#### Notice of Extension of the Preliminary Results of New Shipper Antidumping Duty Reviews: Crawfish Tail Meat From the People's Republic of China

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** March 23, 2005.

**FOR FURTHER INFORMATION CONTACT:** Scot Fullerton at (202) 482-1386 or Bobby Wong at (202) 482-0409; AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Department of Commerce (the Department) received timely requests from Dafeng Shunli Import & Export Co., Ltd. (Shunli) and Shanghai Blessing Trade Co., Ltd (Shanghai Blessing) in accordance with 19 CFR 351.214(c), for new shipper reviews of the antidumping duty order on crawfish tail meat from the PRC. *See Freshwater Crawfish Tail Meat From the People's Republic of China: Initiation of Antidumping Duty New Shipper Reviews*, 69 FR 64028 (November 3, 2004). On October 28, 2004, the Department found that the requests for review with respect to Shunli and Shanghai Blessing met all the regulatory requirements set forth in 19 CFR 351.214(b) and initiated these new shipper antidumping duty reviews covering the period September 1, 2003, through August 31, 2004. *Id.*

##### Extension of Time Limits for Preliminary Results

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(i)(1) require the Department to issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated and final results of a review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for

completion of the preliminary results of a new shipper review to 300 days if it determines that the case is extraordinarily complicated (19 CFR 351.214(i)(2)). The Department has determined that additional time is necessary to thoroughly evaluate surrogate value submissions, issue additional supplemental questionnaires, and gather additional publicly available factual information. Based on the timing of the case and necessary additional research, the preliminary results of this new shipper review cannot be completed within the statutory time limit of 180 days. Accordingly, the Department is extending the time limit for the completion of the preliminary results by 66 days from the original April 25, 2005, deadline, to June 30, 2005, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2). The final results will, in turn, be due 90 days after the date of issuance of the preliminary results, unless extended.

Dated: March 16, 2005.

**Barbara E. Tillman,**

Acting Deputy Assistant Secretary for Import Administration.

#### Notice of Amended Final Results of Antidumping Duty Administrative Review: Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On February 11, 2005, the Department of Commerce (the Department) published the final results of its antidumping duty administrative review of certain small diameter carbon and alloy seamless standard, line, and pressure pipe (seamless pipe) from Romania for the period August 1, 2002, through July 31, 2003. *See Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Final Results of Administrative Review and Final Determination Not to Revoke Order in Part*, 70 FR 7237, (February 11, 2005) (Final Results). We are amending our final results to correct a ministerial error alleged by United States Steel Corporation (U.S. Steel) (domestic interested party) pursuant to section

751(h) of the Tariff Act of 1930, as amended (the Act).

**EFFECTIVE DATE:** March 23, 2005.

**FOR FURTHER INFORMATION CONTACT:** David Layton or Erin Begnal, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0371 and (202) 482-1442, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Scope of Order

The products covered by the order are seamless carbon and alloy (other than stainless) steel standard, line, and pressure pipes and redraw hollows produced, or equivalent, to the ASTM A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-335, ASTM A-589, ASTM A-795, and the API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of the order also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters described below, regardless of specification. Specifically included within the scope of the order are seamless pipes and redraw hollows, less than or equal to 4.5 inches (114.3 mm) in outside diameter, regardless of wall-thickness, manufacturing process (hot finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish.

The seamless pipes subject to the order are currently classifiable under the subheadings 7304.10.10.20, 7304.10.50.20, 7304.31.30.00, 7304.31.60.50, 7304.39.00.16, 7304.39.00.20, 7304.39.00.24, 7304.39.00.28, 7304.39.00.32, 7304.51.50.05, 7304.51.50.60, 7304.59.60.00, 7304.59.80.10, 7304.59.80.15, 7304.59.80.20, and 7304.59.80.25 of the Harmonized Tariff Schedule of the United States (HTSUS).

Specifications, Characteristics, and Uses: Seamless pressure pipes are intended for the conveyance of water, steam, petrochemicals, chemicals, oil products, natural gas and other liquids and gases in industrial piping systems. They may carry these substances at elevated pressures and temperatures and may be subject to the application of external heat. Seamless carbon steel pressure pipe meeting the ASTM A-106 standard may be used in temperatures of up to 1000 degrees Fahrenheit, at various ASME code stress levels. Alloy pipes made to ASTM A-335 standard must be used if temperatures and stress
