

probability of an unavailable important public health benefit.

Under section 610 of the Clean Air Act (42 U.S.C. 7671(i)), MDIs that are not the subject of an essential-use designation cannot be legally distributed in interstate commerce.

We particularly encourage comments on the second criterion in § 2.125(f)(i) regarding the public health benefit derived from the availability of these products in the OTC setting. Information that may aid in the Committee's discussion of essential use includes:

- Who currently uses OTC epinephrine MDIs?
- How many of these MDIs are used annually?
- What are the alternatives if these products are no longer available?
- From literature sources, what is the value of use of the product to the users, and why do they use it?
- What established treatment guidelines recommend the use of OTC epinephrine?
- How many people with asthma do not have ready access to prescription medication through healthcare professionals?

The background material will become available no later than the day before the meeting and will be posted under the Nonprescription Drugs Advisory Committee (NDAC) and the Pulmonary Drugs Advisory Committee (PADAC) on FDA's website at <http://www.fda.gov/ohrms/dockets/ac/acmenu.htm>. (Click on the year 2006 and scroll down to NDAC or PADAC).
