

These amendments will establish new commercial applicator categories. In the Pennsylvania plan, a "Public Health--Vertebrate Pest Control" category will be added to certify employees of U.S. Department of Agriculture, Wildlife Services (WS) for the use of 1080 Livestock Protection Collar (LPC). In the Virginia plan, a "Vertebrate Pest Control" category will be added to certify employees of WS for the use of LPC and the M-44 Device (M-44). WS is authorized by Congress to manage wildlife damage. Pennsylvania and Virginia certification of WS employees as pesticide applicators will allow them to purchase, use, and supervise the use of 1080 LPC and M-44 to carry out their responsibilities.

In October 1983, EPA Assistant Administrator for Solid Waste and Emergency Response, Lee M. Thomas, decided to permit the registration of 1080 LPC based on an Administrative Law Judge ruling. The decision requires applicators of 1080 LPC to receive specific training and to comply with recordkeeping and reporting requirements beyond that of applicators of restricted use pesticides. Therefore, a distinct certification process is required in any state wanting to certify applicators of 1080 LPC. The M-44 is used by certified applicators to control predators of livestock and poultry. Similar to LPC 1080, M-44 has specific use restrictions that go beyond those required for most other categories of applicators of restricted use pesticides. The amendments to the Pennsylvania and Virginia plans satisfy the specific training, recordkeeping, and reporting requirements for both LPC 1080 and M-44.

EPA has reviewed the new categories and announces its intentions to approve the amendments to the Pennsylvania and Virginia State Plans.

III. What Action is the Agency Taking?

EPA has reviewed the revised Pennsylvania and Virginia Certification Plans and finds them in compliance with FIFRA and 40 CFR part 171 and is announcing its intention to approve the amended plans and seeks public comment.

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111)
- Animal production (NAICS code 112)
- Food manufacturing (NAICS code 311)
- Pesticide manufacturing (NAICS code 32532)

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number

OPP-2005-0279. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are also available for public inspection. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. The request should: Identify the product name and registration number and specify the data or information desired.

A paper copy of the fact sheet, which provides more detail on this registration, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Rd., Springfield, VA 22161.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Did EPA Approve the Application?

The Agency approved the application after considering all required data on

risks associated with the proposed use of 4-(p-acetoxyphenyl)-2-butanone (Cuelure), and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of 4-(p-acetoxyphenyl)-2-butanone (Cuelure) in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

III. Approved Application

EPA issued a notice, published in the **Federal Register** of September 24, 2004 (69 FR 57284) (FRL-7674-5), which announced that Farma Tech International Corporation, P.O. Box 27227, Fresno, CA 93729-7227, had submitted an application to register the pesticide product, Cuelure (File Symbol 81325-R), a semiochemical attractant for manufacturing end-use products for the control of certain Tephritidae flies of the order Diptera, containing the active ingredient 4-(p-acetoxyphenyl)-2-Butanone at 98.00%, an active ingredient not included in any previously registered product.

The application was approved on September 29, 2005 as Cuelure for manufacturing end-use products to control certain Tephritidae flies of the order Diptera (EPA Registration Number 81325-1).
