

ADDRESSES: Comments on the decisions should be sent to Diane Smith, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733, telephone (214) 665-2145, facsimile (214) 665-7373, or e-mail: smith.diane@epa.gov. Oral comments will not be considered. Copies of the documents which explain the rationale for EPA's decisions and a list of the 14 water quality limited segments for which EPA disapproved Louisiana's decisions not to list can be obtained at EPA Region 6's Web site at <http://www.epa.gov/earth1r6/6wq/tmdl.htm>, or by writing or calling Ms. Smith at the above address. Underlying documents from the administrative record for these decisions are available for public inspection at the above address. Please contact Ms. Smith to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: Diane Smith at (214) 665-2145.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish Total Maximum Daily Loads (TMDLs) according to a priority ranking.

EPA's Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require states to identify water quality limited waters still requiring TMDLs every two years. The list of waters still needing TMDLs must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7). On March 31, 2000, EPA promulgated a revision to this regulation that waived the requirement for states to submit Section 303(d) lists in 2000 except in cases where a court order, consent decree, or settlement agreement required EPA to take action on a list in 2000 (65 FR 17170).

Consistent with EPA's regulations, Louisiana submitted to EPA its listing decisions under Section 303(d) on April 1, 2004 with subsequent corrections submitted on June 3, 2004 and October 19, 2004. On March 31, 2005, EPA approved Louisiana's listing of 444 water body-pollutant combinations and associated priority rankings. EPA disapproved Louisiana's decisions not to list 14 water quality limited segments and associated pollutants (or 17 water

body-pollutant combinations). EPA identified these additional waters and pollutants along with priority rankings for inclusion on the 2004 Section 303(d) List. EPA solicits public comment on its identification of 14 additional waters and associated pollutants for inclusion on Louisiana's 2004 Section 303(d) List.

Dated: April 5, 2005.

Miguel I Flores,

Director, Water Quality Protection Division, Region 6.
