

DEFENSE BASE CLOSURE AND REALIGNMENT COMMISSION

Notice of the 2005 Defense Base Closure and Realignment Commission—Open Meeting (Salt Lake City, UT)

AGENCY: Defense Base Closure and Realignment Commission.

ACTION: Notice; 2005 Defense Base Closure and Realignment Commission—Open Meeting (Salt Lake City, UT).

SUMMARY: Notice is hereby given that the open meeting of the 2005 Defense Base Closure and Realignment Commission in Salt Lake City, Utah, will be held on June 6, 2005 from 2 p.m. to 4:30 p.m. at the Salt Palace Convention Center, 100 South West Temple, Salt Lake City, Utah 84101. The delay in determining the venue, and delay of this notice resulted from unanticipated conflicts in the schedules of the various Federal, state and local officials whose participation was judged essential to a meaningful public discussion. The Commission requests that the public consult the 2005 Defense Base Closure and Realignment Commission Web site, <http://www.brac.gov>, for updates.

The Commission will meet to receive comment from Federal, state and local government representatives and the general public on base realignment and closure actions in Idaho and Utah that have been recommended by the Department of Defense (DoD). The purpose of this regional meeting is to allow communities experiencing a base closure or major realignment action

(defined as loss of 300 civilian positions or 400 military and civilian positions) an opportunity to voice their concerns, counter-arguments, and opinions in a live public forum. This meeting will be open to the public, subject to the availability of space. The Commission will not render decisions regarding the DoD recommendations at this meeting, but will gather information for later deliberations by the Commission as a whole.

DATES: June 6, 2005 from 2 p.m. to 4:30 p.m.

ADDRESSES: Salt Palace Convention Center, 100 South West Temple, Salt Lake City, Utah 84101.

FOR FURTHER INFORMATION CONTACT:

Please see the 2005 Defense Base Closure and Realignment Commission Web site, <http://www.brac.gov>. The Commission invites the public to provide direct comment by sending an electronic message through the portal provided on the Commission's website or by mailing comments and supporting documents to the 2005 Defense Base Closure and Realignment Commission, 2521 South Clark Street, Suite 600, Arlington, Virginia 22202-3920. The Commission requests that public comments be directed toward matters bearing on the decision criteria described in *The Defense Base Closure and Realignment Act of 1990*, as amended, available on the Commission Web site. Sections 2912 through 2914 of that Act describe the criteria and many of the essential elements of the 2005 BRAC process. For questions regarding this announcement, contact Mr. Dan Cowhig, Deputy General Counsel and

Designated Federal Officer, at the Commission's mailing address or by telephone at 703-699-2950 or 2708.

Dated: May 26, 2005.

POLICY JUSTIFICATION

Australia – AEGIS Weapons Systems

The Government of Australia has requested a possible sale of three MK 7 AEGIS Weapons Systems, support equipment, testing, computer programs and maintenance support, ship integration, spare and repair parts, supply support, publications and technical data, training, U.S. Government and contractor technical assistance, and other related elements of logistics support. The estimated cost is \$350 million.

Australia is an important ally in the Western Pacific. The strategic location of this political and economic power significantly contributes to ensuring peace and economic stability in the region. It is vital to the U.S. national interest to assist the Royal Australian Navy (RAN) in modernizing its surface combatant fleet so as to maintain a strong and ready self-defense capability and contribute to an acceptable military balance in the area. This procurement also aids in maintaining the U.S. Navy (USN) production base and will improve interoperability between RAN and USN forces. This proposed sale is consistent with those objectives, and facilitates burden sharing with our allies.

The proposed sale of AEGIS Weapons Systems to Australia will contribute to U.S. security objectives by providing a coalition partner with significantly improved Air Warfare capability. This will improve the Royal Australian Navy's ability to participate in coalition operations, provides common logistical support with the USN, and enhances the lethality of its Air Warfare Destroyer platform. The RAN can easily integrate the capabilities of the AEGIS Weapons Systems into their concept of operations. Australia will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principle contractors will be:

Lockheed-Martin Maritime System and Sensors	Moorestown, New Jersey
Raytheon Company, Equipment Division	Andover, Massachusetts
General Dynamics, Armament Systems	Burlington, Vermont
Lockheed Martin Maritime Systems and Sensors	Eagan, Minnesota

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of up to three U.S. Government and contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 05-13

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AEGIS Weapon System (AWS) hardware is unclassified, with the exception of the RF oscillator used in the Fire Control transmitter, which is classified Confidential. AEGIS documentation in general is unclassified; however, seven operation and maintenance manuals are classified Confidential, and one AEGIS maintenance manual supplement is classified Secret. The manuals and technical documents are limited to those necessary for operational and organizational maintenance.

2. While the hardware associated with the AN/SPY-1D(V) radar is unclassified, the computer programs are classified Secret. It is the combination of the AN/SPY-1D(V) hardware and the computer programs for the AN/SPY-1D(V) radar that constitutes the sensitive technology. The SPY-1D(V) radar hardware design and production data will not be released with this proposed sale. Some computer program documentation at the Secret level explaining the capabilities of the systems will be released to support Australian understanding of U.S. computer program development efforts. No computer program design data will be released at this time. The U.S. Navy will perform life cycle maintenance of the AEGIS weapons system computer programs.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
