#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The IACB is responsible for promoting the development of American Indian and Alaska Native Arts and crafts, improving the economic status of members of Federally recognized Tribes, and helping to develop and expand marketing opportunities for arts and crafts produced by Native American Indians and Alaska Natives. This year, the Secretary of the Interior has mandated that each department complete a Strategic Plan. In conjunction with this plan, the Commissioners for the IACB have requested that the IACB generate baseline numbers that will be included in the Strategic Plan, as well as other statistics that will be used for evaluating and strengthening our Congressional mandate. The IACB has designed a questionnaire that would produce valid and reliable results that can be generalized to the entire universe of study. It is directed toward the Native American Indian and Alaska Native artist/artisan constituency. The questionnaire is to be utilized at Indian markets across the country, which is where most artists and artisans served by the IACB sell their work. Recently, the IACB learned that it would be able to participate in the Santa Fe Indian Market, the largest event in the

Southwest, and felt this would be an excellent opportunity to utilize the questionnaire. In order to do this, it requested emergency approval of the Indian Artist/Artisan Survey; OMB approved the survey under OMB Control Number 1085-0003. The IACB is planning to extend the information collection approval for the standard three years and to add additional surveys in other regions necessary to establish a national baseline.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

DOI is below parity with the Relevant Civilian Labor Force representation for many mission critical occupations. The Department's Strategic Human Capital Management Plan identifies the job skills that will be needed in its current and future workforce. The job skills it will need are dispersed throughout its eight bureaus and include, among others, making visitors welcome to various facilities, such as parks and refuges, processing permits for a wide variety of uses of the public lands, collecting royalties for minerals extracted from the public lands, rounding-up and adopting-out wild horses and burros found in the west, protecting archeological and cultural resources of the public lands, and enforcing criminal laws of the United States. As a result of this broad spectrum of duties and services, the Department touches the lives of most Americans.

The people who deal with the Department bring with them a wide variety of backgrounds, cultures, and experiences. A diverse workforce enables the Department to provide a measure of understanding to its customers by relating to the diverse background of those customers. By including employees of all backgrounds, all DOI employees gain a measure of knowledge, background, experience, and comfort in serving all of the Department's customers.

In order to determine if there are barriers in our recruitment and selection processes, DOI must track the demographic groups that apply for its jobs. There is no other statistically valid method to make these determinations, and no source of this information other than directly from applicants. The data collected is not provided to selecting officials and plays no part in the merit staffing or the selection processes. The data collected will be used in summary form to determine trends covering the demographic make-up of applicant pools and job selections within a given
