furniture. Take a quick off-line tour of what our site has to offer:

The Customer Corner

*Schedules List * Questions and answers on NFC products and services * Product List * Filing & Storage Systems
* Conference Room Furniture * Painless Moves * Commercial Partners

The aim of this page is a mutual exchange of information. We strive to provide timely information of interest to our customers. In exchange, we hope customers will communicate with us to address their concerns, questions, and suggestions to the staff of the NFC.

Links to Commercial Partners

With increasing access to the Internet and the rise of Internet commerce, many of our partnering suppliers are establishing web pages to provide information and even on-line ordering for their products. While some of the pages are not specific to products available through GSA contracts, they can provide additional information to assist you in making your purchase decisions.

Value Added Services

The NFC's commitment to exceeding your requirements is evident in the following links which make your furniture procurement as easy as 1-2-3.

*Express Desk Information * The Express Desk Checklist * Inside Delivery * **GSA Advantage!**TM * Account Managers and Action Teams * Project Management Services

The Quality Imperative

Take a look at the Customer-Industry-GSA Quality Partnership. Scan the calendar of upcoming events....or catch up with the minutes of recent sessions.

National Furniture Center

Need to reach an NFC service representative? Search our phone book to call or just click to send us e-mail. Regularly visit this section to get updates on events and other items of interest on our bulletin board.

The Industry Corner

Check out the NFC's positions on current 'marking' and related transportation issues; review vendor listings in the NFC database; browse the listing of recent and upcoming awards.

New Items

Available under Federal Supply Schedule 73 III

Biocorp's disposable tableware, reSourceWare, is unique and totally different from the plastic disposable tableware which most Americans use in their daily life. ReSourceWare has the characteristics and functionality of plastic, but it is completely biodegradable and contains absolutely no polyethylene or polystyrene. The tableware is made completely from natural substances (primary cornstarch, cottonseed). ReSourceWare biodegrades completely like any other organic substance, such as food waste, within 60-75 days.

Biocorp reSourceWare is considered "environmentally preferable" under Executive Order No. 13101 ("Greening the Government Through Waste Prevention Recycling and Federal Acquisition"). Since the Biocorp reSourceWare is biodegradable and compostable (hence recyclable under applicable EPA guidelines), the Biocorp reSourceWare will have a reduced impact on the environment. Non-biodegradable plastic food serviceware presents a substantial litter problem to the environment, which the biodegradable reSourceWare does not. The Biocorp reSourceWare also promotes composting, which is the most environmentally-sensitive way of disposing of organic waste.

Biocorp's tableware will also help implement the Marine Pollution Convention (Marpol), which prohibits the discharge of plastic into the sea.

Multi-Use MagnaClamp™

Here's the answer to hanging almost anything, almost anywhere. It's the MagnaClamp™, the simple solution for hanging and holding signs, banners, posters, and exhibit material. The MagnaClamp™ features two inward facing 60 mil magnets with contrasting polarity mounted within a flexible hinge made of clear polyester that will not crack, tear or break. The front may be plain or custom printed. It comes in a variety of styles and colors. The height, when folded, is 1" high; the lengths range from 2" to 60."

MagnaClips can either be permanently mounted or moveable because they come in two forms: Adhesive-backed MagnaClamps will hang permanently in windows, for example -- where they can even be washed over -- and on walls.

Moveable MagnaClamps™ are available with a magnetic-back for affixing to metal, or with a Velcro back for fabric office walls and exhibit boards. For fast poster change, they're perfect!

MagnaClamps™ are available from:

Dean & Co., USA
4016 Tonkawood Road
Minneapolis, MN 55345
Phone: (612) 933-1310
Fax: (612) 933-0554.

Order from GSA, to get the special low prices and your order will be shipped directly by the manufacturer.

You may use your Government Credit Card to order. Minimum order \$250.00. Call for prices on smaller quantities as well as FOB destination: USA, Alaska, Hawaii, Puerto Rico.

New Items Offer a Green Choice!

Providing Grade A solutions at a budget price, Open Plan Systems is the nation's largest independent remanufacturer of previously owned workstations. With more than 10,000 workstations in stock, Open Plan Systems can offer a lead time as short as three weeks, UL listing, and a 5-year warranty. All of Open Plan Systems' remanufacturing processes are environmentally friendly and offer the environment conscious buyer an alternative when procuring furniture.

Open Plan Systems' remanufactured systems furniture, design/layout, and installation services are available under GSA's New Item Introductory Schedule (NIIS) contract GS-29F-0232D. The contract is valid through May 31, 1999.

To contact the manufacturer directly, call (800) 728-0781 or fax (804) 228-5656.

News and Information

FSS Schedules E-Library Now On-line

Wouldn't it be nice to have up-to-date contract award information at your fingertips? Now you can and you don't need a library card to check out the latest information.

Federal Supply Schedule customers now have a website they can visit 24-hours a day for the latest schedule information. This new centralized library, named the "Schedules E-Library" hosts Federal Supply Schedules contract award information, basic schedule ordering guidelines, a complete schedule listing, and a powerful search engine. The search engine allows users to search by keyword text, schedule number, special item number, contractor name, or contract number, and notifies you if the Contractor is in GSA's electronic shopping mall, **GSA Advantage!**[™]. Also, it can take you directly to **GSA Advantage!**[™]. The site is referred nightly reflecting the latest technology, products and services FSS has to offer.

Please take the time to routinely visit the "Schedules E-Library" which can be found on the Federal Supply Schedules Homepage at

<http://pub.fss.gsa.gov/sched>

Don't forget to bookmark the site to quickly access contract award information. Using the library will improve your agency's productivity and save administrative costs.

Outreach Europe '98 - Mission Accomplished!

Nearly 1,700 registered participants attended Outreach Europe '98, GSA's Overseas Products and Services Expo, at Patrick Henry Village, Heidelberg, Germany, October 20-22, 1998. The event was a resounding success, providing an opportunity for Americans serving overseas to learn about the millions of products and services available from GSA and its vendors. The Expo was a first in showing off the combined solutions available to overseas customers from FSS and FTS working together. The response was positive. Dignitaries from the State Department, and U.S. Army, Air Force and Navy Commands in Europe, helped Deputy Administrator Thurman Davis, FSS Deputy Commissioner Donna Bennett, and FSS Assistant Regional Administrator Jack Williams kick off the event.

