

3,184,000 lb (1,444.6 mt) of haddock and 31,840 lb (14.4 mt) of cod. However, the applicant believes the study can be successfully completed with a bycatch of GB cod of 20,000 lb (9.1 mt).

Therefore, to ensure that participating vessels stay within the confines of this experiment, the study will be subject to a poundage cap of 20,000 lb (9.1 mt) of GB cod, and 3,184,000 lb (1,444.6 mt) of GB haddock. Should this cap be caught, the RA would discontinue the experimental fishery. All fish landed would be subject to the minimum fish size. Although all vessels would be exempt from the haddock trip limits, non-Sector vessel would not be exempt from the cod trip limit requirements. Because the target species is haddock, the applicant has requested an exemption from the 3,600-hook limits for non-Sector vessels. Hook limits for longline fishermen were implemented as a means to reduce the catch of cod on Georges Bank. As such, the limit is unnecessary for fishermen targeting haddock. Additionally, EFPs DA-280 and DA-338 have demonstrated that the bycatch rate of cod is less than 1 percent when using fabricated baits.

REMSA scientific staff would be present on board each participating vessel, equating to 100-percent scientific data collector coverage for this experimental fishery. Scientific data collectors would be responsible for collecting all biological and environmental data on NMFS observer forms. CCCHFA would develop a full report of results and would submit this information to the NMFS Northeast Regional Office monthly. The EFPs would contain a provision that the RA has the authority to discontinue the proposed experimental fishery at any time, e.g., the RA would terminate the EFP if the Eastern U.S./Canada Area is closed due to TAC-based closures.

A draft EA has been prepared that analyzes the impacts of the proposed experimental fishery on the human environment. This draft EA concludes that the activities proposed to be conducted under the requested EFP are consistent with the goals and objectives of the FMP, would not be detrimental to the well-being of any stocks of fish harvested, and would have no significant environmental impacts. The draft EA also concludes that the proposed experimental fishery would not be detrimental to Essential Fish Habitat, marine mammals, or protected species.

The applicant may request minor modifications to the EFP throughout the year. EFP modifications may be granted without further notice if they are deemed essential to facilitate

completion of the proposed research and minimal enough so as not to change the scope or impact the initially approved EFP request.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 25, 2005.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF DEFENSE

Office of the Secretary

Joint Advisory Committee on Nuclear Weapons Surety; Meeting

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee meeting.

SUMMARY: The Joint Advisory Committee on Nuclear Weapons Surety will conduct a closed session on March 30th, 2005 at the Institute for Defense Analyses, Alexandria, VA.

The Joint Advisory Committee is charged with advising the Secretaries of Defense and Energy, and the Joint Nuclear Weapons Council on nuclear weapons surety matters. At this meeting the Joint Advisory Committee will receive classified briefings on nuclear weapons safety and security.

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended, Title 5, U.S.C. App. II, (1988)), this meeting concerns matters sensitive to the interests of national security, listed in 5 U.S.C. Section 552b(c)(1) and accordingly this meeting will be closed to the public.

Dated: February 25, 2005.

Jeannette Owings-Ballard,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Identifying and Sustaining U.S. Department of Defense/UK Ministry of Defence Defense Critical Technologies (Study) will meet in closed session on April 1, 2005, at Strategic Analysis, Inc., 3601 Wilson Boulevard, Arlington, VA. This Task Force will develop a methodology to identify unique defense technologies as well as commercially developed technologies needing augmentation to fulfill defense niche areas, and then apply the methodology to develop a list of defense critical technologies.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force should focus its effort on high leverage, differentiated and transformational technologies. The Study may then use this list of defense critical technologies to further assess the tools available to the U.S. DoD or UK MoD to develop its critical technology needs. Some of the considerations the Study should examine include mechanisms to develop niches in pre-existing technologies, foster new technology until the commercial marketplace takes over, or develop technology without any expectation of commercial development; the analysis should include a review of the applicable acquisition/business case. Finally, the Study should consider the impact of technology development in other countries and the implications that this may have on Anglo-U.S. unique needs.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. 2), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

Dated: February 25, 2005.
