

Korea when we make our final dumping determination in this investigation.

Verification

As provided in section 782(i) of the Act, we will verify all information relied upon in making our final determination.

Suspension of Liquidation

In accordance with section 733(e)(2)(A) of the Act, we are directing CBP to suspend liquidation of all imports of subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal**

Register. These suspension of liquidation instructions will remain in effect until further notice.

We will instruct CBP to require a cash deposit or the posting of a bond equal to the weighted-average amount by which the NV exceeds CEP, as indicated in the chart below. The weighted-average dumping margins are as follows:

| Exporter/Manufacturer | Weighted-Average Margin Percentage | Critical Circumstances |
|---|------------------------------------|------------------------|
| Ehwa Diamond Industrial Co., Ltd. | 11.25 | Negative |
| Hyosung Diamond Industrial Co. | 6.15 | Negative |
| Shinhan Diamond Industrial Co., Ltd. | 11.25 | Negative |
| All Others | 10.56 | Negative |

The "All Others" rate is calculated exclusive of all *de minimis* margins and margins based entirely on adverse facts available.

ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our determination. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports materially injure, or threaten material injury to, the U.S. industry.

Disclosure

We will disclose the calculations used in our analysis to parties in this proceeding in accordance with 19 CFR 351.224(b).

Public Comment

Case briefs for this investigation must be submitted to the Department no later than seven days after the date of the final verification report issued in this proceeding. Rebuttal briefs must be filed five days from the deadline date for case briefs. A list of authorities used, a table of contents, and an executive summary of issues should accompany any briefs submitted to the Department. Executive summaries should be limited to five pages total, including footnotes. Section 774 of the Act provides that the Department will hold a public hearing to afford interested parties an opportunity to comment on arguments raised in case or rebuttal briefs, provided that such a hearing is requested by an interested party. If a request for a hearing is made in this investigation, the hearing will tentatively be held two days after the rebuttal brief deadline date at the U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230. Parties should

confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

Interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, U.S. Department of Commerce, Room 1870, within 30 days of the publication of this notice. Requests should contain: (1) the party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations will be limited to issues raised in the briefs.

We will make our final determination no later than 135 days after the publication of this notice in the **Federal Register**.

This determination is published pursuant to sections 733(f) and 777(i) of the Act.

Dated: December 20, 2005.

Joseph Spetrini,

Acting Assistant Secretary for Import Administration.

University of Vermont, et al., Notice of Consolidated Decision on Applications, for Duty-Free Entry of Electron Microscopes

This is a decision consolidated pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Suite 4100W, Franklin Court Building, U.S. Department of Commerce, 1099 14th Street, NW, Washington, D.C.

Docket Number: 05-045. Applicant: University of Vermont, School of Medicine, Burlington, VT 05401. Instrument: Electron Microscope, Model Morgagni 268. Manufacturer: FEI Company, Czech Republic. Intended Use: See notice at 70 FR 71465, November 29, 2005. Order Date: December 29, 2004.

Docket Number: 05-048. Applicant: Purdue University, West Lafayette, IN 47907. Instrument: Electron Microscope, Model Nova 200 NanoLab. Manufacturer: FEI Company, The Netherlands. Intended Use: See notice at 70 FR 72609, December 6, 2005. Order Date: December 17, 2004.

Docket Number: 05-045. Applicant: Purdue University, West Lafayette, IN 47907. Instrument: Electron Microscope, Model Technai G² F30 S-TWIN. Manufacturer: FEI Company, The Netherlands. Intended Use: See notice at 70 FR 72609, December 6, 2005. Order Date: December 22, 2004.

Docket Number: 05-050. Applicant: Ohio State University, Columbus, OH 43210. Instrument: Electron Microscope, Model Titan F30 S-TWIN. Manufacturer: FEI Company, The Netherlands. Intended Use: See notice at 70 FR 72609, December 6, 2005. Order Date: April 14, 2005.

Docket Number: 05-051. Applicant: The Rockefeller University, New York, NY 10021. Instrument: Electron Microscope, Model Technai G² 12 Spirit Bio Twin. Manufacturer: FEI Company, The Netherlands. Intended Use: See notice at 70 FR 72609. Order Date: April 13, 2005.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered. Reasons: Each foreign instrument provides a conventional

transmission electron microscope (CTEM) and is intended for research or scientific educational uses requiring a CTEM. We know of no CTEM, or any other instrument suited to these purposes, which was being manufactured in the United States either at the time of order of each instrument OR at the time of receipt of application by U.S. Customs and Border Protection.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, D.C.