A series of professional development seminars was held in conjunction with an exposition featuring the products and services of over 200 companies. The exposition showed off a sampling of the hottest new products and services in furniture, appliances, food service equipment, information technology, office supplies and more from our Federal and commercial partners. The Expo was augmented by a series of training seminars, including GSA Smartpay, **GSA Advantage!**[™], Customer Supply Centers, the latest from GSA Acquisition Centers, how to do business with GSA overseas and more. Feedback from both

customers and GSA's commercial partners was excellent! Vendors were overwhelmed by the customer participation. They came, they saw, they shopped -- with credit cards and purchase orders.

Our customers and commercial partners left the Expo with a better understanding of what GSA has to offer as well as GSA's "can-do" attitude. GSA left with a great understanding of the special requirements of American men and women serving our country overseas!

For further information, contact Jack Williams or John Pitchford, (215) 656-3861.

Federal Supply Schedule Conference Scheduled for Spring 1999

The FSS Acquisition Management Center is holding a "Federal Supply Schedule Best Practices/BPA Conference" on April 28, 1999, at the Crystal Forum in Crystal City, Arlington, VA.

The conference will provide a forum for addressing questions from customers regarding the Schedules Program and learning from each other's experiences.

On-line registration is now available. Please check out website at:

www.fss.gsa.gov

click on News and Upcoming Events.

Service for Shipping Small Packages Internationally

The Department of Defense's Air Mobility Command recently awarded a multiple award contract for shipment of packages to and from the continental United States and international locations as well as lateral international routes. The contract, formally known as World Wide Express Small Package Delivery Service, provides for time definite, door-to-door pick-up and delivery, transport, active tracking, and customs clearance of dutiable and non-dutiable documents and general commodities of up to 150 lbs. DOD expects use of this service to save the Government \$40 million to \$60 million annually.

The resulting contract is the final product of a partnership between the General Services Administration's Federal Supply Service and DOD. Awards were made on July 30, 1998, to multiple vendors by theatres (Southern, European, Central and Pacific). The contract became effective October 1, 1998, and has two 1-year renewal options. Contract prices are inclusive of all charges with the exception of accessorial services. The contractors and their respective theatres are identified as follows:

Central: FEDEX and UPS
European: DHL Worldwide
Pacific: FEDEX and DHL
Southern: FEDEX and DHL

Where there are two contractors for a theatre, customers can select either contractor.

The World Wide Express (WWX) contract is mandatory for all defense agencies and a host of Federal

agencies that elected to become mandatory. Uncommitted agencies that are interested in utilizing this contract must contact the appropriate Contracting Officer's Technical Representative (COTR) identified below. Third party logistics contractors, cost-reimbursable contractors and Defense Logistic Service Center contractors may also use the WWX contract once approval is granted by the Agency COTR and the contractors. The COTRs can assist potential users with getting in contact with their respective ACOR.

For more information about WWX services, interested parties can access AMC's comprehensive website at:

<http://public.scott.af.mil/hqamc/wwx/wwx.htm>

The website includes downloadable contracts for each shipper, a rate calculator, theatre descriptions, links to carrier web sites (Government/commercial), contract services guides, and much more.

Fluorescent Lighting: Preserving Earth

The Department of Energy has provided numerous statistics showing that Compact Fluorescent Lamps (CFL) are more energy efficient and safer than halogen lamps, which have been known to cause fires due to the extreme heat of the bulb. In addition, fluorescent lamps are certified allies of the EPA "Green Lights" Program.

CFLs have similar benefits when compared with incandescent lighting, which is the most commonly used technology for table lamps.

Advantages of Fluorescent vs. Incandescent

-- Fluorescent lamps produce the same light output as incandescent lamps but use 1/3 the energy

-- Fluorescent bulbs last approximately 10 times longer than the average incandescent bulb

-- Fluorescent bulbs emit better color rendering

-- Fluorescent bulbs utilize less hazardous materials than incandescent bulbs

Lamps that accept fluorescent bulbs are presently available through GSA FSS Multiple Award Schedule 62I, Lighting Fixtures and Lamps, Household & Quarters Use. Some vendors offer "hard-wired" lamps (those specifically designed for fluorescent use), while others offer incandescent lamps with an option to adapt for fluorescent usage. See the following list of these vendors!

The switch to fluorescent lighting saves money and energy; therefore, it saves our planet!

Yes, you can assist in eliminating global warming. Consider the benefits of fluorescent lighting the next time you buy a lamp! For more information, please contact Monica Gormley at 215-656-3839.

The following Schedule 62 I vendors offer lamps which accept fluorescent bulbs.

Office and Scientific Equipment Center Washington, DC

Is Document Management Giving You A Headache?

The Office and Scientific Equipment Center now has Document Management Services to take away the headaches of managing documents.

-- Don't know where to get started with planning your Document Management System?

GSA offers Document Support Services that include needs assessment and analysis services, operational management support services, and education and training support services.

-- Need help in establishing a Records Management System?

GSA presents Records Management Services. Let the professionals establish, develop, and maintain your large quantity of records. Without a proper plan, your agency could lose vital documents from records movement to another facility, natural disaster, or even routine destruction practices.

-- Does your agency need a turn-key solution for reproduction of documents?

GSA now has Document Production (on-site/off-site) Services. Imagine a

copy and document production center at your site. A typical center would include high-volume digital color photocopiers, high-volume duplicators, high-speed printers, scanners, and more. Just think of the cost savings. You not only save on equipment expenditures, but on FTE because the operational and management personnel are provided.

-- Have you met your "paperless environment" goals?

GSA has Document Conversion Services. This service will scan your documents such as correspondence, files, technical manuals, land records, charts, engineering drawings, legal instruments, and more. They will then convert these documents to an electronic format for easy storage or retrieval. Complete document conversion services are available for both classified and unclassified documents.

