

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Santa Barbara Airport under the provisions of 49 U.S.C. 47501 *et seq.* (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150 by City of Santa Barbara. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR part 150 for Santa Barbara Airport were in compliance with applicable requirements, effective June 28, 2005, (FR Vol. 69 pages 40452–40453 published on July 2, 2004). The proposed noise compatibility program will be approved or disapproved on or before January 29, 2006.

DATES: The effective date of the start of FAA's review of the noise compatibility program is August 3, 2005. The public comment period ends October 3, 2005.

FOR FURTHER INFORMATION CONTACT: Jennifer Mendelsohn, Environmental Protection Specialist, AWP-621.6, Southern California Standards Section, Federal Aviation Administration, Western-Pacific Region, P.O. Box 92007, Los Angeles, California 90009-2007, Telephone: 310/725-3637. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program for Santa Barbara Airport, which will be approved or disapproved on or before January 29, 2006. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has formally received the noise compatibility program for Santa Barbara Airport, effective on August 3, 2005. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act. Preliminary

review of the submitted material indicates that it conforms to FAR part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before January 29, 2006.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration, Community and Environmental Needs Division, APP-600, 800 Independence Avenue, SW., Washington, DC 20591.

Federal Aviation Administration, Western-Pacific Region, Airports Division, Room 3012, 15000 Aviation Boulevard, Hawthorne, CA 90261.

Karen Ramsdell, Airport Director, Santa Barbara Airport, 601 Firestone Road, Goleta, CA 93117.

Questions may be directed to the individuals named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Hawthorne, California on August 3, 2005.

*Manager, Airports Division, AWP-600

[STB Finance Docket No. 34740]

The Kansas City Southern Railway Company—Temporary Trackage Rights Exemption—Union Pacific Railroad Company

Union Pacific Railroad Company (UP) has agreed to grant non-exclusive, overhead, temporary trackage rights to The Kansas City Southern Railway Company (KCS), over a portion of UP's rail line between UP milepost 230.8 (UP's Lufkin Subdivision), in Shreveport, LA, and UP milepost 217.4, at TRE Junction (UP's Dallas Subdivision), in Dallas, TX, a distance of approximately 192 miles.

The transaction was scheduled to be consummated on August 4, 2005, and the temporary trackage rights will expire on or about November 1, 2005. The purpose of the temporary trackage rights is to bridge KCS's trains while KCS's main lines are out of service due to programmed track, roadbed and structural maintenance.

As a condition to this exemption, any employees affected by the acquisition of the temporary trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980), and any employees affected by the discontinuance of those trackage rights will be protected by the conditions set out in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979).

This notice is filed under 49 CFR 1180.2(d)(8). If it contains false or

misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.
