

Exchange proposes to amend Phlx Rule 1009A(b)(6) to increase the 25% concentration limit for the highest weighted component stock to 30%, and to increase the concentration limit for the five mostly highly weighted stocks in an index consisting of fewer than 25 component securities from 60% to 65%.

III. Discussion and Commission Findings

The Commission has reviewed carefully the proposed rule change, as amended, and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁵ In particular, the Commission finds that the proposed rule change, is consistent with Section 6(b)(5) of the Act,⁶ which requires that the rules of an exchange be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national securities system, and, in general, protect investors and the public interest.

The Commission believes that this proposed rule change should provide additional flexibility to the Exchange in listing and trading narrow-based index options and reduce the instances in which the addition of a new series is restricted pursuant to Phlx Rule 1009A. The proposed rule change should also reduce instances where an index option listed on the Exchange is temporarily out of compliance with the concentration limits set forth under Phlx Rule 1009A because of changes in the market value of the underlying index components. Lastly, the Commission believes that that the concentration limit listing standards should continue to serve the purpose for which they were originally intended of not permitting a single security or small number of securities to dominate an index.

The Exchange has requested accelerated approval of the proposed rule change. The Commission notes that the proposed rule change is similar to rules previously approved for other derivative products.⁷ The Commission also notes that this proposed rule change was subject to the full comment period, with no comments received, and

acceleration by two days would facilitate the Exchange's trading of certain index options.

Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,⁸ for approving the proposed rule change, as amended, prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁹ that the proposed rule change (File No. SR-Phlx-2004-66) be, and it hereby is, approved, on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁰

Jill M. Peterson,

Assistant Secretary.