-- Is your facility buried in mounds of paper?

You might want to consider a Document Shredding Service. Shredding services include on-site or pick-up for both classified and unclassified materials such as documents, papers, folders, files, envelopes, manuals, newspapers, catalogs, magazines, drawings, etc. For security concerns, containers are lockable and witnessing of actual shredding is available. Additionally, office paper and cardboard recycling services are available.

Laboratory Services

Our Scientific Equipment Division is currently looking into the possibility of offering to our customer agencies a variety of laboratory services. We are just beginning to look into this area of contractor support so we need your ideas on the types of services that you would like to see us offer. Do you have a requirement for genetic analysis? For hematology testing? Maybe clinical chemistry or flow cytometry and immunology? Would you be interested in having a contractor come in and run your lab for you? Or maybe total use of a contractor's lab would best serve your needs.

We are open to all kinds of suggestions and want to hear your ideas.

MULTITORQ, A Torque Data Acquisition System

Under newly awarded Contract Number GS-24F-9038H, GSA offers MULTITORQ, a torque data acquisition system. This is a small compact and accurate electronic meter capable of acquiring data from a variety of torque sensors and logging values into memory. It has been designed to be used for torque verification in assembly and manufacturing. Additionally, it can be used for auditing and process reporting while giving statistical process control of stored data. The standard set includes the multitorq meter, power pack and carrying case. Optional accessories include head phones, a table stand, and interface cables.

Point and Shoot Simplicity!

With a fully automatic Advanced Photographic System (APS) lens shutter camera, simply drop-in the Advanced Photo System cartridge film and the camera does the rest. Choose between three picture sizes on the same roll of film! The camera also has a built-in automatic flash with fill-in flash button and pre-flash for red-eye reduction. When the film is processed, you receive an index print showing thumbnail size color images of all pictures. So, say it with pictures! APS camera is available on GSA Multiple Award Schedule 67 II & III – Photographic Equipment, Supplies and Services.

Merged Schedules and New Solicitations

To service you better, the Office and Scientific Equipment Center has revamped all of our current Federal Supply Schedules. You can now enjoy the convenience of using fewer schedules to purchase a greater variety of product lines. The following list shows the new Schedule groupings:

I. Office and Photographic Equipment

A. Document Management Products and Services

This includes products and services formerly under Multiple Award Schedules 36 IV and 67 IV B and parts of 36 II.

B. Photographic Equipment, Supplies and Services and Video Services

This includes products and services formerly under Multiple Award Schedules 67 II & III and 781 I & II.

C. General Purpose Office Equipment

This includes products and services currently under Multiple Award Schedules 74 II & III and 74 IV and parts of 36 II.

II. Scientific Equipment

A. Geophysical, Environmental Analysis Equipment and Services

This includes products and services formerly under Multiple Award Schedules 66 II Q and 66 II R.

B. General Purpose Laboratory Equipment and Services

This includes products and services formerly under Multiple Award Schedules 66 II B, 66 II C, 66 II E, 66 II O, 66 II P and 66 II T.

C. Test and Measurement Equipment and Services for Electric, Electronic, Mechanical and Thermal Quantities; Avionics Test Equipment and Unmanned Aerial Vehicles

This includes products and services formerly under Multiple Award Schedules 66 II H, 66 II J and 66 II L. In addition, the schedule covers avionics equipment, unmanned aerial vehicles (UAVs) and UAV subcomponents.

D. Chemistry, Biochemistry and Clinical Instruments and Services

This includes products and services formerly under Multiple Award Schedules 66 II A, 66 II M and 66 II N.

Standing solicitation for all of these schedules have now been posted. These solicitations will have no closing date for receipt of offers and will have no prescribed contract beginning and end dates. Contracts resulting from these solicitations will have variable contract periods; i.e., contracts will be in effect for an initial period of 5 years from the date of award, with an option to extend the contracts for an additional period of up to 5 years.

To read more about all of the products and services offered by the Office and Scientific Equipment Center and to get copies of these new solicitations, visit our web page:

