Electronic Notification of Commission Issuances; Notice That the Commission Secretary Will End Duplicate Paper Service of Commission Issuances

June 17, 2005.

Take notice that on June 21, 2005, the Secretary of the Commission will no longer send paper copies of Commission issuances to persons who receive electronic service of those documents. The Commission indicated in Order No. 653, issued February 10, 2005, that "in the early stages of the eService system, the Secretary will continue to send copies of Commission issuances by postal mail. This will continue for three months from the time this Final Rule becomes effective, after which notification will be solely by e-mail to contacts who are fully eRegistered, unless a waiver or exemption applies." *Electronic Notification of Commission Issuances*, 110 FERC ¶ 61,110 (2005); *order on reh'g*, 111 FERC ¶ 61,021 (2005). The three-month period ends June 21.

The Commission encourages any party intervening in Commission proceedings to ensure that all contacts for the party and for a law firm that may represent the party have created and validated eRegistration accounts. The eFiling system allows persons filing a motion to intervene to specify all of the parties to the motion and all representatives and other contacts for the parties.

Contacts for entities filing applications, petitions, or requests with the Commission should also have validated eRegistration accounts even if the application, petition, or request itself cannot be submitted to the Commission electronically. This will enable the Commission's Registry staff to select the eRegistration account for each contact so that the contact's e-mail address will appear on the service list.

All persons with eRegistration accounts should maintain those accounts to reflect current address and other information. If an account holder's e-mail address changes, and the account holder wants to preserve links to existing service lists and eSubscriptions, then that person should edit the e-mail address in the existing account instead of creating a new account. Persons should create new accounts only when, as a result of a move to another company or firm, there is no need to preserve links to service lists and eSubscriptions linked to the previous account.

For additional guidance on using FERC Online procedures for eRegistration, eFiling, and eService, refer to FERC Online Guidelines at <http://www.ferc.gov/docs-filing/ferc-guidelines.pdf>.

Magalie R. Salas,
Secretary.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202-564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 1, 2005 (70 FR 16815).

Draft EISs

EIS No. 20050157, ERP No. D-AFS-J65441-MT, Middle East Fork Hazardous Fuel Reduction Project, Implementation of Three Alternatives, Bitterroot National Forest, Sula Ranger District, Ravalli County, MT.

Summary

EPA supports the proposed action, but expressed environmental concerns about increased sediment loads and consistency with the restoration strategy in the draft Bitterroot Headwaters TMDL. EPA recommended additional watershed restoration measures such as road decommissioning and other mitigation to reduce these impacts.

Rating EC2

EIS No. 20050162, ERP No. D-CGD-G03027-00, Pearl Crossing Liquefied Natural Gas (LNG) Deepwater Port Terminal and Pipeline Project,

Proposes to Construct a Liquefied Natural Gas (LNG) Receiving, Storage, and Regasification Facility, Gulf of Mexico, Cameron and Calcasieu Parishes, LA and San Patricio County, TX.

Summary

EPA expressed objections to the open rack re-gasification system due to adverse environmental impacts to Gulf waters and habitat. EPA believes that these impacts can be corrected by the project modifications or other feasible technology, and requested additional information to evaluate and resolve the outstanding issues.

Rating EO2

EIS No. 20050166, ERP No. D-AFS-K65281-CA, Brown Project, Proposal to Improve Forest Health by Reducing Overcrowded Forest Stand Conditions, Trinity River Management Unit, Shasta-Trinity National Forest, Weaverville Ranger District, Trinity County, CA.

Summary

EPA expressed environmental concerns about the proposed alternative and impacts to water quality, old-growth and late-successional forest, and soil erosion, and requested additional information on consultation for effects to fisheries and impacts to air quality.

Rating EC2

EIS No. 20050196, ERP No. D-NPS-J61106-UT, Burr Trail Modification Project, Proposed Road Modification within Capitol Reef National Park, Garfield County, UT.

Summary

EPA has no objections to the preferred alternative.

Rating LO.

EIS No. 20050179, ERP No. DS-AFS-J65419-MT, Gallatin National Forest, Updated Information, Main Boulder Fuels Reduction Project, Implementation, Gallatin National Forest, Big Timber Ranger District, Big Timber, Sweetgrass and Park Counties, MT.

Summary

The Supplemental DEIS has addressed impacts to the northern goshawk, the issue of fire risk, and increased public and firefighter safety. EPA continues to have environmental concerns about potential effects on water quality, fisheries and riparian functions and habitats and recommends the Final EIS include mitigation measures to address these impacts.