Docket Number: 05-052. Applicant: University of Texas, Medical Branch at Galveston, 301 University Boulevard, Galveston, TX 77555. Instrument: Electron Microscope, Model JEM-2100. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is intended to be used to determine high-resolution, three dimensional structures of large biological entities such as protein, DNA, and RNA assemblies, cellular organelles, and tissues and to develop electron tomography to obtain structures of asymmetrical assemblies and of whole cells or large organelles. It will also be used to train graduate students and post-doctoral scientists in macromolecular structure determination and electron microscopy. Application accepted by Commissioner of Customs: December 1, 2005.

Docket Number: 05-053. Applicant: Howard Hughes Medical Institute, 4000

Jones Bridge Road, Chevy Chase, MD 20815-6789. Instrument: Electron Microscope, Model Techni G² F20 TWIN. Manufacturer: FEI Company, The Netherlands. Intended Use: The instrument is intended to be used for studying the structural analysis of biological complexes that makes them cellular units of function, and the structural bases for regulating such complexes including structural characterization of microtubules and their interaction with cellular factors and antimetabolic ligands, transcription initiation and regulation, and the molecular machinery involved in transcription-coupled DNA repair. It will also be used for undergraduate and graduate research. Application accepted by Commissioner of Customs: December 7, 2005.

Docket Number: 05-054. Applicant: University of Illinois, Suite 212 Tech Plaza, 616 East Green Street, Champaign, IL 61820. Instrument: Curved Image Plate Detector. Manufacturer: Technische Universität Darmstadt, Germany. Intended Use: The instrument is intended to be used to develop a fast, high-resolution, x-ray powder diffraction apparatus using a beamline facility at the Advanced Photon Source of Argonne National Laboratory. It will be employed to study in-situ, high temperature (to 2000 degrees C) material properties and behavior of ceramics and ceramic composites including phase transformation mechanisms (e.g., martensitic), the kinetics of phase transformations and the chemical reactions of binary and ternary mixtures of ceramic materials, and phase equilibria and phase diagrams with the general goal of developing tougher and stronger high temperature structural composites. Application accepted by Commissioner of Customs: December 7, 2005.

Docket Number: 05-055. Applicant: Rutgers, The State University of New Jersey, 3 Rutgers Plaza, New Brunswick, NJ 08901-8859. Instrument: Near-field Optical Microscope for integration with micro-Raman. Manufacturer: Nanonics Imaging Ltd., Israel. Intended Use: The instrument is intended to be used to image the structure and map the chemistry of example nanostructured materials (such as silicon wafers) in a variety of undergraduate laboratory courses involving nanomaterials. Application accepted by Commissioner of Customs: December 9, 2005.

DOCKET NUMBER: 05-056. Applicant: University of Illinois at Chicago, Department of Physics (m/c 273), 845 West Taylor Street, Chicago, IL 60607-7059. Instrument: Magnesium Fluoride

Windows. Manufacturer: Laser-Laboratorium, Gottingen, Germany. Intended Use: The instrument is intended to be used to provide amplification of a light beam to a power above 10 to the 12th W for studies including the following:

1. Measuring fragments such as ions and photons of materials irradiated directly with an intense ultraviolet beam
2. Determining the energy flow and the nature of secondary radiation produced
3. Instrumental control of the focus, thereby maximizing the intensity at which such experiments can be conducted
4. Studying absorption and excitation.

The instrument will also be used for instruction of graduate students. Application accepted by Commissioner of Customs: December 9, 2005

International Trade Administration

United States Travel and Tourism Advisory Board; Meeting

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of an open meeting.

SUMMARY: The United States Travel and Tourism Advisory Board ("Board") will hold a meeting to discuss topics related to the travel and tourism industry. The meeting will include discussion of the enhanced mandate of the Board, the international advertising and promotion campaign which seeks to encourage individuals to travel to the United States for the express purpose of engaging in tourism, and future issues and initiatives the Board may pursue. The meeting will be open to the public. Time will be permitted for public comment, which is limited to three minutes per speaker. To apply for public comment, please contact J. Marc Chittum, U.S. Travel and Tourism Advisory Board, Room 4043, Washington, DC 20230, telephone (202) 482-4501, or e-mail Marc.Chittum@mail.doc.gov, no later than close of business, Tuesday, January 10, 2006.

The Board is mandated by Public Law 108-7, Section 210, was initially chartered in 2003, and was re-chartered on September 21, 2005, for a two-year period to end September 20, 2007.
