

chemical in wastes. A facility that otherwise meets the current reporting thresholds, but estimates that the total amount of the chemical that is released, disposed of, treated, recycled, or combusted for energy recovery does not exceed 500 pounds per year, and that the chemical was manufactured, processed, or otherwise used in an amount not exceeding 1 million pounds during the reporting year, can take advantage of reporting under the alternate threshold option for that chemical for that reporting year.

Each qualifying facility that chooses to apply the alternate threshold may file the Form A Certification Statement (EPA Form 9350-2) in lieu of a complete TRI reporting Form R (EPA Form 9350-1). In submitting the Form A Certification Statement, the facility certifies that the sum of the amount of the EPCRA section 313 chemical released, disposed of, treated, recycled, or combusted for energy recovery not exceed 500 pounds for the reporting year, and that the chemical was manufactured, processed, or otherwise used in an amount not exceeding 1 million pounds during the reporting year. Use of the Form A Certification Statement represents a substantial savings to respondents, both in burden hours and in labor costs. The new Form A differs from the existing one in that certain changes were promulgated relating to the form in the Forms Modification Rule (70 FR 39931). These changes eliminated certain fields from the Form A.

The Form A Certification Statement provides communities with information that the chemical is being manufactured, processed or otherwise used at facilities. Additionally, the Form A Certification Statement provides compliance monitoring and enforcement programs and other interested parties with a means to track chemical management activities and verify overall compliance with the rule. Responses to this collection of information are mandatory (see 40 CFR part 372) and facilities subject to reporting must submit either a Form A Certification Statement or a Form R.

F. What Are EPA's Burden and Cost Estimates for This ICR?

Burden Statement: Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing

and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The annual public burden for this collection of information, which is approved under OMB Control No. 2070B0143, is estimated to average 20.6 hours per form for facilities submitting a Form A certification statement for a single listed non-PBT chemical. The ICR supporting statement provides a detailed explanation of the burden estimates that are summarized in this notice. The following is a summary of the estimates taken from the ICR supporting statement: *Estimated No. of Respondents:* 5000 respondents. *Frequency of Responses:* Annual. *Estimated Total Annual Burden Hours:* 259,192 burden hours. *Estimated Total Annual Burden Costs:* \$11.9 million.

G. What Are the Proposed Changes to This ICR?

Only a very minor adjustment to reflect the impacts of the previously mentioned Forms Modification Rule has been made to the ICR. No modeling or other changes are proposed. EPA is seeking a two-year renewal of the current EPA ICR No. 1704.07.

H. Are There Changes in the Estimates From the Last Approval?

The only changes proposed are the incorporation of reductions resulting from the Forms Modification Rule.

I. What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another Federal Register notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person(s) listed in the **FOR FURTHER INFORMATION CONTACT** section above.

Dated: August 4, 2005.

Proposed Settlement Agreement, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Proposed Settlement Agreement; Request for Public Comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended ("Act"), 42 U.S.C. 7413(g), notice is hereby given of a proposed settlement agreement, to address a lawsuit filed by Sierra Club: *Sierra Club v. Johnson*, No. 05CV00750 (ESH) (D.D.C.). On or about April 13, 2005, Sierra Club filed a complaint alleging that EPA had a mandatory duty to provide a valid response within 60 days to Sierra Club's Title V petition and to respond to the remand of the United States Court of Appeals for the Eleventh Circuit in the case of *Sierra Club v. Leavitt*, 368 F.3d 1300 (11th Cir. 2004). Sierra Club had filed a petition seeking EPA's objection to the Clean Air Act Title V operating permit for the Oglethorpe Power Corporation's Wansley Combined Cycle Energy Facility issued by the Georgia Environmental Protection Division. EPA denied the petition in an Order dated November 15, 2002. Sierra Club appealed to the Eleventh Circuit, which vacated EPA's Order and remanded to the agency for further consideration. Under the terms of the proposed settlement agreement, EPA has agreed to respond to the remand by September 15, 2005, and Sierra Club has agreed to dismiss its suit with prejudice. In addition, under the proposed settlement, EPA would make a payment to Sierra Club in settlement of its claims for attorneys' fees in this matter.

DATES: Written comments on the proposed settlement agreement must be received by September 12, 2005.

ADDRESSES: Submit your comments, identified by docket ID number OGC-2005-0012, online at <http://www.epa.gov/edocket> (EPA's preferred method); by e-mail to oei.docket@epa.gov; mailed to EPA Docket Center, Environmental Protection Agency, Mailcode: 2822T, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; or by hand delivery or courier to EPA Docket Center, EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC, between 8:30 a.m. and 4:30 p.m. Monday through Friday, excluding legal holidays. Comments on a disk or CD-

ROM should be formatted in Wordperfect or ASCII file, avoiding the use of special characters and any form of encryption, and may be mailed to the mailing address above.

FOR FURTHER INFORMATION CONTACT:

Monica Jahan Bose, Air and Radiation Law Office (2344A), Office of General Counsel, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460, telephone: (202) 564-1822.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement

This settlement would resolve a lawsuit seeking a response to an Eleventh Circuit remand with respect to a petition to object to a Title V permit issued by Georgia Environmental Protection Division for the Oglethorpe Power Corporation's Wansley Combined Cycle Energy Facility in Heard County, Georgia. Under the proposed settlement, the parties would seek to stay the pending litigation, and Sierra Club would dismiss its lawsuit if the Administrator issues a response to the court remand by September 15, 2005. The settlement does not require the Administrator to respond to the remand or the petition to object in any particular way. If the settlement becomes final and the Administrator issues a response to the remand by September 15, 2005, then EPA will make a payment to Sierra Club in settlement of Sierra Club's claims for attorneys' fees.

For a period of thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed settlement agreement from persons who were not named as parties or interveners to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determine, based on any comment which may be submitted, that consent to the settlement agreement should be withdrawn, the terms of the agreement will be affirmed.

II. Additional Information About Commenting on the Proposed Settlement

A. How Can I Get A Copy of the Settlement?

EPA has established an official public docket for this action under Docket ID No. OGC-2005-0012 which contains a

copy of the settlement. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in EPA's electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

B. How and To Whom Do I Submit Comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any

disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

Dated: August 9, 2005.

Richard B. Ossias,

Acting Associate General Counsel, Air and Radiation Law Office, Office of General Counsel.
