Customer Advisory

**NSN 8030-00-664-4954,
Sealing Compound,
Topcoat, Fuel Tank**

Recently, GSA discovered that 3M has been inadvertently providing their Sealing Compound part number “EC-776” for Qualified Product Listed National Stock Number 8030-00-664-4954, instead of the required “EC-776SR” part number as specified by the QPL AMS-S-4383. “EC-776SR” is used as a sealing compound for fuel tanks and is red in color. “EC-776” that was mistakenly provided is not red in color, has a different solvent system and is primarily used as a closure for fiberboard boxes. This problem has now been addressed and the correct product is being provided to all customers who ordered this item. We apologize for any inconvenience.
