

U.S. ARMY

U.S. ARMY AVIATION AND MISSILE COMMAND (AMCOM) - The U.S. Army Aviation and Missile Command (AMCOM) is a major subordinate command of the U.S. Army Materiel Command. AMCOM is headquartered at Redstone Arsenal. In partnership with supported Program Executive Offices and program managers, AMCOM develops, acquires, and fields Army aviation and missile systems to ensure the Army's readiness and technological superiority in any future conflict.

- Business Opportunities:
Redstone Technical Test Center

U.S. ARMY JOINT MUNITIONS COMMAND (JMC) – The JMC, headquartered at Rock Island Arsenal, Illinois, is the Army's instrument to project and sustain logistics power anywhere in the world. The command stores, maintains, accounts for, issues and reconstitutes equipment and materiel for the Army's globally prepositioned stocks. JMC is the Field Operating Agency for the Department of Defense Single Manager for Conventional Ammunition, producing, storing, maintaining and demilitarizing ammunition for all military services.

- Business Opportunities:
U.S. Army Aviation and Missile Command (AMCOM)

U.S. ARMY TANK AUTOMOTIVE AND ARMAMENTS COMMAND (TACOM) – TACOM, headquartered in Warren, Michigan, is one of the Army's largest weapon systems research, development, and sustainment organizations. TACOM's mission, serving the world over, is to provide and sustain mobility, lethality, and survivability for soldiers, other services, and our Allies through ground combat, automotive, marine and armaments technologies.

- Business Opportunities:
