MANAGEMENT**

**2002 and 2003 Nonforeign Area Cost-of-Living Allowance Survey Report: Revised Shelter Analyses**

**AGENCY:** Office of Personnel Management.

**ACTION:** Notice.

**SUMMARY:** This notice publishes revised shelter (rent) analyses relating to the “2002 Nonforeign Area Cost-of-Living Allowance Survey Report: Caribbean and Washington, DC, Areas” and the “2003 Nonforeign Area Cost-of-Living Allowance Survey Report: Alaska and Washington, DC, Areas.” The Federal Government uses the results of surveys such as these to set cost-of-living allowance (COLA) rates for General Schedule, U.S. Postal Service, and certain other Federal employees in Alaska, Hawaii, Guam and the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. This notice explains the revised shelter analyses adopted by the Office of Personnel Management based on additional research undertaken after the publication of these two reports.

**DATES:** Comments on this report must be received on or before October 3, 2005.

**ADDRESSES:** Send or deliver comments to Donald J. Winstead, Deputy Associate Director for Pay and Performance Policy, Strategic Human Resources Policy Division, Office of Personnel Management, Room 7H31, 1900 E Street, NW., Washington, DC 20415–8200; fax: (202) 606–4264; or e-mail: COLA@opm.gov.

**FOR FURTHER INFORMATION CONTACT:** Donald L. Paquin, (202) 606–2838; fax: (202) 606–4264; or e-mail: COLA@opm.gov.

**SUPPLEMENTARY INFORMATION:** Section 591.229 of title 5, Code of Federal Regulations, requires the Office of Personnel Management (OPM) to publish nonforeign area cost-of-living allowance (COLA) survey summary reports in the **Federal Register**. On February 9, 2004, OPM published the “2002 Nonforeign Area Cost-of-Living Allowance Survey Report: Caribbean and Washington, DC, Areas” at 69 FR 6020. On March 12, 2004, OPM published the “2003 Nonforeign Area Cost-of-Living Allowance Survey Report: Alaska and Washington, DC, Areas” at 69 FR 12002. Since publishing the results of these surveys, OPM has adopted a new methodology for calculating rent indexes. This notice describes the new methodology, the effect on the rent indexes, and the effect on the final indexes.

**New Shelter (Rental) Analyses**

OPM developed a new methodology for analyzing rental prices in consultation with the Survey Implementation Committee (SIC) and Technical Advisory Committee (TAC). The SIC and the TAC were established pursuant to the settlement of *Caraballo, et al. v. United States*, No. 1997–0027 (D.V.I.), August 17, 2000. The SIC advises and assists OPM in the implementation of the new COLA methodology to which the parties agreed. The SIC consists of five plaintiffs’ representatives from the COLA areas and two OPM

representatives. The TAC consists of three economists who have expertise in living-cost measurement. The TAC performs research for and advises the SIC.

As described in the 2002 and 2003 survey reports, OPM hired a contractor, the Center of International and Interarea Comparisons (CIIC), to analyze the housing data and estimate relative rental rates and rental indexes. CIIC is well-known for its work in international price comparisons, and one of its co-directors of research is a member of the TAC. CIIC consulted closely with the TAC and the SIC in analyzing the rental survey results.

As noted in both the 2002 and 2003 survey reports, the TAC recommended that OPM review the issue of which rental equation to use and how to choose among equations as additional rental data become available. OPM agreed to do this. As OPM acquired more rental data and more experience analyzing these data, it became apparent that the hedonic regressions (a form of multiple linear regression) used in the 2002 and 2003 analyses could be improved.

Therefore, in consultation with the SIC and TAC, OPM recomputed the rent indexes for the 2002 Caribbean and 2003 Alaska surveys. Table 1 below shows the new rent indexes. Appendix 1 shows the regression equation in SAS code and the regression results for the 2002 Caribbean survey. (SAS is a proprietary statistical analysis computer software package.) Appendix 2 shows the regression equation in SAS code and the regression results for the 2003 Alaska survey.

TABLE 1.—RENT INDEXES

Area	Previous rent index	New rent index

\*By definition, the index of the base area is always 100.00.

**New COLA Indexes**

Once OPM computed new rent indexes, it became necessary to compute new final overall COLA indexes because

these indexes would have changed compared with those OPM published with the 2002 and 2003 survey reports. Table 2 shows the new final indexes.

Appendix 3 shows the derivation of the Caribbean final indexes. Appendix 4 shows the derivation of the Alaska final indexes.
