

Assessment Rates

Upon issuance of the final results of this review, the Department shall determine, and the CBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates based on the total amount of antidumping duties calculated for the examined sales made during the POR divided by the total quantity (in kilograms), of the examined sales. Upon completion of this review, where the assessment rate is above *de minimis*, we shall instruct CBP to assess duties on all entries of subject merchandise by that importer.

Cash Deposit Requirements

The following cash deposit rate will be effective upon publication of the final results of this new shipper review for shipments of stainless steel flanges from India entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Tariff Act. For subject merchandise produced and exported by Hilton, the cash deposit rate will be the rate established in the final results of this review, except if the rate is less than 0.5 percent and, therefore, *de minimis*, the cash deposit rate will be zero. This cash deposit requirement, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Interested Parties

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act.

Background

The Department of Commerce (the Department) published an antidumping duty on fresh garlic from the People's Republic of China on November 16, 1994. *See Antidumping Duty Order: Fresh Garlic from the People's Republic of China*, 59 FR 28462. On December 27, 2004, the Department published the *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 69 FR 77181, in which it initiated an administrative review of this order for the period November 1, 2003, through October 31, 2004, for nineteen exporters: Clipper Manufacturing Ltd.; Fook Huat Tong Kee Pte., Ltd.; H&T Trading Company; Heze Ever-Best International Trade Co., Ltd.; Huaiyang Hongda Dehydrated Vegetable Company; Jinan Yipin Corporation, Ltd.; Jining Trans-High Trading Co., Ltd.; Jining Yun Feng Agriculture Products Co., Ltd.; Jinxiang Dong Yun Freezing Storage Co., Ltd.; Jinxiang Hongyu Freezing and Storing Co., Ltd.; Jinxiang Shanyang Freezing and Storage Co., Ltd.; Linshu Dading Private Agricultural Products Co., Ltd.; Pizhou Guangda Import and Export Co., Ltd.; Shanghai Ever Rich Trade Company; Shanghai LJ International Trading Co., Ltd.; Sunny Import & Export Limited; Taian Ziyang Food Co., Ltd.; Weifang Shennong Foodstuff Co., Ltd.; and Zhengzhou Harmoni Spice Co., Limited.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), provides that the Department will issue the preliminary results of an administrative

review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act provides further that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

The Department has determined that it is not practicable to complete the preliminary results by the current deadline of August 2, 2005. There are a number of complex factual and legal questions related to the calculation of the antidumping margins in this administrative review, in particular the analysis of the valuation of the factors of production. We require additional time to issue supplemental questionnaires, review the responses, and conduct verification if necessary. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the preliminary results by 100 days, until no later than November 10, 2005.

We are issuing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: July 28, 2005.

SUPPLEMENTARY INFORMATION:

I. Abstract

In 2002 the National Oceanic and Atmospheric Administration (NOAA) began administering the Bay Watershed Education and Training (B-WET) Program to offer competitive grants to support implementation of the Chesapeake 2000 Agreement. This will be achieved by promoting success on the agreement's significant goal for education and outreach: Beginning with the class of 2005, provide a meaningful Bay or stream outdoor experience for every school student in the watershed before graduation from high school. (Chesapeake 2000 Agreement).

The B-WET Program funding, over \$2 million per year, assists school jurisdictions in providing "Meaningful Watershed Educational Experiences" (MWEEs) to all students before they

graduate from high school. B-WET funding is awarded to organizations that provide MWEEs directly to students and to organizations that provide professional development to teachers, training them to conduct MWEEs with their students. For FY2005, 32 organizations, including non-profits, school districts, state agencies, and universities, are funded to provide MWEEs to over 27,000 students and professional development to over 2,000 teachers.

Through this evaluation, NOAA seeks to learn how B-WET-funded programs implement MWEEs and what outcomes are being achieved. In particular, the information collected will determine whether B-WET-funded MWEE programs are improving students' stewardship and academic achievement and building teachers' confidence in implementing MWEEs with their students. The evaluation's results will be used by NOAA B-WET managers to document the effects of currently-funded programs, inform future funding decisions, and identify critical "lessons learned" to share with national education communities. The instruments developed as part of this initial evaluation will also be made available to B-WET Program providers for their use in monitoring their individual programs' effectiveness.

II. Method of Collection

Depending on the response group, either paper questionnaires, electronic questionnaires, or telephone interviews are required from participants, and methods of submittal include Internet and postal service transmission of paper forms.
