**Proposed Project**

Operations and Scope of Public Sexually Transmitted Disease (STD) Clinics in the U.S. States and Territories—New—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC).

Many clinics around the United States (U.S.) provide care specifically targeted toward people infected with or at risk for sexually transmitted diseases. These clinics are an important community resource in many areas because they provide specialized, affordable, expert care for clients. However, little is known about the number of public clinics in the U.S. that offer categorical STD services, their geographical location, or the range and quality of services offered. Understanding the characteristics and range of public STD clinics in the U.S. and the communities they serve will provide important information about access to STD care in the public setting, as well as identify needed resources. The location of clinics can be compared to local population size and STD morbidity to assess coverage. In addition, clinic information can be used to supplement the referral database for the CDC National STD and AIDS Hotline; to assist the STD clinics in networking with each other; and to provide professionals working with STDs a more accurate and well-rounded national picture of the clinics and the communities they serve. Additional information can also be gathered to assist in developing recommendations, guidelines, programs, and activities.

CDC proposes to mail a brief survey to approximately 2,800 public health clinics in the United States regarding the range of services offered at the clinics, source of their funding, and composition of clinic staff. Respondents will be provided a stamped addressed envelope to return the survey. The only cost to respondents is their time to complete the survey.

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Public Health Clinics .....	2,800	1	15/60	700
Total .....	.....	.....	.....	700
