

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

November 22, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 29, 2005. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Leslie F. Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., DC 20554 or via the Internet to Leslie.Smith@fcc.gov. If you would like to obtain or view a copy of this new or revised information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pr>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Leslie F. Smith at (202) 418-0217 or via the Internet at Leslie.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0093.

Title: Application for Renewal of Radio Station License for Experimental Radio Service, FCC Form 405.

Form Number: FCC Form 405.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not for profit institutions.

Number of Respondents: 243.

Estimated Time per Response: 2.25 hour.

Frequency of Response: On occasion and two year reporting requirements; Third party disclosure.

Total Annual Burden: 547 hours.

Total Annual Costs: \$61,965.00.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On June 10, 2004, the Commission adopted a *Report and Order* that transformed the rules governing the former Multipoint Distribution Service (MDS) and Instructional Television Fixed Service (ITFS) in the 2495-2690 MHz band. Applicants in the Multipoint Distribution service now use the FCC Form 601.

FCC Form 405 is now being used *only* by the Experimental Radio Service to apply for renewal of radio stations licenses at the FCC. Section 307(c) of the Communications Act limits the term of radio licenses to ten years and requires that written applications be submitted for renewal. FCC Form 405 is required by 47 CFR part 5 of the Commission's rules.

The FCC Form 405 was previously shared by the Office of Engineering and Technology, the International Bureau and the Wireless Telecommunications Bureau. The Office of Engineering and Technology has made the following changes to FCC Form 405:

(1) On Page 1 the title was changed from "Multipoint Distribution Service" to "Experimental Radio Service." The edition date was changed to July 2005.

(2) On Page 2 all references to the Multipoint Distribution Service and WTB were removed and replaced with statements only pertaining to the Experimental Radio Service and OET. A reference to FCC Form 159 was added. The addresses and mailing instructions were amended to those used by the Experimental Licensing Branch. The edition date was changed to July 2005.

(3) On Page 3 the title was changed from "Multipoint Distribution Service" to "Experimental Radio Service." Blocks 2 and 5 were deleted and the statement "Note here any further exceptions not already covered in questions 4 and 5" in block 6 was deleted. The blocks were then renumbered 1 through 5. The edition date was changed to July 2005.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.

BILLING CODE 6712-01-P

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090-0250]

General Services Administration Acquisition Regulation; Information Collection; Zero Burden Information Collection Reports

AGENCY: Office of the Chief Acquisition Officer, GSA.

ACTION: Notice of request for comments regarding a renewal to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the General Services Administration has submitted to the Office of Management and Budget (OMB) a request to review and approve a renewal of a currently approved information collection requirement regarding zero burden information collection reports. A request for public comments was published at 70 FR 24043, May 6, 2005. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected.

DATES: Submit comments on or before: December 29, 2005.

FOR FURTHER INFORMATION CONTACT: Linda Nelson, Procurement Analyst, Contract Policy Division, at telephone (202) 501-1900 or via e-mail to linda.nelson@gsa.gov.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Ms. Jeanette Thornton, GSA Desk Officer, OMB, Room 10236, NEOB, Washington, DC 20503, and a copy to the Regulatory Secretariat (VIR), General Services Administration, Room 4035, 1800 F Street, NW., Washington, DC 20405. Please cite OMB Control No. 3090-0250, Zero Burden Information Collection Reports, in all correspondence.

SUPPLEMENTARY INFORMATION:

A. Purpose

This information requirement consists of reports that do not impose collection burdens upon the public. These collections require information which is already available to the public at large or that is routinely exchanged by firms during the normal course of business. A general control number for these collections decreases the amount of paperwork generated by the approval process.

GSA has published rules in the **Federal Register** that fall under information collection 3090-0250. The rule that prescribed clause 552.238-70 "Identification of Electronic Office Equipment Providing Accessibility for the Handicapped" was published at 56 FR 29442, June 27, 1991, titled "Implementation of Public Law 99-506", with an effective date of July 8, 1991; and Clause 552.238-74 "Industrial Funding Fee and Sales Reporting" published at 68 FR 41286, July 11, 2003.

B. Annual Reporting Burden

None.

OBTAINING COPIES OF

PROPOSALS: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (VIR), 1800 F Street, NW., Room 4035, Washington, DC 20405, telephone (202) 208-7312. Please cite OMB Control No. 3090-0250, Zero Burden Information Collection Reports, in all correspondence.

Dated: November 21, 2005.