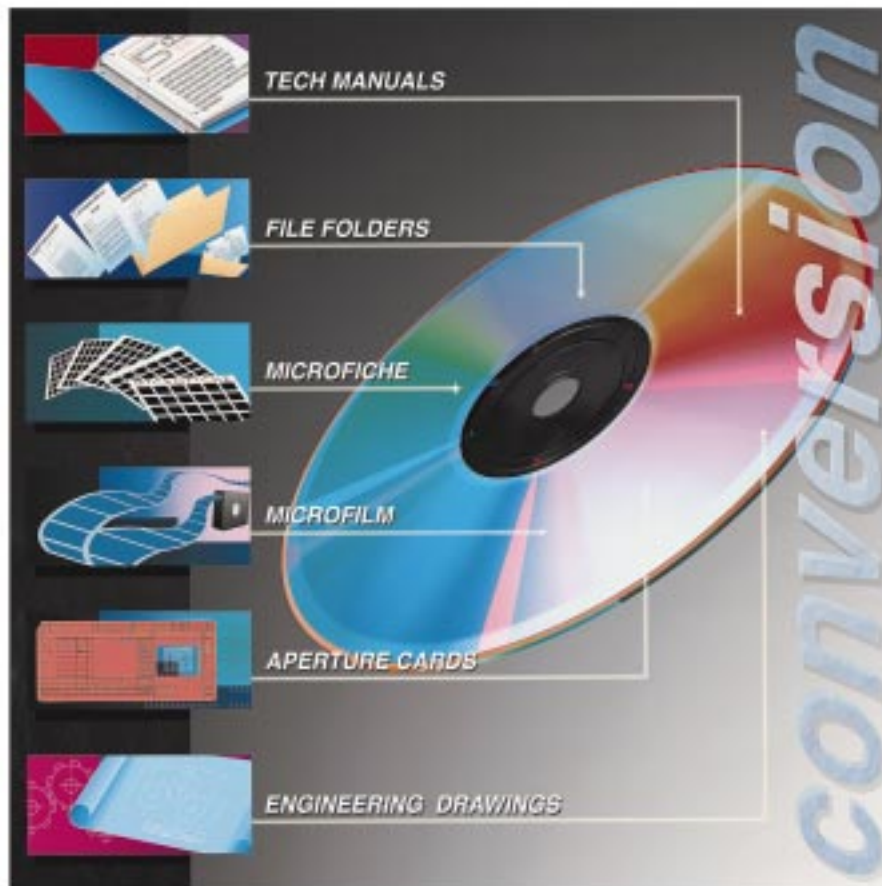

<http://pub.fss.gsa.gov/scientific>

Web-Site Photo Storage Services

What you see is what you get! Customers can scan and post their pictures to a web-site maintained by the vendor. The customer can view the scanned images, copy their images to their hard drive or send them by electronic mail in the course of business. The future is now, so ride the technology wave with GSA's products and services!

Four Important Reasons To Let Docucon Handle Your Backfile Conversion

When you're planning to convert hundreds of thousands — maybe millions of documents, Docucon's experience counts. Since 1988, we have successfully completed some of the most complex and highest volume backfile conversion projects ever undertaken.

Our extensive capabilities include conversion of file folders, technical manuals, engineering drawings, aperture cards, microfilm, and microfiche to any HTML, PDF, Raster, OCR, or SGML format you may require, delivered on any

optical or magnetic media your document management system needs.

Docucon provides customized solutions. Every conversion project has unique requirements. We'll spend as much time as needed testing and consulting with you and your system integrator to insure that every step of the project is understood... then we'll provide you with a Project Specification that defines, in detail, every step of the process from receipt of the documents by Docucon to return of converted documents to you.

Finally, our customers are the most important reason you should consider Docucon. We'll provide you with their names. Ask them if we met or exceeded our commitments, did we meet or exceed their quality standards, did we finish the project on time and on budget.

Want to know more about document conversion? Call 1(703)760-7839 today for our brochure.

Office Supplies and Paper Products Center, New York, NY

Recycled Copier Paper: New Regulations, No Problem

The Federal Government's recycling program took a giant step forward on September, 14, 1998, when the President signed a successor to Executive Order 12873 on recycling -- new Executive Order 13101 -- which strengthens the regulations and makes recycled copier paper usage totally mandatory and universal throughout the Executive Branch of Government.

No problem. GSA has been selling recycled copier paper exclusively for several months. Thanks to GSA initiatives, America's best-known paper mills have ample supplies available for government consumption through GSA.

No excuses necessary. Buy GSA Recycled Copier Paper and you will automatically be in compliance.

No budget problems. Our purchasing efforts create major savings for you. No quality problem. Tests conducted year-after-year have proven -- as well as experience in your printers and duplicators has shown -- that recycled copier paper looks as good as, and performs as well as, any non-compliant paper.

No storage problem. There are no minimum order requirements to unnecessarily fill your storage space. Moreover, GSA copier paper is multi-purpose, working equally well in PC printers and paper fax machines, in addition to high-speed copiers (Such as the Docutech 500) and slower desktop models.

No delivery problems. The new GSA distribution system sends your order out the door within 24 hours, for delivery in 1-5-days.

No ordering problems. Mail, phone or fax, using FEDSTRIP/MILSTRIP, MUFFIN or **GSA Advantage!**TM

The Textliter™ The Highlighter in Great Shape

With its flat shape, the Textliter™ won't roll when you put it down or pick it up. And it's designed to sit in your hand so that the edge of the beveled felt highlighting point will be exactly flush with your page.

Fast-drying fluorescent ink dries almost on contact, doesn't bleed (even on newsprint) and won't fade. Best of all, it works on all types of paper. Wide pocket clip makes it handy for carrying.

Uni-Blazer™ View Highlighter

The Uni-Blazer™ View Highlighter from Eberhard Faber will change the way you look at highlighters. A window in the barrel reveals the long-lasting, totally usable ink supply, so users know when the ink level is low.

The blazing fluorescent colors vividly grab the reader's eye. Pigmented fluorescent inks never fade text, even on carbonless copies and fax paper. Barrel contains no ink-trapping reservoir, so color intensity keeps brilliance, down to the last stroke.

Features chisel tip for precise highlighting and a sturdy clip for a secure hold. Sleek contemporary, yet colorful design: Handsome black with colorful accents that describe ink color. Three color set contains the most popular bright colors.

Skilcraft[®] Clipboards

This new line of Skilcraft[®] clipboards has something for everyone and you're always assured of a solid grip. Available in high-visibility neon, discreet camouflage, aluminum and blue or red plastic. High-visibility neon clipboards in neon pink and yellow are specially designed for use where safety and visibility are important. The low-rise, wire-spring 4" steel clip securely holds papers in place. Great for industrial and safety area use, the translucent neon board grabs attention even in dimly lit environments.

For use where concealment is a top priority. The camouflage clipboard will last through even the toughest maneuvers. The conventional 6" steel clip tightly grasps everything from notes to plans, attachments to directions. Unassuming from a distance, the camouflage color makes it perfect for military exercises, defensive initiatives, and as a stylist addition to your administrative area. For enhanced durability, the camouflage clipboard is made from 100% recycled acrylic.

The perfect enhancement for administrative and industrial areas, clipboards in blue and red make color coding and organizing easy.

Aluminum clipboards for hospital, food service and heavy industrial use have a conventional 6" steel clip. Easily cleaned, these clipboards provide exceptional durability and are particularly suited for areas with sanitary considerations.

Marathon Toner Cartridges Run On and On

Marathon quality high-yield replacement Toner Cartridges bring savings three ways.

First, they're priced real low – as are all toner cartridges offered by GSA. Second, they come in recycled shells, saving precious waste landfill space and third, the long-life drums are filled with extra-dense toner, affording far greater printing yield than ordinary cartridges.

Marathon Toner Cartridges are made with all new internal components, inside recycled material shells and are 100% guaranteed. Compare the prices and yield with any other source.

