

number of snowmobiles from historic highs (720 compared to 1,650 per peak day), requires the use of best available technology, which will reduce emissions (by 90%) and noise, and require all travel groups to be accompanied by guide to reduce wildlife conflicts.

Status: The NPS believes the most recent decision addresses winter use-related issues and the park's goals of protecting park resources, protecting employee and visitor health and safety, and improving the quality of the visitor experience. The NPS also believes the final rule for a Temporary Winter Use Plan honors the rulings of both Federal judges and is hopeful that legal challenges will not disrupt the implementation of the interim plan. A provision in the recently signed appropriations law guarantees that the interim plan will be in effect for at least the 2004–05 winter season. The NPS will be developing a new Environmental Impact Statement to address the long term winter use issue and that process is expected to take several years to complete.

Spring, summer, and fall visitation continues to be below the high level measured in 1995, and visitor growth appears to have diminished as an issue in the eyes of many. Separately, the park has focused on development of partnerships to encourage more sustainability in visitor use. Several partnerships encourage use of alternate fuels for transportation and facilities or highlight hybrid automobiles for transportation. Another partnership is working to reduce solid waste, foster recycling, and grow into large-scale composting of organic materials. These partnerships should help the park and adjacent communities foster a region-wide approach serving visitors more efficiently and with less resource consumption in the future.

ACTION: Notice.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (Department or DOL) is issuing this Notice to announce that DOL has moved its foreign labor certification field staff in the Atlanta and Chicago Regional Offices to the new Atlanta and Chicago National Processing Centers. This Notice provides the public in the Atlanta and Chicago regions with contact information regarding these two new processing centers. All foreign labor certification processing activities previously conducted in the Atlanta and Chicago Regional Offices will now be assumed by the corresponding Atlanta or Chicago National Processing Centers.

The regulation to implement the re-engineered permanent labor certification program was published in the **Federal Register** on December 27, 2004. The National Processing Centers will continue current functions on an interim basis and ETA will provide additional guidance as to the handling of cases which will be filed under the new rule as well as backlogged permanent labor certification cases.

Employers in the Atlanta and Chicago regions requesting H–2A workers should simultaneously submit H–2A applications to their appropriate State Workforce Agency (SWA) and respective National Processing Center. These H–2A applications should no longer be submitted to ETA's Atlanta or

Chicago Regional Offices. Employers in the Atlanta and Chicago regions requesting either permanent or H–2B workers should continue, until ETA publishes future guidance on this issue, to file permanent and H–2B applications with the appropriate SWA.
