SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0473.
Title: Section 74.1251, Technical and Equipment Modifications.

Form Number: Not applicable.
Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 100.
Estimated Time per Response: 0.50 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement.

Total Annual Burden: 50 hours.
Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 74.1251 requires licensees to certify compliance with technical requirements upon replacement of a transmitter that can be completed without FCC approval. The certification provides to prospective users information of the modified equipment. If no such information exists, any future problems could prove difficult to solve and could result in electronic frequency interference for long periods of time. The notification of

changes in the primary FM station is used by FCC staff to keep records up-to-date and to ensure compliance with FCC rules and regulations.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

October 6, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 12, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your all Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to PRA@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams,

Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554.

Title: Section 73.3526, Local Public Inspection Files for Commercial Stations; Section 73.3527, Local Public Inspection File of Noncommercial Educational Stations; Section 76.1701, Political File; Section 73.1943, Political File.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not for-profit institutions.

Number of Respondents: 37,126.

Estimated Time per Response: 2.5 hours—160 hours per year.

Frequency of Response: Recordkeeping requirement; Third party disclosure requirement.

Total Annual Burden: 1,779,333 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 73.3526 and 47 CFR 73.3527 require that licensees and permittees of commercial and noncommercial AM, FM and TV stations maintain a file for public inspection at its main studio or at another accessible location in its community of license. The contents of the file vary according to type of service and status. The contents include, but are not limited to, copies of certain applications tendered for filing, a statement concerning petitions to deny filed against such applications, copies of ownership reports, statements certifying compliance with filing announcements in connection with renewal applications, and a list of community issues addressed by the station's programming.

These rules also specify the length of time, which varies by document type, that each record must be retained in the public file. The public and FCC use the data to evaluate information about the licensee's performance and to ensure that station is addressing issues concerning the community to which it is licensed to serve.

47 CFR 73.1943 and 47 CFR 76.1701 require licensees of broadcast stations and cable television systems, respectively, to keep and permit public inspection of a complete record

(political file) of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests. The data is used by the public to assess money expended and time allotted to a political candidate and to ensure that equal access was afforded to other legally qualified candidates. 47 CFR 76.1701 also requires that, when an entity sponsors origination cable casting material that concerns a political matter or a discussion of a controversial issue of public importance, a list must be maintained in the public file of the system that includes the sponsoring entity's chief executive officers, or members of its executive committee or of its board of directors.

Reminder That Video Relay Service (VRS) Provides Access to the Telephone System Only and Cannot Be Used as a Substitute for "In-Person" Interpreting Services or Video Remote Interpreting (VRI)

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission reminds Video Relay Service (VRS) providers, consumers, and businesses that VRS cannot be used as a substitute for "in-person" interpreting services or for Video Remote Interpreting (VRI). The Commission will continue to carefully scrutinize the provision and use of VRS to ensure that it is being used only as a means of accessing the telephone system, not as a substitute for VRI or as a means to gain free "in-person" interpreting services. Also, in this document, the Commission encourages persons requiring interpreting services and providing interpreting services, as well as VRS providers, to report any improper use of VRS to the Commission so that it may ensure that the Interstate Telecommunications Relay Service (TRS) Fund is compensating only legitimate VRS calls. The Commission continues to closely monitor alleged instances of the wrongful use of VRS, and will take whatever enforcement

action is necessary and appropriate against such misuse.

Synopsis

On September 7, 2005, the Commission issued a Public Notice to remind VRS providers, consumers, and businesses that VRS cannot be used as a substitute for "in-person" interpreting services or for Video Remote Interpreting (VRI). VRS, as a form of telecommunications relay service (TRS), is a means of giving persons with hearing disabilities access to the telephone system. The obligation of telephone companies to offer TRS is required by Congress under Title IV of the Americans with Disabilities Act of 1990 (ADA). VRS allows people with hearing disabilities whose primary language is American Sign Language (ASL) to use the Internet or another broadband connection to contact a communications assistant (CA) via video equipment. The CA then makes an outbound telephone call to a hearing person and relays the call between the two parties. Currently, the costs for VRS calls are reimbursed from the Interstate TRS Fund, which is overseen by the Commission, making VRS calls free for

consumers. By contrast, sign language interpreters facilitate communication between individuals who use sign language to communicate and those who do not. An interpreter may be used in many situations—e.g., in classrooms, during medical appointments, at staff meetings, or for business transactions—when the parties are together at the same location. Generally, interpreters are contracted and paid for on a fee-for-service basis. Video Remote Interpreting (VRI) is a service that is used when an interpreter cannot be physically present to interpret for two or more persons who are together at the same location. This service uses a video connection to provide access to an interpreter who is at a remote location. As with "in-person" interpreters, VRI services are generally contracted and paid for on a fee-for-service basis. VRS is to be used only when a person with a hearing disability, who absent such disability would make a voice telephone call, desires to make a call through the telephone system (or when, in the reverse situation, the hearing person desires to make such a call to a person with a hearing disability). See 47 CFR 64.601(17) of the Commission's rules. VRS may not be used as a substitute for an "in-person" interpreter or a VRI service.

Although the Commission has previously cautioned about the misuse of VRS as a substitute for "in-person" sign language interpreting services or VRI, it continues to receive reports that this is occurring.
