[Docket No. EL05–121–000]

1. In this order, the Commission acts on three filings related to PJM Interconnection, LLC's (PJM) Regional Transmission Expansion Plan (RTEP) process. With respect to the filing in Docket No. ER04–156–006, which proposes to continue PJM's current modified zonal rate design, we are establishing a hearing under section 206 of the Federal Power Act (FPA)¹ to examine the justness and reasonableness of continuing PJM's modified zonal rate design. We accept the tariff sheets filed by certain PJM transmission owners (the PJM TOs) in Docket No. ER05–513–000, subject to further compliance filing, to establish the general methodology for recovery of costs incurred under the RTEP process. And we accept and suspend, to become effective June 1, 2005, subject to refund and to the outcome of a hearing, the filing by another group of TOs in Docket No. ER05–515–000 to establish a formula rate for recovery of transmission costs, including RTEP costs. This order benefits customers by providing the needed infrastructure to support robust competitive markets and allows PJM's TOs timely recovery of just and reasonable rates for new transmission infrastructure.
