Federal Railroad Administration

Agency Information Collection Activities; Request for Comments; Clearance of a New Information Collection: Work Schedules and Sleep Patterns of Railroad Dispatchers

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice and request for comments.

SUMMARY: The Federal Railroad Administration invites public comments about our intention to request the Office of Management and Budget's (OMB) approval for a new information collection. The proposed collection involves the work schedules and sleep patterns of railroad dispatchers. FRA seeks to develop an understanding of the work schedule-related fatigue issues that affect railroad dispatchers. FRA will use the data obtained from the proposed collection (a survey) to identify whether or not this segment of the railroad workforce has a work and sleep schedule pattern that may compromise their ability to carry out their safety critical role in railroad operations in a suitable manner. FRA is required by the Paperwork Reduction Act of 1995 to publish this notice. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on August 4, 2005.

DATES: Please submit comments on or before November 14, 2005.