They may be ordered by mail, phone, or fax using FEDSTRIP/MILSTRIP or MUFFIN or **GSA Advantage!**™

SKILCRAFT® These Postable Notes Stand Out!

Grab attention to any document with new Neon Note pads, the newest members of the SKILCRAFT®, Postable Note family. Also known in the private sector as Post-it Notes, there probably isn't a workplace without them. Everyone loves how easy they are to use, how they call attention to important points, and the way they are so easily removed without leaving a trace.

SKILCRAFT® Postable Notes are made under JWOD by the Association for the Blind and Visually Impaired, Rochester, NY, a non-profit agency affiliated with NIB. They contain 30% postconsumer recovered material.

Postable Notes are available in packs as indicated on the next page

The Best Known Brands in Copier Paper

GSA now makes available for those buyers who prefer brand names for the paper they buy, Federal Supply Schedule 75, Part XI, SIN 466-13, by which recycled copier paper from the top paper mills in the country can be procured. Names like Champion, James River, Georgia Pacific, Hammermill, Springhill, Boise Cascade and Xerox (Limited quantities, only).

The paper is standard 8-1/2" x 11", #20 bond with 20% postconsumer material (PCM) content and is competitively priced when compared to private sector retailers and includes sliding scale discounts. Note, however, you will find that small quantities will be less competitive in price.

Note also, that paper from some of these self-same mills has always been available from GSA stock, however, specifying these brands is not been possible. The contractors are:

Paper Corporation of United States, (Contract GS-15F-1110H)
Offering Unisource Copysaver, Champion Multi-purpose Recycle James River Eureka, Georgia Pacific Geocycle, Husky Recycled Xerocopy DP, Springhill Recycled Relay DP, Hammermill Savings DP, Willamette Willcopy recycled and Boise Cascade Aspen Recycled.

Contact: Ray Darmstadt,
(212) 337-5521.

Innovative Sales Brokers (Contract #GS-15F-1430H)
Offering Georgia Pacific Geocycle, Unisource Copysaver and Xerox (limited allocation).

Skilcraft® Logo Clocks

Federal agency and military logos are now available on a variety of wall clocks made by Chicago Lighthouse Industries. The Chicago Lighthouse has been manufacturing battery-operated wall clocks under the Skilcraft® trade mark for the Federal Government and military for over 20 years.

New logo clocks are a great way to display pride in your military unit or celebrate a milestone by exhibiting your specific logo on a quality time piece. These custom clocks are battery-operated and feature a lightweight, slimline construction with a durable, high-impact case and crystal. Extremely accurate to 0.33 seconds per day, clocks come with

hanger hardware for easy mounting on walls or workspaces. A variety of wall clock models are easily customized and available to fit any work area.

Logo clocks are available through FEDSTRIP/MILSTRIP or **GSA Advantage!**™. When ordering through FEDSTRIP/MILSTRIP or **GSA Advantage!**™, you must include a contact name, phone number, name of agency logo, and the preferred logo location (raised or centered, as illustrated in the photos) in the exception data section.

Chicago Lighthouse has a large library of official federal agency and military logos. If they do not have your logo on file, they will work with you to secure a copy from your agency to use on your order. Contact the Chicago Lighthouse with any questions at 1-800-842-8624.

DAY RUNNER®

Professional Support Services Washington, DC

At GSA's Services Acquisition Center, we make your job easier by taking the stress of acquisition off your mind.

We deliver direct access to the industry leaders you need in Professional Support Services. Some of our programs are:

- Auditing and Financial Management Support Services
- Financial Asset Services
- Business Information Services
- GSA SmartPay
- Equal Employment Opportunities Services
- Governmentwide Employee Relocation Services
- Temporary Support Services: Professional and Clerical
- Domestic Express Small Package Delivery Services, and
- The Airline City Pair Program

For more information on the above programs, contact us on (703) 305-6658. Please share this article with others that may benefit from these services.

We provide easy access to a multitude of approved service providers with various areas of specialization. By using FSS schedules, you are offered the control you desire because you establish a direct relationship with the Service provider. GSA stays out of the way. However, since we set up the contracts, we are always there if you need a helping hand. With our schedules, procurement lead times and administrative costs are drastically reduced. Pricing has already been pre-negotiated and found to be fair and reasonable. Our programs are in compliance with all

applicable procurement regulations and competition requirements.

What's on the Horizon?...
Marketing, Media, and Public Information Services and Engineering Support Services.

Marketing, Media and Public Information Services

Do you need assistance with any type of marketing, media, or public information services? If so, we have established a contracting vehicle for the full gambit of those services. Our schedule addresses those marketing, media and public information services that cannot be met through "in-house" production.

Contractors on this schedule can design and implement national, local, international, or internal marketing and media campaigns. Agencies can obtain assistance in informing the

public of various issues such as recruitment needs, disaster information, educational needs, drug awareness, medical and retirement programs, and much more. This schedule also provides services to help with Public Service Announcements, Direct Mailings, Billboards, Radio, Television Ads, as well as Website Design.

Other aspects of this program include writing copy, designing artwork and graphics, as well as placing such works in periodicals, newspapers, radio and television, pamphlets, brochures, or other media avenues. Contractors on schedule can also provide direct support for Commercial Photography, Video Tape Production, and Miscellaneous Business Services related to Marketing, Media, and Public Relation projects.

For more information on Marketing Media and Public Information Services, please call (703) 305-6658 or visit us on the web at:

<http://pub.fss.gsa.gov/services/market-svcs/>

Marketing, Media, and Public Information Services is not the only new kid on the block. We are in the process of developing a new schedule to assist agencies who require various engineering services.

Continued next page

Engineering Support Services

Our new Engineering Support Services Schedule will provide engineering services from small-scale efforts to complete outsourcing. If you require the assistance of Biologists, Chemists, Consultants, Engineers, Program Managers, Scientists, Statisticians, Mathematicians or Technicians. Our schedule will offer you direct access to firms capable of providing those services as they relate to engineering efforts.

