

the environmental analysis process. Due to the extensive scoping efforts already conducted, no scoping meeting is planned.

The scoping process will include identification of potential issues, in depth analysis of significant issues, development of alternatives to the proposed action, and determination of potential environmental effects of the proposal and alternatives. While public participation in this analysis is welcome at any time, comments received within 30 days of the publication of this notice will be especially useful in the preparation of the draft environmental impact statement. The public is encouraged to take part in the planning process and to visit with Forest Service officials at any time during the analysis and prior to the decision.

Preliminary Issues

The following preliminary issues have been identified for this proposal: Construction of roads in the Underwood Inventoried Roadless Area, impacts to water quality from construction activities associated with the project, potential spreading of noxious weed species known to occur in the area because of the projects ground disturbing activities, and use of alternatives to ground based systems.

Comment Requested

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. Comments submitted during the November 2004 scoping period will be used in the environmental analysis process. Those who submitted comments at that time do not need to comment again, unless they have new comments they would like to provide. The public is encouraged to take part in the process and is encouraged to visit with Forest Service officials at any time during the analysis and prior to the decision. The Forest Service will be seeking information, comments, and assistance from Federal, State, and local agencies and other individuals or organizations that may be interested in, or affected by, the proposed vegetation management activities.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be forty-five days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the forty-five day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Siskiyou County Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Siskiyou County Resource Advisory Committee will meet in Yreka, California, December 19, 2005. The meeting will include routine business, a discussion of larger scale projects, and the recommendation for implementation of submitted project proposals.

DATES: The meeting will be held December 19, 2005, from 4 p.m. until 6 p.m.

ADDRESSES: The meeting will be held at the Yreka High School Library, Preece Way, Yreka, California.

FOR FURTHER INFORMATION CONTACT: Bob Talley, RAC Coordinator, Klamath National Forest, (530) 841-4423 or electronically at rtalley@fs.fed.us.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Public comment opportunity will be provided and individuals will have the opportunity to address the Committee at that time.

Dated: November 29, 2005.

Margaret J. Boland,

Designated Federal Official.

BROADCASTING BOARD OF GOVERNORS

Sunshine Act; Notice of Meeting

DATE AND TIME: Wednesday, November 30, 2005, 2 p.m.-3 p.m.

PLACE: Cohen Building, Room 3360, 330 Independence Avenue, SW., Washington, DC 20237.

Closed Meeting: The members of the Broadcasting Board of Governors (BBG) will meet in a special session to review and discuss budgetary issues relating to U.S. Government-funded non-military international broadcasting. This meeting is closed because if open it likely would either disclose matters that would be properly classified to be kept secret in the interest of foreign policy under the appropriate executive order (5 U.S.C. 552b.(c)(1)) or would disclose information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action. (5 U.S.C. 552b.(c)(9)(B)). In addition, part of the discussion will

relate solely to the internal personnel and organizational issues of the BBG or the International Broadcasting Bureau. (5 U.S.C. 552b.(c)(2) and (6)).

FOR FURTHER INFORMATION CONTACT: Persons interested in obtaining more information should contact Carol Booker at (202) 203-4545.

Dated: November 30, 2005.

Carol Booker,
Legal Counsel.

Corrosion-Resistant Carbon Steel Flat Products from Korea: Extension of Time Limits for the Final Results of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 5, 2005.

FOR FURTHER INFORMATION CONTACT: Victoria Cho at (202) 482-5075, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On September 22, 2004, the Department published a notice of initiation of the administrative review of the antidumping duty order on corrosion-resistant carbon steel flat products from Korea, covering the period August 1, 2003, to July 31, 2004, (the "eleventh review") (69 FR 56745). On April 7, 2005, the Department fully extended the preliminary results of the eleventh administrative review by 120 days (70 FR 17648). On September 7, 2005, the Department published the preliminary results of the eleventh administrative review (70 FR 53153). The final results of this review are currently due no later than January 5, 2006.

Extension of Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue (1) the preliminary results of a review within 245 days after the last day of the month in which occurs the anniversary of the date of publication of an order or finding for which a review is requested,

and (2) the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days and to extend the time limit for the final result to a maximum of 180 days. *See also* 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the original time limit of complex model-match issues that cuts across all of the antidumping duty orders on the subject merchandise. Therefore, the Department is extending the deadline for the final results of the above referenced review by 32 days until February 6, 2006. This extension is in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: November 28, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

International Trade Administration

(A-570-847)

Notice of Extension of Time Limit for the Final Results of the Administrative Review of the Antidumping Duty Order on Persulfates From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 5, 2005.

FOR FURTHER INFORMATION CONTACT: Charles Riggle at (202) 482-0650 or Frances Veith at (202) 482-4295, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On August 10, 2005, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty order on persulfates from the People's Republic of China ("PRC") covering the period July 1, 2003, through June 30, 2004. *See Persulfates from the People's Republic of China: Notice of Preliminary Results of Antidumping Duty Administrative*

Review, 70 FR 46476 (August 10, 2005). The Department is extending the time limit for the final results of the administrative review of the antidumping duty order on persulfates from the PRC. The final results of this review are currently due no later than December 8, 2005.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended, ("the Act"), requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of publication of the preliminary results. Completion of the final results within the 120-day period is not practicable due to several complex issues regarding the selection of the appropriate surrogate financial statements to use in the calculation of normal value for the final results. The parties have submitted extensive arguments regarding the use of financial data from producers of comparable products to derive surrogate financial ratios.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of this review by 60 days until February 6, 2006.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: November 29, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
