[Docket No. AD05-1-000]

Principles for Efficient and Reliable Reactive Power Supply and Consumption; Notice of Technical Conference

January 31, 2005.

Take notice that a technical conference will be held on March 8, 2005, from approximately 9 a.m. until 5 p.m. (EST) in the Commission Meeting Room on the second floor of the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC. All interested persons may attend, and registration is not required. Commissioners are expected to participate.

The technical conference will address specific issues raised in the staff report regarding reactive power supply for the nation's bulk power that will be issued on February 4, 2005. The goal of the technical conference is to discuss the proper regulatory policy toward reactive power supply and consumption.

The Commission is now soliciting nominations for speakers at the technical conference. Persons wishing to nominate themselves as speakers should do so using this electronic link: <http://www.ferc.gov/whats-new/registration/rp-03-08-speaker-form.asp>. Such nominations must be made before

the close of business, Friday, February 18, 2005, so that an agenda for the technical conference can be drafted and published.

Transcripts of the conference will be immediately available from Ace Reporting Company (202-347-3700 or 1-800-336-6646) for a fee. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live over the Internet, by phone or via satellite. Persons interested in receiving the broadcast, or who need information on making arrangements should contact David Reininger or Julia Morelli at the Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.gmu.edu> and click on "FERC."

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free (866) 208-3372 (voice) or (202) 208-1659 (TTY), or send a fax to (202) 208-2106 with the required accommodations.

For more information about the conference, please contact Derek Bandera at (202) 502-8031 (Derek.bandera@ferc.gov) or Sarah McKinley at (202) 502-8004 (sarah.mckinley@ferc.gov).

[Docket No. RM98-1-000]

Records Governing Off-the Record Communications; Public Notice

January 28, 2005.

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or prohibited off-the-record communication relevant to the merit's of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications will be included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of exempt communications recently received in the Office of the Secretary. The communications listed are grouped by docket numbers. These filings are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary (FERRIS) link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC, Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7869-4]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permits; Dow Chemical Company

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to State operating permits.

SUMMARY: The EPA Administrator signed an order, dated December 22, 2004, denying the petition to object to State operating permits issued by the Louisiana Department of Environmental Quality (LDEQ) for the Light Hydrocarbon III and Cellulose plants at

the Dow Chemical Company's facilities in Plaquemine, Iberville Parish, Louisiana. Pursuant to section 505(b)(2) of the Clean Air Act (Act), the petitioner may seek judicial review of this petition response in the United States Court of Appeals for the Fifth Circuit. Any petition must be filed within 60 days of the date this notice appears in the **Federal Register**, pursuant to section 307(d) of the Act.

ADDRESSES: You may review copies of the final order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. The final order is also available electronically at the following address: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb2002.htm>.

FOR FURTHER INFORMATION CONTACT: Ms. Mary Stanton, Air Permits Section, Multimedia Planning and Permitting Division, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, telephone (214) 665-8377, or e-mail at Stanton.Marya@epa.gov.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and, as appropriate, object to operating permits proposed by State permitting authorities under Title V of the Act, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to State operating permits if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the

grounds for the issues arose after this period.

The Louisiana Environmental Action Network (LEAN) submitted a petition requesting that the Administrator object to title V operating permits issued by LDEQ to the Dow Chemical Company, for modifications to its Light Hydrocarbon III and Cellulose Plants at Dow's facility in Plaquemine, Iberville Parish, Louisiana.

The petition maintains that the permits are inconsistent with the Act because:

(1) The emission reduction credits (ERCs) used as offsets are not valid because the underlying emission reductions were required, and not surplus;

(2) The ERCs are not valid because LDEQ improperly concluded that the underlying emission reductions occurred within 10 years of the date the offsets were used;

(3) Dow's application for ERCs was not timely under the requirements of the Louisiana Administrative Code;

(4) LDEQ's Basis For Decision on the ERC application failed to respond to all reasonable public comments;

(5) The permits should have required controls designed to achieve the Lowest Achievable Emission Rate (LAER) because Dow had insufficient offsets to avoid LAER;

(6) Offsets should have been required for 33.34 tons per year of emission increases of volatile organic compounds from emission points C6, C7, and LN, and LDEQ was inconsistent in granting those emission increases while also maintaining that the facilities were in compliance with the previously permitted emissions limitations; and

(7) In establishing the baseline for sulfur dioxide emissions for purposes of determining whether the permits constituted a significant modification, LDEQ failed to either use actual emissions over the preceding two years, or make a determination that a different