Categories of Engineering Services:

Below is a listing of engineering services we may include in our schedule. We invite you to provide suggestions and comments regarding the types of services your agency will find beneficial. Please contact us on (703) 305-6658.

- Aerospace or Aeronautical
- Biological
- Building or Structural
- Chemical
- Civil
- Coastal
- Earthquake
- Electrical
- Environmental
- Geological
- Geotechnical
- Industrial
- IT Systems
- Logistics
- Marine or Naval
- Mechanical
- Mining
- Nuclear
- Petroleum

Sample Engineering Tasks:

The following is a brief listing of sample tasks that may be conducted under our FSS Engineering Schedule.

- Acquisition and Life Cycle Management
- CAD/CAE/CAM
- Consulting
- Decontamination and Decommissioning
- Design/Specifications
- Economic/Business Case Analysis
- Forensic Engineering
- Instrumentation
- Modeling and Simulation
- Operation and Maintenance
- Permitting and Licensing
- Process Engineering
- Project Management
- Prototype
- Research and Development

- Regulatory Compliance Support
- Remediation
- Reverse Engineering
- Signal Processing
- Simulation and Modeling

- Site Development
- Statistical Analysis
- Technical and Management Support
- Testing & Evaluation of Products and Systems
- Water & Waste-Water Evaluations and Analysis.

If you would like more information, please come to GSA's International Products and Services Exposition on March 31 through April 1, 1999, in San Antonio, Texas. GSA, in conjunction with industry representatives, will be presenting free training on our service programs.

If you are unable to attend the conference, give us a call on (703) 305-6658. Our customer service representatives are ready and willing to help you with all your service needs. Or visit our website at

<http://pub.fss.gsa.gov/services/engineering>

Vehicle Acquisition and Leasing Washington, DC

We Have the Right Price on Model Year 1999 Vehicles

The Office of Vehicle Acquisition and Leasing Services can now be of assistance when you are searching "For The Right Price". The Automotive Division's area has pricing in place for model year 1999 conventional fueled sedans and station wagons, as well as Alternative Fuel Vehicles, (sedans, light trucks and buses).

Pricing for sedans and station wagons, which are covered under the "Sedan Select" Program may be obtained by contacting Sara Hamilton at (703) 308-4153 or via e-mail at sara.hamilton@gsa.gov. Alternative Fuel Light Vehicle pricing may be obtained by contacting Deborah McIntosh at (703) 308-4435 or via e-mail at deborah.mcintosh@gsa.gov. Pricing information covering Alternative Fuel Buses may be obtained by contacting Jim Compton at (703) 308-4659 or via e-mail james.compton@gsa.gov.

Additional information and assistance can also be provided by Customer CARE and Marketing upon calling (703) 308-CARS.

Contracts for Wrecker and Rollback Vehicles

The GSA Office of Vehicle Acquisition and Leasing Services Automotive Division recently awarded new contracts to the following firms for wrecker and rollback truck vehicles:

Boyer Ford Truck Sales, Inc.
Jerr-Dan Corporation and
Carter Chevrolet Agency

Known as the WARRAN Program, these contracts provide an expedited procurement technique for light wreckers (Items 971 and 972) as well as light, medium and heavy rollbacks (Items 977 through 981) and will be built to meet Federal Vehicle Standards 307AA, 794P and 807D.

Wrecker tow capacities range from 4,300 lbs to 7,800 lbs and rollback payload on deck weight capacities range from 4,000 lbs to 30,000 lbs. These vehicles will provide your operators with the broadest possible coverage for meeting your needs. Consideration is given to safety as well as ease of operation and have been designed and engineered to do the total broad range of everyday work your agency requires.

The WARRAN Program has recently been converted to a multiple vendor concept and will provide customers with a wider variety of vehicles from which to choose. New vehicles include a wider variety of truck chassis which include Chevrolet, Ford, Navistar and Sterling. There are also several types of body manufacturers from which to choose which include

Miller Industries, Kilar Recovery Systems and Jerr-Dan Corporation. Customers may now place orders with the GSA Office of Vehicle Acquisition and Leasing Services Automotive Division.

It is anticipated that awards for medium and heavy wreckers will be made later this year.

Federal Vehicle Standards

*Office of Vehicle Acquisition
and Leasing Services*

2000 Model Year Federal Standards Conference May 4-6, 1999

You are invited to attend the annual GSA, Office of Vehicle Acquisition and Leasing Services, Automotive Division, 2000 model year Federal Vehicles Standards Conference. This conference will give Government and Industry the opportunity to discuss and coordinate vehicle standards for 2000 model year vehicles. Technical data will be reviewed, user agencies' needs will be discussed and agency suggestions are welcome.

Automotive Division personnel will be on hand to discuss topics including GSA *Advantage!*[™] On-line Ordering Service, Automotive Division's home page, the requisition ordering process, and methods for improving the acquisition process.

I did did not attend the 1999 Standards Conference.

I will attend:

- Federal Standard 122 - Passenger Vehicles
- Federal Standard 307 - Light Trucks
- Federal Standard 794 & 807- Medium Truck

*Rooms available at Government per-diem for authorized individuals until March 3, 1999.

It's Here... Mileage Express

The Office of Vehicle Acquisition and Leasing Services, Fleet Management Division, is happy to announce that IT'S H-E-R-E! The new GSA Fleet Drive-thru featuring Mileage Express, our new web-based mileage reporting system, went into production on November 2, 1998.

With Mileage Express, we are utilizing the information highway as a tool to collect data, provide better customer service, and cut costs for the Federal Supply Service. From now on, GSA Fleet customers can log on to the internet and input their vehicle mileages without having to hassle with the previous time consuming methods of providing this information. Mileage Express is directly linked to our Fleet Management System database, so no other data transfers are required. Future enhancements of Mileage Express will include a feature for customers to obtain daily billing updates. Future expansion of GSA Fleet Drive-thru will include a Vehicle Inventory Information System where any Fleet customer can view and/or download specific vehicle information that pertains to their vehicles. To obtain additional information on Mileage Express, please visit the Federal Supply Service home page at:

With GSA's specialized financial services, things just fall into place.

