### **Bureau of Industry and Security**

[Docket No. 050408100-5100-01]

#### **Revision to the Unverified List—Guidance as to “Red Flags”**

**AGENCY:** Bureau of Industry and Security, Commerce.

**ACTION:** Notice.

**SUMMARY:** On June 14, 2002, the Bureau of Industry and Security (“BIS”) published a notice in the **Federal Register** that set forth a list of persons in foreign countries who were parties to past export transactions where pre-license checks or post-shipment verifications could not be conducted for reasons outside the control of the U.S. Government (“Unverified List”). Additionally, on July 16, 2004, BIS published a notice in the **Federal Register** that advised exporters that the Unverified List would also include persons in foreign countries in transactions where BIS is not able to verify the existence or authenticity of the end-user, intermediate consignee, ultimate consignee, or other party to the transaction. These notices advised exporters that the involvement of a listed person as a party to a proposed transaction constitutes a “red flag” as described in the guidance set forth in

Supplement No. 3 to 15 CFR part 732, requiring heightened scrutiny by the exporter before proceeding with such a transaction. This notice adds one entity to the Unverified List. The entity is: Parrlab Technical Solutions, LTD, 1204, 12F Shanghai Industrial Building, 48-62 Hennesey Road, Wan Chai, Hong Kong Special Administrative Region.

**DATES:** This notice is effective April 26, 2005.

#### **SUPPLEMENTARY INFORMATION:**

In administering export controls under the Export Administration Regulations (15 CFR parts 730 to 774) (“EAR”), BIS carries out a number of preventive enforcement activities with respect to individual export transactions. Such activities are intended to assess diversion risks, identify potential violations, verify end-uses, and determine the suitability of end-users to receive U.S. commodities or technology. In carrying out these activities, BIS officials, or officials of other Federal agencies acting on BIS's behalf, selectively conduct pre-license checks (“PLCs”) to verify the bona fides of the transaction and the suitability of the end-user or ultimate consignee. In addition, such officials sometimes carry out post-shipment verifications (“PSVs”) to ensure that U.S. exports have actually been delivered to the authorized end-user, are being used in a manner consistent with the terms of a license or license exception, and are otherwise consistent with the EAR.

In certain instances BIS officials, or other Federal officials acting on BIS's behalf, have been unable to perform a PLC or PSV with respect to certain export control transactions for reasons outside the control of the U.S. Government (including a lack of cooperation by the host government authority, the end-user, or the ultimate consignee). BIS listed a number of foreign end-users and consignees involved in such transactions in the Unverified List that was included in BIS's **Federal Register** notice of June 14, 2002. See 67 FR 40910. On July 16, 2004, BIS published a notice in the **Federal Register** that advised exporters that the Unverified List would also include persons in foreign countries where BIS is not able to verify the existence or authenticity of the end user, intermediate consignee, ultimate consignee, or other party to an export transaction. See 69 FR 42652.
