

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 05-066]

NASA Advisory Council, Education Advisory Committee; Meeting**AGENCY:** National Aeronautics and Space Administration.**ACTION:** Notice of meeting.**SUMMARY:** In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Education Advisory Committee (EAC).**DATES:** Monday, April 25, 2005, 9 a.m. to 4:15 p.m., Tuesday, April 26, 2005, 8:40 a.m. to 12:30 p.m.**ADDRESSES:** On Monday, April 25, 2005, the meeting will be at John F. Kennedy Space Center, Kennedy Space Center, Florida 32899. On Tuesday, April 26, 2005, the meeting will be held at the Radisson Resort at the Port, 8701 Astronaut Boulevard, Cape Canaveral, Florida, 32920.**SUPPLEMENTARY INFORMATION:** The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- Working sessions and discussion groups on the strategic roadmap and managing education projects
- Center research and education programs
- Partnerships and education

Attendees will be requested to sign a register and comply with NASA security requirements for the meeting on April 25, 2005. On Monday, April 25, 2005, civilians will have to enter the main entrance and proceed to the visitor center. Civilians will be issued a ticket and will have to go through Kennedy Space Center's security gates.

Attendance for the meeting on April 25, 2005, should be coordinated with Dr. Gregg Buckingham, gregg.a.buckingham@nasa.gov or (321) 867-8777 in the Office of Education at Kennedy Space Flight Center, Cape Canaveral, Florida.

FOR FURTHER INFORMATION CONTACT: Ms. Kimberly Allen, The Office of Education, National Aeronautics and Space Administration, Washington, DC, 20546, (202) 358-0103 for information.

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Dated: March 24, 2005.

P. Diane Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 4510-13-P

NATIONAL SCIENCE FOUNDATION**Agency Information Collection Activities: Comment Request****AGENCY:** National Science Foundation.**ACTION:** Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Pub. L. 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 70 FR 3398, and one comment was received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW. Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or via e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the

collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: On January 24, 2005, we published in the **Federal Register** (70 FR 3398) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending March 25, 2005. We received one comment regarding this notice.

Comment: B. Sachau of Florham Park, New Jersey, objects to this information collection as having customers solely in science and engineering and believes the surveys should go to the public.

Response: NSF is an independent federal agency established by Congress in 1950 (42 U.S.C. 1861 *et seq.*) with the mission to promote the progress of science; to advance the national health, prosperity, and welfare; to secure the national defense. While the focus of NSF is largely science and engineering, the purpose of these surveys is to assess public opinion, and this is emphasized in the first **Federal Register** notice when noting who respondents most likely will be. Therefore, NSF is proceeding with seeking approval from OMB.

Title of Collection: NSF Surveys to Measure Customer Service Satisfaction.

OMB Number: 3145-0157.

Type of Request: Intent to seek approval to renew an information collection.

Abstract

Proposed Project: On September 11, 1993, President Clinton issued Executive Order 12862, "Setting Customer Service Standards," which calls for Federal agencies to provide service that matches or exceeds the best service available in the private sector. Section 1(b) of that order requires agencies to "survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services." The National Science Foundation (NSF) has an ongoing need to collect information from its customer community (primarily individuals and organizations engaged in science and engineering research and education) about the quality and kind of services it provides and use that information to help improve agency operations and services.

Estimate of Burden: The burden on the public will change according to the needs of each individual customer