Getting the financial services you need is easier than ever before. GSA offers direct access to specialized financial services under Multiple Award Schedules — quickly and with a variety of contractors to choose from. **Meet the requirements of the CFO Act, GPRA, the Debt Collection Improvement Act of 1996 and OMB Mandates by using GSA Schedules.**

Auditing and Financial Management Services

Professional assistance with internal audits, financial statements, financial analyses, budgeting, accounting, financial surveys, and a host of other financial services

Financial Asset Services

Expert assistance with asset disposal, research and preparation of due diligence packages, all aspects of loan and asset servicing and monitoring of limited partnerships

Consumer and Commercial Credit Reporting

A multitude of consumer and business credit reporting information via credit rating companies

GSA SmartPay

Fleet, Travel and Purchase payment systems with access to integration, enhanced data, and advanced technology

Contact one of our service representatives at **703-305-6885** or visit our website at <http://pub.fss.gsa.gov/services/>

More Professional Service Schedules

Why spend valuable time and money negotiating your own service contracts when GSA has already done all of the work for you? By simply issuing task orders against existing schedule contracts, your agency can receive fast, direct access to industry leaders in the areas of travel, transportation, organizational management, and financial professional services. Multiple Award Schedules offer ordering agencies flexibility, cost savings, peace of mind, and control.

Flexibility: Wide selection of approved service providers with various areas of specialization

Cost Savings: Drastically reduced procurement lead-times and administrative costs; pre-negotiated fair and reasonable pricing

Peace of Mind: Compliance with all applicable regulations and competition requirements

Control: Direct relationship between the ordering agency and the service provider

We will be happy to assist you with any of the Service Schedules listed below.

We offer the following services:

- ▶ **Auditing and Financial Management Support Services**
Accounting, auditing, budgeting and other financial services
- ▶ **Financial Asset Services**
Assists agencies in the management, valuation, maintenance, and disposition of various assets as well as the transfer of debt
- ▶ **Consumer and Commercial Credit Reporting Services**
Collection, credit reference and mortgage reports
- ▶ **GSA SmartPay**
Integrated card system for Federal fleet, travel, and purchase transactions
- ▶ **Equal Employment Opportunity Services**
Investigation, training, counseling, alternative dispute resolution, etc.
- ▶ **Governmentwide Employee Relocation Services**
One stop shopping for employees being relocated
- ▶ **Temporary Clerical Support Services**
Temporary help in clerical fields (secretaries, receptionists, clerks, court reporters, etc.)
- ▶ **Temporary Professional Support Services**
Temporary help in professional fields (accountants, auditors, lawyers, desktop publishers, environmental analysts, etc.)
- ▶ **Domestic Express Small Package Delivery Services**
Overnight and 2nd day express delivery
- ▶ **Airline City Pair Program**
Negotiated fares with no-restrictions for employees on official travel

NIB/NISH

Javits-Wagner-O'Day (JWOD)

Get Your New JWOD Program Training Kit

Presentations, Handouts, Videos and
Catalogs Available

The Javits-Wagner-O'Day (JWOD) Program has produced several new educational tools for our Government customers--available FREE of charge--intended both for training sessions or as individual resources. The tools include a new video titled "Government at its Best," a slide (overhead projector) presentation in electronic format or transparencies, and a brand new JWOD Products and Services Catalog.

The JWOD Program (also known as NIB/NISH, for its central nonprofit agencies) is a mandatory source of supply for Federal agencies, creating jobs and training opportunities for people who are blind or who have other severe disabilities. The JWOD Program's capabilities are endless--from office supplies and cleaning products to administrative services and warehousing/distribution, to name only a few.

You can find a wide range of information on the JWOD web site maintained by the Committee for Purchase From People Who Are Blind or Severely Disabled at www.jwod.gov. JWOD items are available through GSA, and can be viewed or ordered through **GSA Advantage!**[™]

Make sure your colleagues are aware and supportive of the JWOD Program--it's easy.

Request our training kit by phone, fax or email: call (703) 603-7743, send a fax to (703) 603-0655, or sent an email to: ebeale@jwod.gov.

Go Green with JWOD

With the increased emphasis on using recycled products to save our environment, often times the question is "where can I get products made from recycled materials?" The good news is that many items manufactured under the Javits-Wagner-O'Day (JWOD) Act are environmentally friendly. Recycled content office supplies not only make our world a greener place, they fulfill JWOD procurement requirements. The items below are manufactured by NISH-affiliated industries and are available through GSA.

Loose-Leaf Index Sheets

50% Recycled Content

NSN: 7530-00-160-8475
7530-00-160-8476
7530-00-160-8477

Shipping and Storage Box

40% Post Consumer Content

NSN: 8115-00-117-8249

Mailing and Filing Tube

80% Recycled Content

NSN: 8110-00-244-7435
(other sizes available)

Red Pressboard File Folders

50% Recycled Material

NSN: 7530-00-634-1785
(other sizes, widths available)

All Calendar Products

20% post consumer content

Including the Pocket Planners, Desk Calendars and DayMax Planning Systems)

In addition to the items listed above, NISH-affiliated agencies also perform recycling services at many Federal locations, many of these service are performed as a part of custodial contracts performed for GSA. Some NISH affiliates also perform recycling and sorting of parts of military equipment, saving the Government thousands each year in reclaimed parts and materials that can be used again.

For more information about the recycled products or services provided by NISH, please contact (703) 560-6800.

Hardware and Appliances Center

Kansas City, MO

Digital Power Torque Multi-pliers

A torque wrench multiplier is used to facilitate the loosening and tightening of retaining nuts, bearing nuts, rotor clutches, turbine couplings, etc., This mechanical torque multiplier wrench with electronic digital readout displays actual torque output in foot-pounds. It features superior accuracy, versatility and portability. Has manual zero adjustment and power switch. Accuracy of display is within +/-2%, 20% of max output to max output. Clock or counter-clockwise operation. Anti-backlash device. Nearest foot-pound indication, Operation accuracy from 25° to 12° F. Protractor is provided to measure the degree of turn. Provided with a 3/8" male square drive input hand crank and a male square drive output shaft. Requires torque bar wrench. Carrying case provided.

