JWOD Distributors Accept Government
Purchase Cards For Payment!

NIB/NISH Javits-Wagner-O'Day (JWOD)

The Committee for Purchase from People Who are Blind or Severely Disabled

JWOD PROGRAM

The Federal Government has a crucial role to play in carrying out the Javits-Wagner-O'Day (JWOD) Act, which generates employment and training opportunities for people who are blind or who have other severe disabilities. Two central nonprofit agencies that facilitate the employment of people with severe disabilities on JWOD contracts for supplies and services are the National Industries for the Blind (NIB) and NISH.

The JWOD Program's goal is to satisfy Federal customers while providing work excellence and marketable job skills to persons with severe disabilities. In an effort to shrink the unemployment rate for the people with severe disabilities, all Federal workers with purchasing responsibilities, including purchase cardholders, should be encouraged to procure supplies and services through the JWOD Program.

From office supplies and cleaning products to hardware items, the JWOD Program delivers quality products at reasonable prices. The JWOD Program also provides a variety of services, from temporary administrative support to janitorial services.

JWOD (NIB/NISH) Continues Despite Changes in GSA Depot System

The Javits-Wagner-O'Day (JWOD) Program will continue to sell products made by people who are blind or who have other severe disabilities to Federal customers, despite the announced closing of the General Services Administration's (GSA) depot system. **In fact, the JWOD Program is and will remain a mandatory source of supplies to all entities of the Federal Government.** However, the JWOD Program will continue its partnership with GSA to offer our quality JWOD supplies through the Federal Supply Schedules Program.

"JWOD supplies will still be available through our authorized commercial distributors and military base supply centers, as they are today. We will make it as easy for Federal customers as possible to identify and purchase JWOD items during this transition, through the use of our web site, www.jwod.gov, and our toll free hot-line, (800) 433-2304," said Beverly Milkman, Executive Director of the Committee for Purchase From People Who Are Blind or Severely Disabled, the Federal agency that oversees the JWOD Program.

In the near future, the JWOD Program will unveil other exciting and convenient purchasing options for customers seeking JWOD Program supplies. On behalf of more than 33,000 people who are blind or have other severe disabilities who depend on this initiative for their employment, the JWOD Program asks all Federal customers to make every effort to buy JWOD supplies through GSA and our other channels, whenever they meet your needs.

For more than 50 years, GSA has been the primary distributor of products furnished under the JWOD Program—a unique procurement initiative that generates jobs and training for people with severe disabilities. The JWOD Program extends its appreciation to the many GSA employees who have strongly supported this effort, particularly during the past two decades.

JWOD Supplied Copier Paper Now in Stock

XEROX Brand Copier Paper goes green with GSA. With the addition of Xerox brand at the premium grade level and with a full contingent of colored papers, the GSA Recycled Copier Paper family is now in complete compliance with President's Executive Order 13101. The stricter and greener Executive Order (EO), issued October, 1998, requires that all copier paper contain 30% postconsumer material (PCM).

GSA now has compliant recycled copier paper in every size, color and at every price level. Best of all, your purchase places your agency in complete compliance with the recycling EO. As one of the country's major proponents of the use of recycled copier paper, GSA has proactively moved the industry to provide the product in sufficient quantity so Federal agencies can comply with the new tougher regulations.

GSA sells recycled copier paper only, because it is so confident about its high quality. In addition to the Xerox brand paper, GSA's other recycled copier papers are manufactured in the same mills that

make the name brands you've always used and relied on. And they give our recycled paper the same attention to quality that they've always given the best papers they manufacture.

In countless tests – as recently as last April — recycled paper has had no problem matching up to non-compliant copier paper. GSA copier paper has been equal in appearance, had fewer contaminants, and measured thicker than the non-compliant paper – and that means fewer jams. It meets all Government Printing Office (GPO) printing standards.

GSA recycled copier paper is multi-purpose. It runs well in desktop or high speed copiers, plain paper fax machines, ink jet printers, and laser printers — even manual and electric typewriters – so that you'll be saving on inventory and storage space.

Note: For best results during the warmer months, paper manufacturers recommend that all copier paper – regardless of brand – be acclimated to the atmosphere (temperature and humidity) of the room in which it is to be used for about 24 hours prior to use by simply opening the carton.

This is an opportunity to help protect the environment, save needed landfill space and preserve forestland, without sacrificing the quality and reliability your agency needs — and at the same time preserve your budget.

You can order by using FEDSTRIP/MILSTRIP, MUFFIN or by using **GSA Advantage!SM**, our on-line shopping service at: <http://www.fss.gsa.gov>
