

jurisdiction in which the complaint has been filed. Paragraph (a) further provides that the names, addresses, and jurisdictional responsibilities of the various OGC offices will be published in the **Federal Register** and made available on-line at SSA's Internet site, <http://www.socialsecurity.gov>. The current procedures for service of complaints and summonses in cases that do not involve judicial review of individual benefit claims arising under titles II, VIII, and/or XVI of the Act are unaffected by this change, and are set forth in a new paragraph (b).

Since complaints and summonses in cases falling within the purview of § 423.1 are appropriately served upon the Commissioner, we have also removed from that section the current reference to service upon "other employees of the Social Security Administration in their official capacities."

Regulatory Procedures

Pursuant to section 702(a)(5) of the Social Security Act, 42 U.S.C. 902(a)(5), as amended by section 102 of Public Law 103-296, SSA follows the Administrative Procedure Act (APA) rulemaking procedures specified in 5 U.S.C. 553 in the development of its regulations. The APA provides exceptions to its notice and public comment procedures when an agency finds there is good cause for dispensing with such procedures on the basis that they are impracticable, unnecessary, or contrary to the public interest.

In the case of these final rules, we have determined that, under 5 U.S.C. 553(b)(B), good cause exists for dispensing with the notice and public comment procedures. Good cause exists because these regulations merely conform our rules on service of process to our internal distribution of responsibility for the handling and processing of litigation, contain no substantive changes in policy or interpretation, and have no significant effect upon claimants for benefits or payments under the programs we administer and no significant effect upon the public. In addition, these rules provide only rules of practice and procedure which do not require public comment procedures. Therefore, opportunity for prior comment is unnecessary, and we are issuing these regulations as final rules.

In addition, we find good cause for dispensing with the 30-day delay in the effective date of a substantive rule provided by 5 U.S.C. 553(d). For the reasons cited above, we find that it is in the public interest to make this final rule effective on the date of publication.

Executive Order 12866, as Amended by Executive Order 13258

We have consulted with the Office of Management and Budget (OMB) and determined that these proposed regulations do not meet the criteria for a significant regulatory action under Executive Order (E.O.) 12866, as amended by E.O. 13258. Thus, they were not subject to OMB review. We have also determined that these rules meet the plain language requirement of Executive Order 12866, as amended by Executive Order 13258.

Regulatory Flexibility Act

We certify that these final regulations will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, as amended, 5 U.S.C. 601 et seq., as they affect only individuals. Therefore, a regulatory flexibility analysis as provided in the Regulatory Flexibility Act, as amended, is not required.

Paperwork Reduction Act

These final regulations impose no additional information collection requirements requiring OMB clearance under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501, et seq.