NSN: 5120-00-169-2986
Part No: DPT-1200 or PD1201
Capacity: 0-1200 ft. lb.
Graduation: 1 ft.-lb.
Required Input to Max Output
Torque: 10 ft. lb.
Input Drive: 3/8" female sq. drive
Output Drive: 3/4" female sq. drive
Input Socket: 3/8" sq. drive
Output Socket: 6: long 3/4" male sq. drive output shaft
Size: 5-3/4" x 6-1/2" x 8-3/4"
Weight: 22 lbs.
U/I: EA
Price: \$2,553.66

NSN: 5120-00-482-2543
Part No: DPT-2500 or PD2501
Capacity: 0-1200 ft.-lb.
Required Input to Max Output
Torque: 14 ft. lb.
Input Drive: 3/8" female sq. drive
Output Drive: 1" female sq. drive
Input Socket: 3/8" male sq. drive
Output Socket: 8" long 1" male sq. drive output shaft
Size: 7" x 8-13/32" x 10-7/8"
Weight: 37 lbs.
U/I: EA
Price: \$4,891.68

NSN: 5120-01-008-3986
Description: Torque Wrench Bar
Part No: TRB-1200 or PF1459
Adj. Length: Steel bar from 12" to 34"
Drive: 3/8" male sq. drive
U/I: EA
Price: \$178.71

12,000 FT-LB MULTIPLIER

A multiplier, torque wrench is used to facilitate the loosening and tightening of propeller shaft retaining nuts, aircraft engine thrust bearing nuts, helicopter rotor clutch, fan and transmission nuts. Turbo-jet engine

turbine couplings and bearing retaining nuts. This multiplier has a working output of 12,000 ft.lbs. In both clock and counter-clockwise directions. Has a 3/4" sq. input female drive on both sides of the multiplier, internal spline 8/18" pitch 43 tooth output drive. The near side of the input housing has a knurled collar for positioning input sockets. This multiplier is compatible with NSN: 5120-00-613-9360. Power Wrench Adapter and NSN: 5130-01-211-2188, Air Torque Multiplier, to obtain greater output to input ratio.

NSN: 5120-00-337-9652
Part number: SWE8200

Capacity: Up to 12,000 ft. lb.
Accuracy: Within 5% of input and output values
Power Ratio: 10.7:1
Input Drive: 3/4" female sq. drive (both sides of housing)
Output Drive: 43 tooth internal spline
Input Socket: 3/4" male sq. drive
Size: 17-29/32" x 12-1/2" x 7-17/36"
Weight: 54 lbs.
Unit of issue: EA
Price: \$3,732.26

New Item

H513 Series Lockbolt Pulling Heads from Textron Aerospace Fastener

These pulling heads are designed for the installation of 5/32", 3/16" and 1/4" diameter NAS pull-type lockbolts. The -08 and the -05 diameter heads are the straight, no-swivel style. The -06 diameter head is a swivel-type allowing the rotation of the outer sleeve or anvil portion of the head to locate a flat for improved accessibility. These heads can be attached directly to the Cherry G83 or the Huck 352 power tools. Using the 552 adapter, these heads can be

attached to the Cherry G87D or the Huck 353 power tools.

Heavy-Duty Top 5.8 Amp Handle Jig Saw

Motor moves blade at 500-3,100 spm; 4-position orbital action; keyless blade change system accepts universal and t-shank blades; unique counter balance mechanism and rubber grip provide smooth operation; adjustable shoe slides forward, backward and bevels 45° in both directions without tools; variable speed trigger; 100% ball-bearing construction; dust blower keeps line of cut clear of chips.

Amp Rating (120V AC):	5.8
Max Power Output (watts):	700
Strokes per Minute:	500-3,100
Stroke length:	1"
Speed Control:	Variable
Capacity Mild Steel:	3/8"
Capacity Aluminum:	3/4"
Capacity Hardwood:	4-1/3"
Cord Length:	10 ft.
Tool Weight:	6.4 lbs.
Shipping Weight:	10.5 lbs.

Order through FEDSTRIP/MILSTRIP or MUFFIN procedures.

Price: \$132.97

Heavy-Duty 20" Variable-Speed Scroll Saw

Double parallel-link arm design dramatically reduces vibration and noise, for extremely accurate cuts; Exclusive tool-free blade holders allow blade changes in seconds; On-off switch, electronic variable speed, flexible dust blower and blade-tensioning lever are all located on the front upper arm for added convenience; Arm design moves the tool's pivot points from the back of the saw to the front, shortening the arm movement for smoother, quieter operation; arm lifts so blade can be easily threaded through the material for inside cuts; Unique arm design keeps the blade perpendicular to the work, dramatically reducing over or under cutting; Oversized, cast-iron table provides excellent material support and bevels 45° left and right; stroke length: 3/4"; SPM: 400-1,750; Amp rating: 1.3; Volts 120 AC; Depth of cut: 2"; Tool weight: 56.0 lbs.

Order through FEDSTRIP/MILSTRIP or MUFFIN procedures.

GSA Free Training Seminars

Customer Service Directors in the following regions will conduct FSS Information Seminars for local customers. While our target audience is new employees in supply and procurement/contracting, updated material will be presented that may be of use to experienced personnel. The following are tentative dates and locations. Exact dates and locations will be announced in regional mailings. Seminars are free; however, lodging and transportation, if required, are the responsibility of the attending agency.

NORTHEAST AND CARIBBEAN REGION

**Connecticut, Maine,
Massachusetts,
New Hampshire, New York,
New Jersey, Rhode Island,
Puerto Rico, Vermont and
the Virgin Islands**

(Would you like a special seminar for a group of 20 or more on a specific subject or at your location? Call Judy Poskanzer (212) 264-0305

**New York, New Jersey, Puerto Rico
