[Docket No. CP05-49-000]

Northern Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Bluff Creek/Tomah Expansion Project

July 7, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Northern Natural Gas Company, (Northern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed 3.2 miles of 30-inch diameter pipeline in Lafayette County, Wisconsin at the Bluff Creek Interconnect, and increase the horsepower at the existing Chatfield compressor station.

The purpose of the proposed facilities is to enable Northern to provide a 675-pounds per square inch gauge operating pressure guarantee to Wisconsin Gas LLC at the Bluff Creek Interconnect and provide additional horsepower at the Chatfield Compressor Station to enable Northern to meet firm incremental service to Wisconsin Gas LLC on the Tomah Branchline.
