The above districts have developed Plans, which Reclamation has evaluated and preliminarily determined to meet the requirements of these Criteria. Reclamation is publishing this notice in order to allow the public to review the Plans and comment on the preliminary determinations. Public comment on Reclamation's preliminary (*i.e.*, draft) determination is invited at this time.

**SUPPLEMENTARY INFORMATION:** We are inviting the public to comment on our preliminary (*i.e.*, draft) determination of Plan adequacy. Section 3405(e) of the CVPIA (Title 34 Pub. Also, according to Section 3405(e)(1), these Criteria must be developed " \* \* \* with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices." These Criteria state that all parties (Contractors) that contract with Reclamation for water supplies (municipal and industrial contracts over 2,000 acre-feet and agricultural contracts over 2,000 irrigable acres) must prepare Plans that contain the following information:

1. Description of the District
2. Inventory of Water Resources
3. BMPs for Agricultural Contractors
4. BMPs for Urban Contractors
5. BMP Plan Implementation
6. BMP Exemption Justification

Reclamation will evaluate Plans based on these Criteria. A copy of these Plans will be available for review at
