$$AI = \left(\frac{183 - 50}{183} \right) \times \left(\frac{\$56,000}{2} \right)$$

(Equation 16)

$$AI = \left(\frac{133}{183} \right) \times \$28,000$$

(Equation 17)

$$AI = \$20,349.73$$

(Equation 18)