Gerald Zaffos,

Director, Contract Policy Division.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR-215]

Update on the Status of the Superfund Substance-Specific Applied Research Program

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), U.S. Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: This Notice provides the status of ATSDR's Superfund-mandated Substance-Specific Applied Research Program (SSARP) which was last

updated in a **Federal Register** notice in 2002 (67 FR 4836). Authorized by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA, also known as the Superfund statute), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) [42 U.S.C. 9604 (i)], this research program was initiated on October 17, 1991. At that time, a list of priority data needs for 38 priority hazardous substances frequently found at waste sites was announced in the **Federal Register** (56 FR 52178). The list was subsequently revised based on public comments and published in final form on November 16, 1992 (57 FR 54150).

The 38 substances, each of which is found on ATSDR's Priority List of Hazardous Substances (68 FR 63098, November 7, 2003), are aldrin/dieldrin, arsenic, benzene, beryllium, cadmium, carbon tetrachloride, chloroethane, chloroform, chromium, cyanide, p,p'-DDT, DDE, DDD, di(2-ethylhexyl) phthalate, lead, mercury, methylene chloride, nickel, polychlorinated biphenyl compounds (PCBs), polycyclic aromatic hydrocarbons (PAHs—includes 15 substances), selenium, tetrachloroethylene, toluene, trichloroethylene, vinyl chloride, and zinc.

On July 30, 1997, priority data needs for 12 additional hazardous substances frequently found at waste sites were determined and announced in the **Federal Register** (62 FR 40820). The 12 substances, each of which is included in ATSDR's Priority List of Hazardous Substances, are chlordane, 1,2-dibromo-3-chloropropane, di-n-butyl phthalate, disulfoton, endrin (includes endrin aldehyde), endosulfan (alpha-, beta-, and endosulfan sulfate), heptachlor (includes heptachlor epoxide), hexachlorobutadiene, hexachlorocyclohexane (alpha-, beta-, delta- and gamma-), manganese, methoxychlor, and toxaphene.

More recently, priority data needs for 10 additional hazardous substances frequently found at waste sites were determined and announced in the **Federal Register** (68 FR 22704). The ten substances, each of which is included in ATSDR's Priority List of Hazardous Substances, are asbestos, benzidine, chlorinated dibenzo-p-dioxins, 1,2-dibromoethane, 1,2-dichloroethane, 1,1-dichloroethene, ethylbenzene, pentachlorophenol, 1,1,2,2-tetrachloroethane, and total xylenes.

Currently, the priority data needs for acrolein and barium are being identified and will be reported in a future **Federal Register** notice.

To date, 270 priority data needs have been identified for the 60 hazardous substances, and 86 priority data needs have been filled (Table 1). ATSDR fills these research needs through U.S. Environmental Protection Agency (EPA) regulatory mechanisms (test rules), private-sector voluntarism, and the direct use of CERCLA funds. Additional priority data needs are being addressed through collaboration with the National Toxicology Program (NTP), by ATSDR's Great Lakes Human Health Effects Research Program, and other Agency programs. Priority data needs documents describing ATSDR's rationale for prioritizing research needs for each substance are available. See **ADDRESSES** section of this Notice.

This Notice also serves as a continuous call for voluntary research proposals. Private-sector organizations may volunteer to conduct research to address specific priority data needs identified in this Notice by indicating their interest through submission of a letter of intent to ATSDR (see **ADDRESSES** section of this Notice). A Tri-Agency Superfund Applied Research Committee (TASARC) composed of scientists from ATSDR, National Institute of Environmental Health Sciences (NIEHS)/NTP, and the EPA, will review all proposed voluntary research studies.

DATES: ATSDR provides updates on the status of its Substance-Specific Applied Research Program approximately every three years or sooner, as needed. ATSDR considers the voluntary research effort to be important to the continuing implementation of the SSARP. Therefore, the Agency strongly encourages private-sector organizations to volunteer at any time to conduct research to fill data needs until ATSDR announces that other research mechanisms are in place to address those specific data needs.

ADDRESSES: Private-sector organizations interested in volunteering to conduct research can write to Yee-Wan Stevens, M.S., Applied Toxicology Branch, Division of Toxicology and Environmental Medicine, ATSDR, 1600 Clifton Road, NE., Mailstop F-32, Atlanta, Georgia 30333, e-mail: YStevens@cdc.gov. Information about pertinent ongoing or completed research that may fill priority data needs cited in this Notice should be similarly addressed.

Other Requirements: Projects that involve the collection of information from ten or more individuals and funded by cooperative agreement will be subject to review by the Office of
